That irrepressible Hesser has again visited the HERALD and laid upon our table a large bunch of fresh, crisp lettuce. Grasshoppers can't stop Hesser, nor bleak winter, rain or mud, suppress him; he comes as regular as day and night, with something to suit all tastes, in the way of flowers, plants, vegetables &c., &c.

We shouldn't be surprised to see him coming in next week with green peas and corn just picked. Long may he flourish, and meet with the success his energy deserves.

48t3 WM. NEVILLE.

—Master Willard Wise, son of Mr. Jonathan Wise, concluded last week that going to school as his mother bade him was not at all the thing and so instead he went off to seek his fortunes in a more agreeable way via the B. & M. to Omaha, Arrived there he did not find that his intended destination, the Barracks, was so easy for a small boy to find alone as when accompanied by some older and more knowing head to pilot the way, so taken in charge by a policeman, he spent the night in the Emigrant House, and returned with his father, who had gone up for him on the early train, a sadder and wiser boy, who had learned that school after all wasn't the worst place in the world, by any means, and that on the high roads of travel, fortunes and barracks didn't always appear at command.

HELP IN ACQUIRING KNOWLEDGE.—In acquiring a knowledge of the English Language, and especially in learning the meaning of words, probably no other work, nor many other books altogether, can afford so much aid as Webster's Unabridged Dictionary, with its 3000 Pictorial Illustrations, its precise and full definitions, its careful discriminations of synonymous words, and its many valuable tables. It is, in itself, a whole library of the language. Let one family have a copy of this work, and use it faithfully, and another be without it.—the difference in the progress of the two families in getting knowledge will be very great.

Letter From Louisville.

LOUISVILLE, NEB., Feb. 16, '78.

ED. HERALD:—Whereas, the Chronicle has left us, something which we regret of course, we must have a hearing, and inasmuch as the HERALD is the oldest in the business, we think age before beauty, and so it comes about that Louisville is represented in the HERALD this week, not that we hold any ill feeling against the Chronicle man or the paper, for if by moving to Plattsmouth he has bettered his financial condition, well and good; for we fully believe that of all institutions by which to get rich, a county newspaper is the poorest, and if, in it's new garb the Chronicle can have an influence on the evil of intemperance, we say, to its advent at Plattsmouth, "Amen." We wish it all the luck in store for it—how can we do otherwise. We can say little of the temperance cause in this place, as yet. If those who are advancing the cause, shun this place because of its intemperate atmosphere, then they are shirking their duty. We trust we will be able to report progress in the future however—and we say to the workers in the cause, "Do not pass us by."

The prospects for a church building in this place are indeed flattering, work will be commenced next month, over eight hundred dollars have been subscribed, Rev. B. F. Diffenbacker has just closed a series of protracted meetings, and met with success—quite a number are to unite with the church soon. We are glad in our hearts to note the upward growth of Zion in our place. Let the good work go on.

Fox & Glover are here still, although they sustained a heavy loss. There is a building on the same ground and nearly as full of goods as ever. They have dissolved partnership however Mr. Glover keeping the store and Mr. Fox buying grain and dealing in coal.

Since the Chronicle has left us there is strong talk of fixing up a telephone system from house to house throughout the town, as a substitute. We think it very practical, and just like the people of L. you know, for they are never behind in improvements.

M. Carroll our worthy station foreman of the B. & M., starts for New York next week to visit his brother.

Mr. Toman, the R. R. agent, is again at his post, dispatching business the same as ever, and says he finds the loss of his eye no hinderance whatever to business—which is indeed, a great satisfaction. Mr. Toman has a great many sympathizing friends in this part of the country. *

More ever and anon,
TRANSIT.

Correspondence.

JNO. A. MACMURPHY,

Dear Sir: Having made Neb. my home the greater portion of seventeen years past, and feeling identified with her interests, it gives me pleasure as opportunity offers to note the marks of progress and development of our fine State.

In my present employment, it is mine to travel as directed, in Illinois, Wisconsin, Minnesota, Iowa, Nebraska and elsewhere, and though not a practical farmer, I am an observer of the interests of this important occupation. I now embrace the privilege of visiting and remaining a brief time in some eighteen of our most important counties in Nebraska during which time I may anon give you a few items of general interest.

In the four first states above their cittizens have it is true many interests of which they may justly be proud, but none of those states can boast of as fertile soil, fine roads and such agricultural advantages as we can here. We occasionally meet in those states a man who has tried Neb. under our chief misfortune, the grasshoppers invasion, and who from his own limited means, and lack of nerve has "gone back on us." It is also true, the above invasions have advertised against us yet it is, pleasure to note the fact, that our State is well known abroad in her true greatness. Every one seems to know that we have inducements not found in any other state, and many are disposing of their homes to settle here. They speak in particular of our choice and great variety of fruits, and cereals so prominently set forth in our National records.

Generally speaking Neb. cattle swine and poultry are forty per cent superior to those in above states. Not to overlook or speak disparingly of our horses, will say, time will improve us in this direction.

In Sept. last when we heard Gov. Wade Hampton of Carolina eulogise the products of Illinois at Rockford and at her State Fair, Freport, we loudly wished Neb. had condescended to exhibit there.

But to return to Cass, the finest county in Neb for agriculture, we cannot withold the commendation due her sanguine farmers. We note steady and important development, met not only in the eastern but in the western portions of the county. Fine groves, orchards and barns adorn the rich landscape in every direction. Immense cribs of corn on nearly every farm. Some so large that their boundaries reach the North and South Poles, and from Earth to Heaven. When a man in Greenwood Precinct told us he harvested 316 bushels of choice oats from 10 bushels of seed, we would have turned "Thomas," but for the fact that he scattered our doubts.

A gentleman from Indiana recently invested $3,600 in a farm in Iowa but fearing he stopped too soon, came on to see Neb. and told some in above precinct he would take $2.000 for his place in order to settle here. He'll find no takers in Nebraska.

We incline to the opinion that Neb. will this year receive a larger emigration than any previous year, as they are now thronging Omaha and other points.

I notice your paper in nearly every business and private house, from which fact I conclude the people are trying to keep the Editor alive, else he is trying to keep the people alive. Which?

Wishing to criticise ye Editor and pitying him for being one, please find enclosed $2 for the "HERALD" for twelve months or a year as you choose. Finding myself in the "float," you may address it Plattsmouth and as Capt. J. W. has to know where everybody is, he will know where to forward it to.

A. J. SWARTZ.

THE MOST POPULAR, THE CHEAPEST, AND ONE OF THE BEST MAGAZINES PUBLISHED IN THE WORLD is Frank Leslie's Popular Monthly. The March number, now ready, contains, as does every copy of this publication, over 100 illustrations and 128 quarto pages filled with excellent matter. The articles on "Celebrated Light Houses, Ancient and Modern," by Professor Chas. A. Joy, Ph, D. Staughton Chase, (15 engravings); "The Court of the Grand Monarque," by Henry Barton Baker (6 engravings), are highly interesting. The stories are excellent, especially *"The Old Stone Staircase at Oglethoipe,"* by the author of "That Lass of Lowrie's;" and the continuation of "The American Countess," by Etta W. Pierce. There is also a large amount of carefully selected miscellany, including History, Science, Travels, Fun, &c., and a pretty chromo frontispiece. The Western Rural.

THE WESTERN RURAL, of Chicago, is rapidly growing in popularity and influence, for the enterprising and aggressive spirit it manifests. Its several departments are full of interest and admirably adapted to all the interests of the Farm and the Fireside. It advocates equal rights to all classes, and strongly opposes the encroachments of capital and the grinding monopolies which tend to get a foothold in our land. The summary of general news and market reports is excellent. In fact THE WESTERN RURAL has assumed the vantage ground as being the foremost of its kind in this country. We are not surprised that its circulation and influence are rapidly extending. 48t3

TUTT'S PILLS.

For TEN YEARS **TUTT'S PILLS** have been the recognized **standard Family Medicine** in all the **Atlantic States**—From **Maine** to **Mexico**, scarcely a family can be found that does not use them. It is now proposed to make their **virtues known** in the **WEST**, with the certainty that as soon as tested they will become as popular there as they are at the **North and South.**

TUTT'S PILLS!!

DO THEY CURE EVERYTHING?

NO.—They are intended for diseases that result from malarial Poison and a Deranged Liver.

DR. TUTT has devoted twenty-five years to the study of the Liver and the result has demonstrated that it exerts greater influence over the system than any other organ of the body;—Digestion and Assimilation of the food—on which, depends the vitality of the body,—is carried on through it; the regular action of the bowels depends on it, and when these functions are deranged, the Heart, the Brain, the Kidneys, the Skin, in fact the entire organism is affected.

SYMPTOMS OF A DISORDERED LIVER.

Dull Pain in the Side and Shoulder, loss of Appetite; Coated Tongue; Costive Bowels; Sick-headache; Drowsiness; Weight in the Stomach after eating, with Acidity and Belching up of Wind; Low Spirits; Loss of Energy; Unsociability; and forebodings of Evil.

IF THESE WARNINGS ARE NEGLECTED,

SOON FOLLOWS

DYSPEPSIA, BILIOUS FEVER, CHILLS, JAUNDICE, COLIC, NERVOUSNESS, PALPITATION OF THE HEART, NEURALGIA, KIDNEY DISEASE, CHRONIC DIARRHŒA, AND A GENERAL BREAKING DOWN OF THE SYSTEM.

HEED THE WARNING!

TAKE

TUTT'S PILLS.

The first dose produces an effect which often astonishes the sufferer, giving a cheerfulness of mind and bouyancy of body, to which he was before a stranger. They create an Appetite, Good Digestion, and

SOLID FLESH AND HARD MUSCLE.

A LOUISANA PLANTER SAYS:

"My plantation is in a malarial district. For several years I could not make half a crop on account of sickness. I employ one hundred and fifty hands, often half of them were sick. I was nearly discouraged when I began the use of **TUTT'S PILLS.** I used them as a precaution as well as a cure. The result was marvellous; my laborers became hearty, robust, and happy, and I have had no further trouble. With these Pills I would not fear to live in the Okofonokee swamp."

E. RIVAL, BAYOU SARA, LA.

"BEST PILL IN EXISTENCE."

"I have used your PILLS for Dyspepsia, Weak Stomach and Nervousness, and can say I never had any thing to do me so much good in the way of medicine. They are as good as you represent them. I recommend them as the **Best Pill** in existence, and do all I can to acquaint others with their good merits."
