Electric Line Not Built.

The Burlington has not yet converted its road from Deadwood to Lead to an electric line for passenger traffic. While the plans for the work are made, and the change will soon be accomplished yet but little has been done. The company has ordered the material for the big power house to be located at Deadwood, from which power will be distributed to to the line Material for most of the work involved in the change has been ordered but the line has not yet been converted to a trolley system. This change will be made for the benefit of the road's patrons The grades on the line are heavy, and it is necessary to work the engines very hard in pulling trains When engines are worked hard they throw out much soot, dust and cinders, making the trip unpleasant. The experiment will be watched with interest.—Lincoln Journal.

In Mrs. Allen's Honor.

Mesdames U. J. Warren and F. M. Kimmell entertained the ladies of the Dorcas society, Monday afternoon at the home of the former, in honor of Mrs. L'Roy Allen, who is in the city, this week, on her way to join her husband and the Lawsons in Covina, California There were about thirty present and the meeting was a happy one. Miss Howe gave a number of vocal numbers in an artistic manner, pleasing all. Refreshments were served.

A handsome china fruit dish was presented the guest of honor as a memento of the occasion and slight token of the love and esteem of the members of the society for the departing member—making a touching incident in the gathering.

Between 25 and 30 Tons.

Horatio Stone had some curiosity, the other day, to know just how his sugar beets are coming on, and measured off and dug up a square rod of them, and the result was encouraging indeed. There were 157 beets in the square rod and they weighed on the scales 343½ pounds, which would make 54,960 pounds or a little over 27 tons to the acre, if the average should be maintained. At $4 this would make $108 per acre, with an expense of $25 per acre. Horatio expects his beets to not fall below 25 tons to the acre, at any rate, which will make him a handsome profit.

An Important Meeting.

A special meeting of lodge No. 1, Star of Jupiter, has been called for tomorrow night in the lodge hall at eight o'clock. Supreme Secretary Chittenden of Omaha will be present and will address the meeting. This will be a very important meeting and every member of lodge No. 1 should be present. The question of merging into the Bankers' Union of the World will be considered and discussed, terms having been submitted to the local lodge to that end.

Union Temperance Meeting.

The Congregational church was well filled, Sunday evening, on the occasion of the union temperance meeting. Rev. L. M. Grigsby delivered a stirring sermon from the text, "Let Us Alone." The speaker struck right from the shoulder and spoke for statutory prohibition in no uncertain language. In addition he touched upon some other matters of pressing importance. He was assisted in the service by Rev. G. L. White.

Wedded on Sunday.

B.H. Hancock and Lola Spalding were wedded at half past seven o'clock, Sunday evening, at her home in Franklin, this state. They arrived in this city on No. 13, Monday, departing on No. 1, same day, for Denver and the mountains, on their honeymoon. Lola will be remembered by many of our readers, having spent a good part of her life in our city. Her friends will join us in the wish that her's may be a happy wedded life.

Bowling Notes.

Prizes were given for September to the following, with their score: Ten Pins, Fred Brewer 232; Five Back, N. E. Smith 82; Four Back, P. E. Potter 77; Cocked Hat and Feather, P. E. Potter 8.

A nice crowd of ladies were present at their first night and many with a little practice will make good bowlers.

No gentlemen are admitted on Thursday nights unless accompanied with ladies.

Not Far From Cody.

The Toluca line of the Burlington has been built to within five miles of Cody and there a halt was made. Two large bridges must be built before the line enters Cody, one of them being very long and one hundred feet high. The building operations go slow, the base of supplies being so far from the work. It will be some time before the bridges are completed.—Lincoln Journal.

Issue Their Defi.

The B. & M. football team is ready and anxious to meet any team in the state on the gridiron. The boys promise to interest any team that will go against them. Sooner the better.

He is out in the hope of disposing of his interests in Box Elder procinct, expecting to make Buda his permanent home.

E. S. DUTCHER, Republican nominee for county superintendent, was in the city, last Saturday, becoming acquainted with the people of the west end, where he is not so well known as in the east end of the county. He made a very favorable impression on all who met him. He stands acquaintance. The people of Red Willow county will know more about him when he assumes office, first of the year.

MRS. NEWELL FORSYTHE and baby and Mr. and Mrs. George Snyder, all of Wauneta, came down on the Imperial, Saturday evening, on their way to Denver, whither they continued their journey on No. 3, same night. They have all disposed of their Wauneta property. The Snyders will spend the winter in Denver. Mrs. Forsythe will spend some time in Ogallala, this state, but may decide to make Denver her future home.

A Great Success.

The benefit concert given by the Nebraska Brigade band in the opera house, Monday evening, was a superb musical event and was given an appreciated hearing by a fairly well filled house. Following is the splendid program rendered:

PROGRAM.

March—Black Hills Carnival ..... Burri
Overture—To Wm. Tell ..... Rossini
Sextette From Lucia ..... Donizette
Porto Rican Dance ..... Missud
Selection—Bartered Bride ..... Tobani
(From Smartuna's Opera)
Waltz—Bride Bells ..... Rubens
Paraphrase—Forsaken ..... Kretschmer
Medley—King Dodo ..... Stuart
March—With Might and Main ..... Man

The gross receipts were $167.50 The expense account totaled $7.25, $4.25 being for printing dodgers, tickets and programs, and $3 for janitor services, leaving the net proceeds of $160 25, which sum will be expended in behalf of D. Kendall and wife as may appear best to the committee

The band and all connected with the effort are to be congratulated and heartily thanked for the good deed accomplished. It was highly creditable, from both musical and philanthropic points of view.

Another Sugar Beet Analysis.

The result of the last analysis of sugar beets sent from McCook to the American Beet Sugar Co at Grand Island is given below. It will be observed that the samples are quite uniform and that the sugar per cent and the purity per cent are high:

FARMERS	SUGAR	PURITY
E. J. Baker	9.3	73.1
S. P. Hart	10.5	73.3
H. Stone	9.2	72.7
H. Stone	10.5	78.5
G. F. Randel	11.2	82.5
D. Deveny	9.9	74.3
W. E. Corwin	8.7	71.3
H. B. Campbell	9.1	68.6
Wm. Byfield	9.1	73.3
W. H. Brown	9.2	72.1
L. W. Brinton	9.5	71.4

In this exhibit it will be observed that the dry culture and the irrigated beets as to sugar and purity per cents do not greatly differ, the advantage in these particulars being with the dry culture farmers. On the other hand, the advantage in quantity is distinctly with the irrigators.

Samples will be sent to the factory again next Monday, October 7th.

Two in One Day.

Rev. G. L. White of the Baptist church was the officiating clergyman in two weddings, Sunday.

The wedding of Rolla O. Constable of Herndon, Kas., and Amanda N Frakes of this city occurred at the home of Councilman R. M. Osborn.

Bound Over to Court.

Another chapter of the outrage of Tuesday evening of last week was opened, last Saturday night, when George Huston, an employe on the repair track, was arrested and brought before Squire Berry for a hearing, charged with an attempt to ravish.

The hearing was opened and afterwards adjourned till Wednesday morning of this week, when, on the evidence of the state's complaining witnesses, Mrs. Adolph Mangless and Mrs. J. R. Van Horn, the accused was bound over in the sum of $500 to appear for trial at the next term of district court. In default of bail he was taken to the county jail in Indianola.

The accused was positively identified by the women. A brother of the prisoner was with him at the time of the attempt, but it is not considered that there is evidence enough to convict him, consequently he has not been arrested.

Both men were more or less under the influence of liquor at the time.

The attempted crime is a heinous and dastardly one and it is to be hoped that Huston will be "sent over the road." Such crimes must not go unpunished in this community. The honor and virtue of every honorable and virtuous woman in this city demand adequate punishment.

Dispatching by Telephone.

The Burlington has tried the use of telephones on telegraph wires along its system. The experiment has not been entirely successful, and for that reason Burlington men read with interest a statement that the Santa Fe had succeeded in perfecting a device that will obviate the obstacles heretofore encountered. With the Burlington the trouble was that while the phones could be used for talking, the bells would not ring. It was impossible to call one phone by ringing the bell at the other end. The Santa Fe experienced this same trouble, but later reports indicate that the call bells were made to work, the phone being used successfully while the same wires were in service for telegraphic purposes.

Out in the Black Hills country the Burlington is using phones at one or two places where telegraph wires do not run, or where an operator is not employed. In such cases a telephone line is strung to the nearest telegraph station, and by this means trains are sometimes moved.

It is a belief that the limit to the use of the telephone in dispatching trains will be found on branch lines where there is not much business. On main lines where there is lots of traffic the telegraph instrument with written messages will be found more reliable. It is much easier to trace errors where the telegraph is in use.—Lincoln Journal.

NORTH COLEMAN.

The cane crop which at one time looked sad and forlorn is yielding very heavily.

Mrs. R. Traphagan was calling on friends in this part of the precinct, Tuesday.
