Over sixty former democrats in the Second ward of Albany, N. Y., organized a protection club last Friday evening, September 28, in the interest of Harrison and Morton.

Col John B. Hale, ex-democratic congressman from the Second (Missouri) district, has publicly announced that he will work for the election of Gen. Harrison and the defeat of Cleveland.

Mr. Whitehouse, one of the oldest brokers in New York, says that a canvass of the members of the stock exchange has been made and that only 162 announced their intention to vote the democratic ticket this year, against over 500 last year.

George Miller, president of the Buffalo Car Works, gave $10,000 to the democratic campaign fund four years ago, carried a torch and worked at the polls. This year he is dead set against Cleveland, and has gone to Europe to stay until after election.

The democrats in the house refuse to pass the resolution asking the secretary of the treasury how much of the "surplus" was deposited without interest in the national banks. There are incidents of the "surplus" in regard to which the democrats are determined to remain in ignorance.

"The democratic party is a cumbersome stumbling block in the way of American progress, and has been for the past forty years." The above words from the lips of a man in no way connected with politics, are as true virgin gold and their truth should induce every thinking man to study carefully the wants of the present and to vote according to the sentiment expressed in the quotation above.

John Jarrett, president of the iron and steel workers, has been in Indiana. He mingled everywhere with workingmen, and says the republicans will carry the state. He also says: While in Illinois I visited the South Chicago rolling mill. A month ago there was in the neighborhood of 300 democrats in the mill, but when I came away every man had voluntarily told me he would vote for Harrison and protection. They want no free trade or low wages in theirs, and are satisfied that the republican party is the one that will give them the protection.

The young ladies of the P. G. U. S. S. gave a basket supper at the school house. Every young lady took a basket well filled. The baskets were sold to the highest bidder. Miss Lydia Huffman's basket sold for $1.05, the highest priced basket sold. They all thanked Miss Huffman and wanted her to be present at the next attempt. The S. S. realized the neat sum of $4. The young ladies say they are going to try it again. We do not hesitate to say the supper was a grand success.

Mr. and Mrs. J. Warner, of Red Cloud, made a business trip to this vicinity last week.

Mrs. Graves and son Lewis started Monday, for Stella Neb., for a few days visit.

"Bill" Lewis says: "We will have a particularly large collection of reasons for thanksgiving in the year 1888, and as "Bill" seemed rather excited, he was asked why? Bill says "why because Harrison will be our next president, and—and—it's a boy. We didn't wait to hear more. FANNIE.

ORCHARD, NEBRASKA.

We still hear the hum of the threshing machine in our midst.

There has been quite a discussion on the question of baptism lately. Our pastor has said he would rather have his right arm cut off at the shoulder than baptize an infant by sprinkling. Now our pastor has sprinkled Mr. Henry, because he thought he was about to die, with the understanding that if he got better he was to be immersed. Now what looks strange to me is this, that if sprinkling is good enough to die by why not good enough to live by. Would our good brother please answer this question for one that believes in baptism.

SUN.

An old lady bought a canary bird warranted to sing at all hours of the day and night, carried him home and named him "Grover." Grover, however, did not sing, would not even twitter. After waiting a long time for Grover's song, one morning the lady's maid rushed into the old woman's room in a state of great excitement. The old lady breathlessly inquired, "Has Grover sung?" "No, Grover has not sung any song," replied the maid. "Has my sweet Grover twittered?" "No, said the maid, "Grover has not even twittered a twitter, but Grover has laid an egg." The old lady exclaimed in disgust, "Well you never can tell what a democrat is going to do next."—John M. Thurston at Chicago.
