WILSON'S LEAGUE VIEWS IN BOOK

By Associated Press.

Princeton, N. J., Oct. 22.—Woodrow Wilson's arguments for the league of nations, as explained by him in public addresses and in White House conferences, have been compiled and set down in compact form by Hamilton Foley in a book which will be issued by Princeton university tomorrow. The work has been approved by the former president who in a letter to Mr. Foley gives it his endorsement with the hope that it will be of service to all who wish to understand the league of nations and the vital issues which arise out of the attitude of the United States toward the league.

"Woodrow Wilson's Case for the League of Nations" is the title of the book.

For aren't you anticipating some new sensation? Of owning a home? A car? Getting a better job? Or apartment? You must anticipate something.

Your real desires are innumerable, but not more so than the variety of articles advertised on this page which will help satisfy your desires.
