The American Book Company, the leading text book manufacturers in the United States, exhibits a desire to place before the rising generation, school books that are up to date and in every particular are far in advance of the books of any other firm in the business. They send out explorers and travelers at great expense to gather the very best information that can be secured from all parts of the world so that the school that uses their books will be sure of the latest facts gathered in whatever part of the earth it treats of. An examination of their books will prove to the enterprising school officer that they cannot afford to use others.

Mr. and Mrs. R J. Nightingale received a tea set of 42 pieces of Japanese ware as a present from Mrs. Nightingale's brother who bought them in Japan and shipped them here. Last Saturday proved to be an interesting day for the L. of G. A. R. Five candidates were conducted through the trenches oer the scarred battle fields and on the long march with Sherman to the sea. Upon their arrival in camp hard tac and coffee were dealt out sufficient to last until they assemble on the 10 of March

The entertainment given last Thursday by the A. O. U. W. and D. of H. was, beyond question a success. The play was happily chosen and the playing beyond criticism. J. W. Long as a woer is hard to beat, and W. R. Mellor as the innocent object of unrequited love, was in the language of John, "Schmoot." They were supported by Mrs. Hale, Mrs. Mellor, Mrs. A. Bechthold and Mrs. Comer, all of whom are amatuer stars. The entertainment ended with a short comedy by Mrs. Arthur and J. S. Pedler, which was none behind the others. Joe plays the bashful lover to perfection on account of his natural timidity in the presence of the opposing sex. After the entertainment those who desired tripped the light fantastic toe until midnight.

Farmers should be careful in dealing with traveling sharpers. The gang who did up the school districts of this county last fall for thousands of dollars have flown, leaving the purchasers to whom they sold orders on many school districts for $47 00 each to mourn their loses. Fifteen dollars worth of supplies were sold for $47 and the districts to pay $2 20 express charges besides. In many cases they did not even furnished the supplies thereby getting the orders for nothing Our capitalists ought not to buy these orders, thereby incouraging this kind of dishonesty. They certainly know better, or at least ought to look into such business before buying fradulently obtained paper. Many of these orders will be fought to a finish in the courts, we learn. This is the only way to prevent this kind of dishonesty. The banks here, we understand, do not hold any of this paper, having refused to buy it.

DO YOU WANT A CALENDAR.

The biggest—and best—calendar ever issued by any American railroad is now being distributed by the Burlington Route.

It has twelve sheets, one for each month of the year. On each sheet is a striking illustration of some feature of of the Burlington's service or of the teritory reached by its lines—the governments fast mail running at full speed; a tourest car on its way to California; engine 1591, the largest passenger engine in the world; a library car; a compartment sleeper; the Burlington station at Omaha; a dining car; a monster freight train; Estes Park, Colo; the plunge bath at Hot Springs, S. D., Yellowstone Falls, etc.

The drawings from which the pictures were made are by Louis Braunhold, of Chicago, and cost several hundred dollars.

The size of the callendar is 22x28.

The dates are in big type which can be read at a distance of 50 feet. For business offices the Burlington calendar is simply invaluable.

Purchased in large quantities, the calendars cost the Burlington Route 27 cents apiece. With postage, packing, etc., they represent an investment of about 35 cents. Our price is 25 cents—10 cents less than cost. Write for one; stamps will do. If it is not satisfactory, send it back and your money will be promptly refunded.

The Silver Democrats in the house are greatly disgusted over Sibley's recent stand for prosperity. The Pennsylvania statesman was a tower of strength in the Democratic camp during the 1896 campaign, consequently his present turnabout is keenly felt by his erstwhile colleagues. The other day in Congress he referred to the taunts and jibes constantly directed at him from the Democratic side because of his expansion speech. They might, he said, call him turncoat if it made them feel any better, but he would nevertheless turn his coat whenever the inside looked better than the outside. "Some of my Democratic friends," he added, "would do well at this time to turn their coats inside out and thus cover the rags and tatters in which they are clothed."

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, put when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquifies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences.
