RY SUPT. GEO. J. BOUCHER. Regular examination July 19-20.

Institute August 19th-one week A few teachers have not yet sent in Most of the teachers are prompt in the matter of reports, and these receive due credit for their promptness. There are a few who are time in which to do half an hour's work-sometimes several month's time. To these few we will say it just lessens your chance of being recommended for the better positions, as a teacter who will not cheerfully do her

duty in one thing will not in another. There seems a certainty of a scarcity of teachers again this fall. Teachers are generally being offered an advance in salary over last year's scale.

A number of "With Credit" certificates were sent out last month. Teachers should not be satisfied with anything less, as the examination will be "eternal" unless "Credit" or "Honor" certificates are secured.

A recent ruling of the state superintendent on the question of qualifica-who have had to answer this question so frequently. Following is his rul-ing: "The fact that the assessor for any reason neglects to list the taxable property of a legal resident of a school district will not forfeit the right of such legal resident to vote at a school district meeting. A person who has resided in a school district for at least forty days and is twenty-one years of age and who owns real or personal property that was subject to taxation in the district at the last annual assessment, is a legal voter at a school district meeting." Referring to the amount of property in another letter he says, "It is immaterial whether it be 50¢, \$50, or \$50,000. A man who has personal property subject to taxa-tion cannot be deprived of his right to vote at school elections simply because such property was not listed for taxa-tion at the last annual assessment," It is presumed that by the term "men" he also means "woman," as the statute change of scene, movement and gives the same qualifications for both. O'Neill Frontier : It is always a pleasure to note that local talent comes to the front. One of the instructors

here, Prof O R Bowen, is a Holt county boy. Mr Bowen is a son of Judge Bowen, of Lincoln, county judge of this county back in the early 'nineties and long a resident of the Atkinson neighborhood. Since leaving here, Oran, as he was familarily and intimately known to the writer in those days, has taken the degree of bachelor of philosophy at the Weslyan university at University Place and master of arts at the state university. He has also acquired a charming family, he tells us, but we have not had the pleasure of meeting them yet. Mr Bowen is superintendent of the Pierce schools and is actively engaged in educational work, in which he stands high among the educators of the state.

Remarkable Rescue.

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn, the so busy that they must have additional residence of C V Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system rundown.
