IOWA STOCKMEN SUE

SEEK TO RECOVER EXCESSIVE TERMINAL CHARGES.

Files Complaint with Commerce Commission on Behalf of Corn Helt Meat Producers Against Various Northwestern Lines.

Iowa cattle shippers who have been compelled to pay terminal charges of 22 at the Chicago stock yards will get some of their money back if the interstate commerce commission passes favorably upon a complaint filed in Washington Wednesday by H. C. Wallace, assignee, against the Chicago and Northwestern railway, the Rock Istand, Illinois Central, Iowa Central, Burlington, Minneapolis and St. Louis, the Milwaukee and the Willmar and Gloux Falls.

Mr. Wallace is secretary of the Corn Pelt Ment Producers' association, composed of shippers in Iowa and Wyoming and adjoining states,

The complaint sets forth that since June 1, 1964, the rallroads named have collected terminal charges of \$2 a car at the Chleago stock yards. A complaint was made to the interstate commerce commission which ruled that \$1 was a reasonable charge and that \$2 was unjust. The complaint alleges that the rallroads ignored the ruling, wherefore the shippers have assigned their claims to Mr. Wallace. and now asks that the railroads be compelled by the commission to make reparation. The amount of reparation desired is not stated, but a list of shipments is given running up to more then 2,300 cam

CERTER'S SON IS MILLED.

Boy is Electrocuted at the Illinois

L. H. Carter, a son of Gen. W. of the lakes, of Chicago, was killed instantly Tuesday night by a remarkable electric shock sustained in the dairy room of the University of Illinois, at Champaign, where the young man was a special student.

Young Carter was stone dead when found. As is customary in industrial schools, he had been set to the task of polishing and cleaning a combination chandelier in the dairy room and had been working for some time when a piercing scream was heard by C. G. Potter, who was employed in the next room. Potter rushed to the dairy room and found Carter's body pierced with an electric current. Carter had been standing on an engine, which completed the circuit to the ground. Facing possible electrocution Potter removed the body, the hands of which were still grasping the chandeller.

The victim had been working during the summer months in the electrical department of the university in order to gain practical experience. Young Carter resided with his parents in Chi-

Patrolman Makes Important Catch in Arousing Man.

Patrolman Frank Welsh, of Chica-A go, found a man sleeping in the doorway of the Illinois hospital Tuesday night. The man awakened suddenly and seeing the officer's star, gasped, "You want me for the murder-you are a policeman." A moment later, collecting his wits he started to run, but the officer drew a revolver and forced the fugitive to stop. He was led to the police station, where he confessed to a murder committed two years ago. He sald his name was Burbage and that he had been arrested for the crime but escaped.

President to Urge Big Increase on Congress.

President Rooseveit will ask congress to make unusually large approprintions for navel increase at the orthcoming secsions. The transfer of cific will strip the Atlantic weaboard of its naval defense. This will be used as an object lesson in the need of the navy. The transfer of the entire Atlantic battleship fleet to the Pacific is ordered because that is the only quarter of the world where there is any indication of the national sea power being needed to sustain American prestige and protect American interests, The president's argument to congress will be that if the Atlantic is without defense it proves that many more ships are needed in order that it may be adequately protected without the withdrawal of the force from the Pre-

It is not unlikely that his recomendations will provoke a fight. While Speaker Cannon and Representative loss, chairman of the house naval committee, have heartily indersed the transfer of the ships, Senator Hale, of Maine, chairman of the senate naval committee, is opposed to it and has so xpressed himself. President Rooseelt's order for the cruise to begin in Jecember is a challenge to Senator Hale, and once for all there will be a est of strength between the "big navy" forces, represented by the president, and the "little navy" hosts, represented by Senator Hale.

THE OIL TRUST COMPETITION.

Fifty Million Dollar Syndicate is Being

Organized. Arrangements have been completed in New York for the organization of a \$50,000,000 syndicate, according to an announcement published Monday, which plans to develop several million acres of oil lands in Mexico. It is planned not only to supply the Mexican market, but to ship the product to Central America, South America, Europe and South Africa, in competition with the Standard Oil company.

The syndicate will take over the Mexican Petroleum company, limited, which now operates under the California laws. The company owns approximately 1,000,000 acres of oil land in Mexico. More than 100 flowing wells are reported to be on the property, all of the gusher variety. The oil is sald to be the same as that of the Sour lakes and the southeast Texas

Queer Dance of the Ostrich.

The matin waltz of the ostrich is an interesting spectacle. When the sun's first rays strike across the field the birds take their morning exercise to stretch their muscles and banish the chill of the night,

The larger ones begin the perform-

ance with a slow, stately dance, something like a minuet. Presently the whole flock joins in the measure, stepping high and weaving in and out inwhat seems to be a set though complicated figure. As the dance proceeds the speed of the movement increases; then the birds begin to whirl about, and presently the quadrille merges into a waltz. The

dancers, holding their heads high, raise

their wings and spread their plumes in

the sunshine and in pairs waitz solemnly, strenuously for a quarter of an Viewed from a distance, a band of waltzing ostriches-when the birds are in full feather -- is a beautiful picture. At close range the preternatural gravity of the bird engaged in the seemingly frivolous pastime of the waltz makes

him an irresistibly comic figure.

"Taps." Among the interested visitors at the marine barracks at Washington on one occasion there was a party of young girls from a Maryland town. They were very much interested in everything pertaining to the life and discipline of the post.

"What do you mean by 'taps?' "

asked one young lady. "'Taps' are played every night on the bugle," answered the officer. "It means 'lights out.' They also play it

over the bodies of dead soldiers." A puzzled look came to the face of the questioner. Then she asked:
