Omaha Grain

Omaha, March 19.

Spot wheat sold generally unchanged to ¼c higher. The ordinary grades were in poor demand while the better grades of milling wheat sold at the advance. Only 15 cars of wheat were reported in.

Corn sold at unchanged prices to ¼c higher. Good demand on account of the light receipts, only 34 cars reported in.

Oats sold ½c under yesterday's prices. Receipts 29 cars. Rye and barley nominally unchanged.

TAKE SALTS IF RHEUMATISM IS BOTHERING YOU

Tells Rheumatism Sufferers to Take Salts to Get Rid of Toxic Acid.

Rheumatism is no respector of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat no sweets for awhile, dress as warmly as possible, avoid any undue exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid or body waste matter, and is often generated in the bowels and absorbed into the blood. It is the function of the kidney to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the spin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this toxic acid, which keeps accumulating and circulating through the system, eventually setting in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste and stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

Chicago Grain

By Universal Service.

Chicago, March 19.—Belated liquidation of moderate proportion met thin support in the wheat pit early today, prices dropping to the lowest levels since last July and then recovering slightly for the rest of the session. Flattering crop prospects over wide sections of the southwest helped to take the edge off the market.

Wheat closed ⅛@⅝c lower, corn was ⅛c down, oats were ¼@⅝c off and rye ruled ⅛@¾c lower.

The comparative weakness that persisted at Winnipeg most of the day was the real cause of the lack of trading incentive here. Last week European demand developed on a big scale when Winnipeg futures were at present levels, all of which led to the spread buying in this market. Short covering formed most of the buying power received on today's break.

Corn worked lower with wheat early, local traders following the decline, but a much better brand of support was encountered and rallied back well. Cash corn was in good demand with premiums irregularly held. Cash interests were credited with buying May corn against sales of July today.

Oats eased with other grains rather reluctantly for the nearby months. The shipping demand for this grain has assumed considerable breadth.

Rye trade was slow and prices easy. Reports from the east of a much better foreign demand for this grain failed to affect sentiment.

Provisions closed easy. Lard and ribs were unchanged to 5c lower.

Pit Notes.

The government report purporting to show the intended decrease in acreage to be sown in spring wheat this year at 94 per cent, compared with the harvested area last year, failed to have any effect in the trend. The bullish import of the news was recognized but many felt that if prices responded to it, spring wheat farmers would probably change their mind and sow more than the forecast indicated.

The reactionary tendency persistent in May wheat of late has discouraged buying in the new crop months. Domestic prices still being appreciably above the world level, many feel that a readjustment is necessary before a stabilized market can be expected. Should May wheat drop to a sufficient discount under the deferred months to attract the shifting of hedges by cash interests for the carrying charge, then the complexion of the entire situation could easily change.

At one time today the May delivery sold 2c under the September, an unusual occurrence for this season of the year. The movement of wheat to primary markets was behind last year, totaling 593,000 bushels compared with 712,000 bushels last year.

In western Kansas snowfall has been 20 inches over some sections. The entire western and central part of the state is well blanketed with snow. In the western third where drouth is not infrequent in the growing months of spring farmers are said to be jubilant over the assurance of plentiful moisture.

Duluth, Minn., March 19.—Flax—Close March, $2.45¼; May, $2.40¼; July, $2.38⅝.

New York Sugar.

New York, March 19.—Early declines of ¼c in raw sugar prices were followed by advances of ¼c, the market closing at 6.91c duty paid for Cubas. Sales included 22,000 bags of Cuban for April shipment and 37,000 bags of Porto Ricans prompt at 6.65c duty paid; 10,000 bags Porto Ricans at 6.72c; 15,000 bags Cuban at 6.78c, and 16,000 bags Cuban at 6.91c, prompt and April shipment.

Raw sugar futures declined 8 to 11 points under liquidation, resulting from early weakness in raws, but rallied sharply on active covering and buying for Cuban account. The upturn was due to the later rally in raws and reports of unfavorable labor developments in Cuba. Final prices were 1 to 17 points net higher. March closed 5.18c; May, 5.24c; July, 5.28c; September, 5.25c.

Refined sugar was easier and unchanged to 20 points lower. Fine granulated is now quoted at 8.40c to 8.60c, with a better inquiry at the inside figure.

Refined futures were nominal.

Chicago Butter.

Chicago, March 19.—The unsettled undertone of today's butter market resulted in fractional declines on top scores, following which the market was barely steady. Early in the day a fair amount of trade was reported on the better grades but by afternoon buyers were showing very little interest except in medium and low grades. Supplies were none too liberal. Centralized cars continued quiet with buyers rather indifferent at prices listed:

Fresh buteer: 92 score, 46¼c; 91 score, 46c; 90 score, 45¾c; 89 score, 45½c; 88 score, 45c; 87 score, 44½c; 86 score, 44c.

Centralized carlots: 90 score, 46c; 89 score, 45¾c.

Coffee Futures.

New York, March 19.—Easier Brazilian cables were followed by heavy liquidation in the market for coffee futures today. The opening was 34 to 58 points lower. May broke to 13.00c and September to 13.75c, or 52 to 63 points net lower, but rallied partially on covering. The close was 29 to 38 points net lower. Estimated sales, 129,000. Closing quotations: March, 13.90c; May, 13.20c; July, 12.55c; September, 12.00c; October, 11.90c; December, 11.50c; March (1925), 11.40c.

Spot coffee dull: Rios 7s, 15¼c to 15¾c; Santos 4s, 19½c to 20¼c.

Dry Goods.

New York, March 19.—Demand for cotton goods in all channels showed little change today. Jobbers reported retailers were buying small lots for immediate shipment and manufacturers' agents said only small lots for early shipments were wanted. Prices were still close to cost and in some instances below it. Wool goods were bought moderately for fall delivery. Silks for immediate use show improvement in demand so far as specialties and novelties are concerned. The staples were quiet. Knit good also were quiet with prices irregular.

Boston Wool.

Boston, March 19.—The wool market is showing a fair tone regardless of the slow condition which exists in finished goods. Prices ruled firm in all lines. Hand-to-mouth buying for manufacturers continued. The firm and advancing market in London is in line with the anticipation of the trade.

Turpentine and Rosin.

Savannah, Ga., March 19.—Turpentine—Firm; 96¼c; sales, 73 barrels; receipts, 36 barrels; shipments, 245 barrels; stock, 6,579 barrels.

Rosin—Firm; sales, 88 casks; receipts, 104 casks; shipments, 392 casks; stock, 60,889 casks. Quote: B to M, $4.60; N, $4.75; WG, $5.65; WWX, $6.10.

Cattle—Receipts, 10,000 head. With light receipts at other points the market here opened active in the face of the heavy local supply. Good steers sold strong to in spots 10@15c higher on the opening and other grades were at least steady though the market on all classes showed a tendency to slow up a little bit as the morning advanced. Best steers reached $11.10. She stock was fairly steady to if anything stronger and stockers and feeders on which were scarce were active at good firm prices.

Quotations on cattle: Choice to prime beeves, $10.50@11.10; good to choice beeves, $9.50@10.40; fair to good beeves, $8.60@9.50; common to fair beeves, $7.50@8.50; good to choice yearlings, $9.00@10.25; fair to good yearlings, $8.00@9.00; common to fair yearlings, $6.75@8.00; good to choice fed heifers, $7.25@8.25; fair to good fed heifers, $6.25@7.25; common to fair fed heifers, $5.00@5.00; choice to prime fed cows, $6.50@7.25; good to choice fed cows, $5.50@6.25; fair to good fed cows, $4.50@5.50; common to fair fed cows, $2.50@4.25; good to choice feeders, $7.75@8.25; fair to good feeders, $6.00@7.75; common to fair feeders, $6.00@6.75; good to choice stockers, $7.25@8.00; fair to good stockers, $6.25@7.25; common to fair stockers, $5.00@6.00; stock heifers, $4.00@5.00; stock cows, $3.00@4.00; stock calves, $4.00@7.50; veal calves, $4.00@10.50; bulls, stags, etc., $4.00@6.25.

Hogs—Receipts, 23,000 head. A liberal run of hogs was at hand and tended to make trade slow and weak on the initial rounds this morning. Shippers placed bids that looked around 10c lower on the best butcher hogs but had met with little success in securing their requirements at the close, decline up to a full 15c hour. Packers also took a stand for around 10c lower levels but found their efforts futile early. Bulk of the sales was at $6.85@7.15 with early top, $7.15.

Sheep—Receipts, 10,500 head. Today's supply of fat lambs was only fair but local packers were determined to secure their requirements at a lower scale and with salesmen unwilling to let go at a cut the market was devoid of snap on the early rounds. Shearing lambs were of limited number and the market very little changed. Aged sheep trade was fairly active at strong to 10c higher figures.

Quotations on sheep and lambs: Fat lambs, good to choice, $15.50@16.25; fat lambs, fair to good, $14.00@15.25; clipped lambs, $12.50@13.75; shearing lambs, $15.00@15.50; wethers, $7.75@10.50; yearlings, $9.00@12.50; fat ewes, light, $9.00@11.00; fat eyes, heavy, $7.00@8.75.

New York, March 19.—Stock prices developed stronger resistance in today's market, the irregular fluctations in the general list reflecting the readjustment of speculative accounts. Gains exceeded losses at the close. Operations on the long side, while aggressive only in a limited number of issues, were aided by the plethora of funds available for stock market purposes. Call money opened at 3½ and then dropped to 3 per cent, the lowest rate since August 18, 1922, with loans obtainable in limited quantities in the "outside market" as low as 2½ per cent.

Continuation of the short covering movement which began in Tuesday's late trading save opening prices a firm tone. When the shorts discovered, however, that in many cases they were bidding up prices on themselves they renewed their selling pressure, concentrating on the motor, independent steel and shipping shares, several of which broke 1 to 4 points to their lowest price of the year.

Studebaker, one of the favorite bear targets, was hammered down 2¼ points to 95¾, another new 1924 low, closing at the bottom. Crucible was depressed nearly 4 points to 56, a new minimum, and then rallied 1½ points.

Chandler touched a new low at 53½, closing slightly above that figure for a net loss of 1½ points. American International corporation was offered freely on publication of annual report showing another large deficit, the stock hitting a new bottom at 17⅝, and then snapping back 1 point. Marine preferred yielded in sympathy.

Shorts in American Can apparently were badly punished, that stock soaring 6½ points above yesterday's low to 119¾ and then slipping back to 117⅝ for a net gain of 3¾, the day's sales in this issue running well over 100,000 shares. United States Cast Iron Pipe was another stock in which shorts had an uncomfortable time covering their commitments, the stock touching 80¾, and then easing up to 79½, up 4 on the day. U. S. Steel common closed ¼ lower at 100⅞ and Baldwin showed a net gain of ¾ at 121½.

Oil stocks were firm on publication of a statement by President Teagle of the Standard Oil company of New Jersey that the supply and demand for oil would meet at the end of this month or early in April instead of May or June as indicated by the government figures of last November. Publication of a report that new business of the General Electric company has developed 55,000,000 in the last 10 weeks brought fresh buying into that stock, which touched 231, a new high since 1902.

Chief interest in the railroad group centered in the accumulation of Norfolk & Western, which was run up nearly 8 points to 129¾, the highest since 1917, on the appointment of a committee of Pennsylvania directors to consider its lease by that road. Marked strength also developed in the Frisco issues, New Orleans, Texas & Mexico, Wabash common and preferred A and St. Louis Southwestern, most of which sold at their highest prices of the year.

Time money rates softened in sympathy with the lowering of the call rate. Time money for 30 days is 4 per cent bid and 4½ offered, with trading at higher figures. Two months money is 4¼ bid and 4½ offered, with the bulk of the business at 4½ per cent for 90 days. Commercial paper rates remain unchanged, prime names commanding 4¾ per cent.

Except for a brisk rally in Dutch guilders, foreign exchange rates held relatively steady with demand sterling being quoted around $4.29 and French francs around 5.07 cents.
