An old gag revived is to claim that certain articles in the clothing line are made for Mr. so and so and for some reason did not call for them and will sell them to **YOU** at reduced prices. All our suits and our coats are specially made for the man thet buys them. We might tell you that the Prince of Wales or Mr. Harrison, the next president to be, ordered a suit of us, but did not fit him, this would be an untruth. We simply tell you we will sell you the suit at such and such a price and you may rest assured it will be at the bottom price. C. WIENER.

HON. JAMES LAIRD.

Republican Candidate For Congress Makes an Eloquent Speech in the Opera House Wednesday Night.

On Wednesday night, Hon. James Laird, familiarly known as "Our Jim" held forth in the opera house to a crowd of seven hundred people for over two hours. Mr. Laird is a pleasant and interesting speaker and handles his subjects with that care and grace that is sure to attract and carry the closest attention of his auditors. Jim Laird, as all call him here, is a perfect type of the early pioneer of Nebraska, and having been in public life for many years, has become so closely identified with the interests of the people of this district that all parties revere him for his straightforward, manly methods in his efforts to better their condition while in congress. Jim is a born republican, true blue, but has a warm place in his heart for mankind generally, and irrespective of politics does his level best to promote the interests of the entire people of the district and country at large, as his able record in congress will divulge. His speech at the opera house Wednesday night was a model of truth and was forcibly presented to the people from an honest and fair standpoint. In his arraignment of the democracy, he said nothing but the truth, giving facts and dates to back his assertions and scoring them unmercifully for their attempt to force free trade upon the country, knowing after repeated efforts that it had more than once leveled the country to almost abject poverty. He was loudly and enthusiastically applauded all through the speech and could have held his audience for four hours without a murmur. If all the counties treat Jim like Webster will, he will have ten thousand majority in the district, and he'll come pretty near it too. Hurrah for Jim Laird, the peoples friend.

If you want some nice apples call at Rust's city feed store.

The fair association is entitled to much credit for the successful way they have managed the financial part of that institution this fall. It is the first time for some years that the premiums have been paid in full. The coming fair will no doubt see many more exhibitors than the last one owing to the fact that premiums are to be paid in full.

We went to press too early last week to give an account of the Knights of Pythias banquet, but could have foreshadowed the fact of its success. Those who know how to be chivalaric and courteous will always be found in the front ranks, and such is the case with the K. P. boys the world over, and well they know how to entertain their friends. The occasion of last Friday night was no exception to the rule and everyone present enjoyed the entertainment hugely. It was a grand success and will long be remembered. To make the entertainment doubly joyful several novices were inducted through the mysteries of the order of the Grand Orient.

Wednesday night shortly after midnight the alarm of fire was sounded, and those who were awakened thereby and turned out, discovered the cause to be the burning of the old building known as the "Beehive" on what was in former days the main street of the town, but which is two blocks east of the present main street. The building was as dry as tinder and though there was scarce a breath of air stirring, it was but a few minutes from the time the alarm was sounded till the building was a mass of smouldering ruins. The building was owned and occupied by Mr. John A. Robinson and was partially insured. Thus went up in flames one of the old land marks of the place. It was the first frame building in the town and was built by Mathew Stratton, and by him used for a time as a store, and after him by Garber and Crary and after them by numerous different parties, and for various purposes.—Signal.

A Good Showing.

Yesterday returns of the City Clerk show upon the statement of the condition of the First National bank of this city. The statement will be a source of much satisfaction to the many friends of that reliable banking house. The deposits are over $[illegible], something almost unheard of in this section of Nebraska at this season of the year and speaks volumes for the financial standing of the First National bank, and the officers may well feel proud of the exhibit. The bank is one of those sound, reliable institutions that the people of the city and county take pride in. The Chief can freely recommend the First National bank to the thousands of readers as an institution worthy of merit, where they will always receive courteous treatment from the gentlemanly officers. Our best wishes are for success and success to the First National bank, the first National banking house established in southwestern Nebraska.
