We see by our exchanges that many Balls will be given on the 22d of February. A good Ball and a large attendance could be had here if some one would start the ball in motion in time. *Try it,* somebody!

Mr. Jocist, agent of the American Bible Society, will preach from the text—Blessed are the Pure in Heart, for they shall see God—on Thursday evening, January 30th, at the M. E. Church. The subject is of interest to all. Come and hear him.

The following are the officers of the American Bible Society for Nemaha county: President, R. F. Barrett; Vice President, Jonas Becker; Secretary Smith P. Tuttle; Treasurer, Wm. H. Hoover; Executive Committee, Theodore Hill, John C. Deuser, John Barnes, Geo. W. Dorsey, H. D. Snyder.

R. F. Barrett, of this city, is negotiating for the purchase of the unexpired lease of the Brownville Steam Ferry franchise. If he succeeds the steam boat *Sunset* will be used as a ferry boat. Mr. Barret has an interest in the prosperity of this section of country, and is the right man to advance our interest as well as his own.

W. D. Mahin has just finished a set of Buggy Harness for Col. R. W. Furnas that excel anything in that line ever produced in this city. The finish and workmanship cannot be excelled anywhere.—Call at his shop on Main street and examine them and his general stock, he is as reasonable a man to deal with as you ever met.

The case of the City of Brownville *vs.* John W. Middleton, *et al*, taken to the District Court on error by Defendants. District Court decided that there was error. Taken to the Supreme Court by the City. The Supreme Court dismissed the case on motion of Defendants at cost of city, because city had filed no petition in error in court below.

Through Capt. Carson we learn that Col. Furnas and Dr. McPherson reached Washington just one week from the day they started, well and eager to accomplish their mission. Nebraska has the reputation of having the best looking delegation in Washington and the most eager for railroads. No less than four delegations being on land grant missions.

Few persons but feel a contempt for a "toadeater" even while they use him. Advertisers will bear witness that 15 cents for the first and 10 cents for each additional insertion is as little as Locals can be done for "if the laborer is worthy of his hire." We shall insert them for no less, but if there be any of our patrons whose business (?) will not warrant this outlay, we'd rather insert for nothing; it is "more blessed to give than receive."

During the past week we acknowledge a visit from Samuel W. Campbell, formerly of this city, but now clerking in Mansfield & Ellingwood's Hardware and Iron Store in St. Joseph, Mo. He represents that house well and must gain popularity wherever he is known.

We notice our old fellow-citizen, S. C. Berger, is in our city on a visit. Ruba has seen much service since he left this burg, yet looks none the worse for wear.

The Reconstruction of the Southern States is only a question of time, and President Johnson and Congress must agree more than they have to work together. It would much behove it; but the sagacity required to see this and act upon it for the people that Teare & Co. have the best and cheapest stock of Dry Goods, Groceries and Boots and Shoes in Brownville; and you will convince yourselves by calling on them before buying elsewhere.

Literary Notices.

THE LADIE'S FRIEND, for February, is received. Its contents are, as usual, of the first order. The frontispiece steel plate, representing the finding of Moses in the bullrushes, is as fine as art can produce. The double steel fashion plate is elegant, and represents to perfection the latest modes in dress. Besides these there is a St. Valentine's Day picture; also the "Meteoric Shower," and many other Fashion Patterns, Fancy Work, etc. The reading matter is extensive, and from the best authors. Published by Deason & Peterson, 319 Walnut street, Philadelphia. Price $2.50 per annum, or $1.50 if taken in connection with the *Advertiser.*

FRANK LESLIE'S MAGAZINE.—In the press of other matter we have omitted to notice the greatly improved *Frank Leslie's Ladies' Magazine* for January. It greets us with a most elegant front page, gotten up in the highest style of the art. Its double fashioned plate, colored, and six page fashion plate, plain, cannot be excelled. Then come twelve pages of smaller cuts of fashions, patterns, fancy work, etc., with full descriptions. Besides this are fifty pages of closely printed reading matter, containing history, romance, poetry and travels, making it as fine and valuable a collection of good reading matter as can be found anywhere. Terms, $3.50 per annum.

THE ST. LOUIS HOME JOURNAL, published weekly in St. Louis by Sheffield & Eaton, is already entitled to a front rank in the literary papers, and as a western Home Journal, should receive the patronage of the West. No reason exists why the West should always receive her literature from the East, and if she will only patronize her own papers, a few years would show a revolution in this respect both gratifying and profitable. $2 per annum.

AMERICAN AGRICULTURIST.—It would almost be an attempt to paint the lily, to comment on the style, matter and finish of the *American Agriculturist*, published monthly by Orange Judd & Co., 245 Broadway, N. Y. Its forty large pages are well stocked with reading matter, rich in interest to any trade and profession, yet, as its name indicates, of particular value to the agriculturist. Each number contains many beautiful illustrations, specially gotten up and true to nature.—$1.50 per annum. This paper is also printed in German.

HARPER'S BAZAR is making great strides in the affections of the people, and though only in its first half year, its circulation already rivals many of the older fashion publications. It comes weekly, filled with the latest fashions, beautifully illustrated, besides many patterns, fancy work, and other general illustrations. Its reading matter is of the first order. $4 per annum.

EVERY SATURDAY—Published weekly by Ticknor & Filds, 124 Tremont street, Boston, is certainly one of the most readable periodicals of the age. Nothing trashy, all from the best authors of the times, it is fast making itself a fame and circulation excelled by few of the periodicals of the day. $5 per annum.

FRANK LESLIE'S BOYS AND GIRLS is certainly deserving of the popularity it has gained with the young folks of the land. It is one of the best papers for young folks ever published. Beautifully illustrated, and filled with choice reading matter of a character both to instruct and amuse. It is now publishing, with illustrations, Gulliver's Travels. $2.50 per annum.

THE SATURDAY EVENING POST still keeps increasing in beauty and interest. Its continued stories are not trashy, but such as are fit for all to read with benefit. Its selections are always good, and an abundance of reading is here offered at a less cost than by any other journal. $2.50 per year, or $2 if taken with the *Advertiser.*

THE CULTIVATOR AND COUNTRY GENTLEMEN.—We acknowledge an exchange from this paper, published weekly by Luther Tucker & Son, Albany, N. Y., at $3.50 per annum. It is mostly devoted to the interests of the farmer, containing thirty-two pages of excellent reading matter on subjects pertaining to the farm, indicating a mind to keep in advance in all its branches. It is one of the most desirable of its class.

All the above may be had by the single number or by the year, at the Old Book Store.

SPECIAL NOTICES.

Plants, Vines, Trees Shrubs and Flowers.—At the request of many who are anxious to get reliable selections of Vines, Trees, Shrubs, Flowers, etc., I have consented to receive orders, from now until planting time in the Spring. I represent the extensive Nurseries known as SUNNYSIDE NURSERIES, *Clinton, Iowa*, J. R. & A. BATHEN, Proprietors. All stock ordered through me, will be furnished at Nursery Prices, freight added. Catalogues, with prices, can be had by application to me in person, or by applying at the store of *Rob't Teare & Co.*, Brownville Neb. Everything furnished will be warranted true to name, quality, size and condition as represented.

R. W. FURNAS.

Brownville, Dec. 12th 1867.—11-3m

ADDRESS TO THE NERVOUS AND DEBILITATED whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable. If you are suffering or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exercise produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys frequently get out of order? Is your urine sometimes thick, milky, or ropy, or is it top or settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling upon this subject? Do you feel dull, listless, indeed tired of company, or life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flurried, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak your knees weak, and have but little spirits, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflamed by rubbing to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men from badly cured disease, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of a diuretic. *HELMBOLD'S FLUID EXTRACT BUCHU* is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our best citizens are supported from these sources, and the health and happiness, and that of Posterity, depends upon the prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upward of 19 years, prepared by

M. T. HELMBOLD, Druggist.

THE BRINKERHOFF

Corn Sheller

SEPARATOR AND CLEANER

PATENTED APRIL 12th, 1864 PATENTED FEB. 28th, 1865

Manufactured and Sold by

J. GARSIDE & CO.,

ATCHISON, KANSAS.

THE trial of this machine at various County and State Fairs, and the judgement of every one who sees and uses it, unite in pronouncing Brinkerhoff's Corn Sheller the best ever invented. With it a man can shell his crop of Corn at his leisure without an attendant; and thereby save in a short time more than the cost of a Sheller.

This Corn Sheller has taken the first premium for three years past at the New York State Fairs, when but partially perfected. It has since been brought to a degree of perfection, which makes it complete.

The following is the report of the Judges on this machine, at the great trial of Agricultural Implements held at Auburn, N. Y., in July, 1866, under the auspices of the New York State Agricultural Society:

Among the machines on exhibition was a Hand Corn Sheller, Separator and Cleaner, exhibited by J. Brinkerhoff, Auburn, N. Y. We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it the BEST CORN SHELLER WE EVER SAW. It readily adapts itself to ears of any size, or shape, shells them without injuring the ears, and the same operation separates the corn from the cob, and the chaff from the corn, and delivers the corn ready for market; and it requires but the labor of but one person to operate it. The whole affair is simple in construction and durable.
