## The following letter was received Grand Land Opening!

### In the Texas Panhandle Country

Commencing July 2nd and continuing on the first and third Tuesdays during July and August, I will conduct Homeseekers Excursions to the Texas Panhandle country where the famous Spring Lake Ranch, an exceptionallay fertile body of land comprising 200,000 acres in one tract in Castro and Lamb counties in the Texas Panhandle, will be put on the market for sale for the first time. This tract of land is part of the Farwell estate, the land having been received by the late John V. Farwell of Chicago from the State of Texas in return for money advanced for the building of the Texas state capitol. This body of land has recently been bought by the Geo. G. Wright Co. of Kansas City, the largest and best known real estate dealers in the southwest, who now for the first time are putting it on the market to purchasers, in any quantity, and on such low and easy terms as will insure its quick sale and an exceptionally profitable investment.

\$4.00 per acre down, balance ten years at 6%.

Three new railroads are now in course of construction thro this tract of land and the new town of Spring Lake has just been started at the junction of two of these roads, which is destined to be the metropolis of the Texas Panhandle country.

I have secured the agency for Northeast Nebraska for the sale of this tract of land-am in on the ground floor and in a position to give my customers an inside deal. The company intends to sell every acre of this land within the next sixty days, and it is confidently expected that before the tract is sold entirely out prices will have advanced to double what they started at the opening sale.

Anyone desiring to investigate the special and grand opportunity for profitable investment at this land opening can come with me on any of these dates at the special low rate of \$25.40 for the round trip from Sioux City to Friona, Texas. The train leaves Sioux City at 6:55 Tuesday evening. thrifty, green color. I think that Leaves Kansas City the following morning in the Wright Special Pullman train, arriving at destination the following morning. Returning, leave Friona Saturday evening, getting to Sioux City Monday morning. Homeseekers provided with sleeping berths and meals on train. Land shown in automobiles.

This is positively the best proposition for land investment in the Southwest today. Purchasers now will surely double their investment before fall. Get in on the ground floor; come with me on this excursion, and if it looks well to you secure a piece of this land near the new town of Spring Lake, and you will have \$50 per acre land before two years. Land located in the shallow water district obtained in

abundance, or from 15 to 50 feet. For further information call on or write
