The McCook Tribune.

TWENTY-FIRST YEAR. McCOOK, RED WILLOW COUNTY, NEBRASKA, FRIDAY EVENING, MARCH 27, 1903. NUMBER 45

Death Claims a Young Life.

Saturday night, after months of suffering, Archie Tyler's young spirit took leave of its wasted earthly tenement and winged in its flight to its giver, thus early closing a promising career, ending bright expectations, finishing life's book with its opening chapter.

OBITUARY.

[ARCHIE TYLER was born in the city of Chicago, Illinois, August 1st 1881; coming to McCook with his parents when about four years of age. With the exception of a short residence in Orleans and Oxford, this has been his continuous home ever since. He was graduated from the McCook high school with the class of 1901; after which he was employed in the Burlington machine shop here for a short time. He afterwards studied strenography and typewriting. It was his constant ambition to become an electrical engineer and all his spare time at home was absorbed with the study. Almost a year since his lungs were weakened with a severe cold and during the close of last October he was taken with a severe attack of typhoid pneumonia from which he never recovered. The last five months of his life were months of intense suffering. Through all the long months of anguish he was hopeful and cheerful. The world was beautiful to him and appealed to his young life, but the beckoning hand found him willing and ready. His young life was an open book,—fair clean and beautiful,—and worthy emulation.]

Funeral services were conducted in the Congregational church by Rev. Frank W. Dean, Tuesday afternoon, many former schoolmates and adults attending and paying a last tribute to the memory of a young brother who has gone on before unafraid, triumphant.

The church was decorated with many flowers, palms etc., and the casket was covered with a lovely profusion of floral offerings. A pillow from the class of 1901 was especially handsome.

Members the class of 1901 and other schoolmates were pall-bearers.

The remains were interred in Longview cemetery.

Mr. and Mrs. Tyler have the very tenderest and deepest sympathy of this community in this great sorrow which has come into their hearts and home.

CARD OF THANKS.

We most sincerely thank all the kind friends and neighbors for their sympathy and assistance during the long illness and after the death of our son Archie.

MR. AND MRS. H. M. TYLER.

Her Intense Suffering Ended.

Death came to Mrs. James M. Hammond's relief, Tuesday evening early, this week, after many months of intensest and continuous suffering with cancer of the breast.

[MIRELDA E. HAMMOND, nee Gaston was born July 13th, 1855, in Jefferson county, Pennsylvania. At 6 years of age her parents removed to Indiana county, Pennsylvania, where she resided until she was married to J. M. Hammond on February 18th, 1875. They then lived in Armstrong county, Pennsylvania, until the spring of 1886. They emigrated to Rowlins county, Kansas, and lived there until the spring of 1895, when they moved to the Driftwood, Redwillow county, Nebraska.

Of this union there was born six children, two sons and four daughters. Five children are living and at home.

Mrs. Hammond joined the United Presbytesian church at the age of 14 and was a member in good standing until she came west and united with the Methodist church in Rawlins county. When she came here to live she brought her membership to Prospect Park. Her age was 47 years, 8 months and 11 days.]

Funeral services were held at the farm home southwest of the city in Driftwood precinct, Thursday morning at eleven o'clock, Rev. L. H. Shumate conducting the same, after which the remains were brought to McCook and buried in Riverview cemetery. Services at the grave were in charge of the Degree of Honor, to which deceased belonged.

The bereaved family is remembered by many friends and neighbors in great sympathy.

The Public School Entertainment.

The court-room was filled to overflowing, last evening, to enjoy the entertainment given by the pupils of the public school. Considering the inclemency of the evening, the attendance was in itself complimentary. The program fully realized the expectations of all, showing a deal of painstaking, hard work in preparation of parts and in costuming. Pupils and teachers will receive their full mead of praise. They deserve it.

If you weren't out, last night, go tonight. You can't fail of enjoyment.

We Are Ready to Show You

the latest in wall-papers. Will be pleased to show you our papers whether you buy or not. Look elsewhere and then come in and compare qualities and prices. Yours for business,

A. MCMILLEN.

FOR SALE—Five-room cottage, opposite Congregational church. Price, $1,200.—3-20-4ts. L. W. STAYNER.

We sell best indigo dyed dress prints for 5c per yard. Who do you think we are? One price, plain figures, cash only.

We sell American A. 2-bushel seamless grain bags for 16½c each. Who do you think we are? One price, plain figures, cash only.

People who bought their garden seeds of W. T. Coleman, last year, are in buying early, while the assortment is complete. They know good seeds when they have tried them.

We make dress skirts to measure and for stock. 50 kept made up. To measure at same price. Also show handsome line factory skirts. Golf skirts $1.50 up. Who do you think we are? One price, plain figures, cash only.

MOVEMENTS OF THE PEOPLE.

A. G. KEYS has been visiting his son Charles.

F. N. MERWIN of Beaver City was with us, Tuesday, officially.

W. GEORGE SHEPPARD was up from Cambridge, first of the week.

MRS. E. M. DAWSON left, Saturday, to visit her parents near Curtis.

J. B. FICKES was an Omaha visitor, part of the week, on business.

R. A. COLE, the West Dennison street tailor, is said to be some better.

MISS CARRIE KIMBALL of Grand Island is a guest of J. H. Stephens.

MRS. J. F. CUSTER joined her husband in Blue Springs, last of past week.

MISS EMMA PARK of Niwot, Colorado, is a guest of J. H. Moore and family.

W. H. ANDERSON, a brother of Mrs. C. L. Fahnestock, is here from Lincoln.

J. B. MESERVE came up from Lincoln, Tuesday night, on a short business trip.

MRS. CELESTE DOUGLASS was in the city, fore part of the week, on matters of business.

MRS. E. N. ALLEN is here from Colorado City, guest of her parents. Mr. and Mrs. M. Thorgrimson.

GENERAL IRVING HALE of Denver, western agent of the General Electric Co., was in the city on business, last Saturday.

F. D. BURGESS and son George went in to Omaha, Thursday night on 6. George will undergo a minor surgical operation while away.

MARTIN MATTSON of Marsh's meat market returned, early in the week, from Iowa, where he attended the burial of a sister who recently died in Stromsburg this state.

J. H. HUDSON, a proof reader of the Chicago Chronicle, was a guest of W.W. Archibald, first of the week. He was en route to Denver, where he expects to locate. He went west on No. 3, Tuesday night.

REV. FRANK W. DEAN and T. B. Campbell ropresented the McCook Congregational church in the state meeting in Lincoln, Monday, returning home on No. 3, same night.

MR. AND MRS. J. A. ANDERSON of Bertrand, Nebraska, are visiting in the city, guests of her parents Mr. and Mrs. W. L. Zint, for a few days, on their way to California, on a trip.

MR. AND MRS. H. P. SUTTON entertained the S. K. B. P. H. C. M. card club, last Friday evening. Military euchre was the game of the evening, and Fort Monroe was the prize winner.

Z. O. HOLCOMB and family have moved from Loveland, Colorado, to Ft. Collins, Colorado. They report getting along nicely since leaving McCook, having had work at good wages right along.

MRS. AND MISS LOWMAN arrived home, Monday morning, from Brownville, where they paid the last tribute of respect to an honored and beloved husband and father. The profound sympathy of all true hearts are theirs in this sorrow and bereavement.

REV. AND MRS. C. R. BETTS and four children arrived from Minnesota, Wednesday on 1, to make their home with us. Until the Baptist bretheren provide a new parsonage the family will be domiciled in Mrs. Viola Ballew's dwelling on Madison street. Welcome!

C. A. Dixon's Injuries Prove Fatal.

Traveling Engineer C. A. Dixon, whose severe injuries in the wreck near Minden, last week Tuesday, were fully chronicled in last week's TRIBUNE, succumbed to his many injuries about one o'clock, Thursday morning, after a heroic struggle for life against great odds for over a week. During the first few days after the accident hopes for the injured man's recovery were entertained, giving away, the closing days of his illness, to despair; nevertheless every resource was exhausted to prolong life and restore health.

[C. A. DIXON was born in Rochester, N. Y., June 19, 1843. He began railroading as a newsboy at the age of 14 years. His father was an engineer on the same trains. He entered the service of the New York Central railroad as fireman at the age of 18. Was united in marriage with Emma Beckner in Michigan City, Indiana, in 1868. While here he was in the employ of the Michigan Central railroad. He came to the Burlington at Plattsmouth in 1876 and was over overseer of all engines while the line was being built west from Kenesaw. Was for years a passenger engineer out of Denver, being appointed traveling engineer for the Western division in 1892, holding that position at the time of his death. He is survived by his wife and three children, Mrs. K. M. Stangland, Harry and Roy Dixon.]

Brief services were held at the residence of the daughter Mrs. K. M. Stangland, Friday afternoon at two o'clock, conducted by Rev. Frank W. Dean, after which the remains were interred in Longview cemetery.

Besides the members of the immediate families, Charles Dixon of Kansas City, Missouri, a brother, attended the funeral, arriving here but shortly before death.

The members of the family and the friends all have the deepest sympathy of the community in this sad and tragic death.

Wall Paper? Buy it this month of Cone Bros. and save 50 per cent.

Stop that cough! Cure that cold? McConnell's Balsam will do it.

Said the lady: "Give me one of those 10 yd. cuts of fine Cambric muslin for 63c—all my neighbors have had one and they are all talking about it." Guess who the lady was addressing. One price, plain figures, cash only.

You can always get choice butter at THE BEE HIVE.

Christian Science Ably Presented.

The court-room was filled, Monday evening, by an intelligent audience of McCook citizen, to hear Mr. Carcl Norton, C. S. D., lecture on one of the absorbing questions of the day, "Christian Science." Mr. Norton is an able and eloquent and earnest disciple of the faith and he was accorded close attention. For the most part the lecture was unexceptionable to all religionists, while even the distinctive tenets and teachings of the faith were presented with commendable fairness and frankness, and in a liberal spirit.

Mr. Norton said in part:

Christendom has passed through the doorway of the twentieth century. The ideals of Christianity are rapidly becoming universal. The English language is fast becoming the language of humanity, and hand in hand with this language go the truths of the teachings of Jesus. Christian Science is the most-thought-of aspect of the Christian religion of these early hours of the new century. It is truly twentieth century Christianity. What has Christian Science accomplished? What is it at the present time doing? What has the race a right to expect from its practical operation during the days that are to be? These are pertinent questions to be calmly considered, dispassionately discussed and prayerfully investigated. Blind prejudice is self-imposed ignorance. A dogmatic sense of religion is mental stolidity. A one-sided or prejudiced point of view is a position without view or vista. Fixed ignorance of either religious or scientific truth is inadmissible in this age of enlightenment and impartial investigation. Wrong traditional influences are no part of a progressive mentality, and thinking minds are always open to the light whencesoever it cometh.

JESUS IN LIGHT OF CHRISTIAN SCIENCE.

The religion of Jesus has within itself the elements of universality. It is a gospel of brotherhood, fraternity, social science and cooperative progress. Jesus' kingdom of righteous dominion is for this world, but partakes not of its worldliness. According to Christian Science Jesus Christ is at once son of God and son of man. His divinity or immortal selfhood is one with the divine nature that we call God. His humanity is one with universal man, i. e., "God made manifest in the flesh." This humanly divine manifestation is neither earthly nor sensual, but illustrates the symmetrical proportions of sinless humanhood. Such character constitutes the eternal normality of God's man. Christian Science looks upon Jesus as the central figure of present and future religious history and spiritual conquest. Far above the plane and action of a mere wonder-worker it places the deeds and words of Jesus. Referring to the works of Jesus, especially his healing of sickness through mental or spiritual processes, Matthew Arnold writes: "This action of Jesus, however it may be amplified in the reports, was real; but it is not therefore, as popular religion fancies, thaumaturgy, (wonder working.) It is not what people call the supernatural, but what is better called the nonnatural. It is, on the contrary, like the grace of Raphael or the grand style of Phidias, eminently natural; but is above common, low-pitched nature, it is a line of nature not yet mastered or followed out."

Is Christian Science evangelical in its attitude toward our Lord and Master? It recognizes in Jesus the fulfillment of the Messianic prophecies and hopes of the Hebrew people. It teaches his immaculate conception, spiritual incarnation, baptism and his reception of the descent of the Holy Spirit. It accepts the records of his power over the elements, the genuineness of his divinely natural deeds, miscalled miracles, his work of healing, regeneration and divinely compassionate forgiveness of sinners. It accepts his atonement as a revelation of the divine process of at-one-ment with God. It bows in humility before his Gethsemane struggle, and sees in the tragedy of Calvary the great climax in the drama of atoning love. It believes in the truth of his Easter morning resurrection, and teaches that he restored himself, healing his wounds and removing the winding sheet from his own body and the napkin from his head in the tomb. It accepts the story of his poso-resurrection words and acts, as recorded in the Gospels, and sees in his final ascension above matter the scientific fulfillment of his own prophecies and the possibility of individual immortality demonstrated. Therefore, Christian Science accepts Jesus Christ as the wayshower, and in this acceptance lays legitimate claim to being evangelical in its attitude toward the personality, individuality and work of the Savior.

Does Christian Science take a liberal view of the life and character of Jesus? Christian Science reiterates the ancient Hebrew statement as to the nature of God: "Hear, O Israel. The Lord our God is one Lord," and therefore it reaffirms the words of Jesus: "My Father is greater than I." Christian Science sees in Jesus and his sinless, ascending life a perspective ideal of our own possibilities. Jesus prayed that all men might be one with the father, even as he is one. He commanded men to be as perfect as God was perfect, and as if to comfort them with the possibility of this marvelous attainment said: "Ye shall know the Truth, and the Truth shall make you free." Christian Science, therefore, teaches that God is one as Spirit, Mind or Truth. Super-personal, yet personal as supreme individual Being to each and every one of his creatures. According to the philosophy of Christian Science the life of Jesus Christ and the power that his career manifested over sin, physical disease and death expresses an illustration of man in tune with the infinite harmony called God. Christian Science illustrates the divinely designed possibility of spiritual manhood. Jesus is our elder brother of Nazareth as humanity's greatest friend and Savior, in the light of Christian Science steps forth from the tomb in which he has been placed by the deification of his personality, and again as the healer and reformer of Galilee walks in spirit and in truth in our midst, a regenerator of the depraved, a healer of the sick and a joy-bringer to all who sit in darkness.

Finally, Christian Science believes literally as well as spirtually, because of its demonstrable power to heal disease that Christ meant what he said when he gave his great promise to all ages: "The works that I do shall ye do also; and greater works than these shall ye do, because I go unto my Father."

RELIGION.

Religion, according to Science, is honesty, chastity and purity of thought and act, unselfishness, philanthropy, a literal and spiritual imitation of the life of Jesus Christ as the highest manifestation in religious history of a God-governed man. Christian Science recognizes all that is true and beauitful in the great religious

CONCLUDED ON LAST PAGE.

RAILROAD NEWS ITEMS.

Roy Zint is out on the road again.

E. L. Rhodes, shopclerk, spent Sunday in Minden.

Machinist-helper Tom Hayden resigned, Monday.

A. Brunswick was in Haigler, Sunday and Monday.

Stuart McLean arrived on No. 1, Wednesday, from Wisconsin, where he was summoned home, a few weeks since, by the tragic death of a brother.

Conductor Frank Rank is entertaining his father W. J. Rank of Dover, Minn., and sister and daughter Mrs. J. H. Hall and Ruth, late of Fairbury, this state.

Conductor Eph Benjamin departed on 6, Monday night, for Chicago, to continue his work on the grievance committee, which has been in session for several months and will continue for some time longer. He arrived from Chicago, Saturday night, to make the family a short visit.

The management of the Union Pacific closed a contract with a Chicago company for the construction of twenty-five water-purifying plants to be constructed on that system between Omaha and Salt Lake City. The order is the largest of the kind ever given in this or any other country, and contemplates the expenditure of at least $1,500,000. Work is to be begun at once. The officials of the Union Pacific are satisfied that it has solved the question of pure water for locomotives. It is estimated that the average life of locomotives will be more than doubled.

The engine expert for the Baldwin locomotive works is in Havelock to superintend the "setting up" of the new class D4 engines which are arriving from the works in installments of two and three. Fifteen of these monster freight engines will be given their finishing touches at Havelock and sent to the Western division for heavy hauling. The Baldwin locomotive works is one of the largest, if not the largest, in the United States. Of the 3,200 engines manufactured in this country, last year, by nine companies, this company made 1,520, or one engine for every four hours' work. The shops cover sixteen acres of territory, most of the building being from four to seven stories in height, and 1,300 men are constantly employed. The average size of the engines turned out was 137 tons and of the total number 424 were compound type, twenty-one oil fuel and seventy-four electric.—The Lincoln Star.

District Court Proceedings.

Following cases were disposed of at the session of district court held is this city, last week. Only cases acted upon are mentioned:

Frederick Plasmyere vs. Julia A. Allen and Frank P. Allen; continued to October 1st.

Paul Perrenoud vs. John T. Helm; dismissed at plaintiff's cost; judgment for $10 and costs.

William Byfield vs. John T. Helm; settled—defendant to pay costs.

The State of Nebraska vs. W. F. Everist; dismissed at state's request.

Mrs. Ella I. Benjamin vs. John R. Brown; settled.

The State of Nebraska vs. R. H. Lawerance; dropped from docket.

J. E. Kelley vs. George P. Smith, confirmed.

Carl G. Cavis vs. Albert W. Corey et al.; confirmed and deed ordered.

William T. Wootton vs. Samuel N. Troth et al.; confirmed.

McKinley-Lanning L. and T. Co. vs. Olivia Enyeart et al.; confirmed.

Kate Carroll vs. Edwin N. Benjamin et al.; confirmed and deed ordered.

William F. Miller et al. vs. Peter J. Byers et al.; confirmed and deed ordered.

Jesse Triplett et al. vs. Clarkson S. Triplett et al.; confirmed and deed ordered.

The Western Land Co. vs. George W. Castle et al.; decree of foreclosure.

The Western Land Co. vs. John W. Smith et al.; decree of foreclosure.

The Western Land Co. vs. James A. Mitchell et al.; confirmed and deed ordered.

The Western Land Co. vs. Edwin McCandlass et al.; decree of foreclosure.

Joseph B. Bisbee vs. Hannah E. Lamborn et al.; confirmed.

W. S. Perry vs. William Duborka et al.; decree of foreclosure.

Thomas C. Kelley vs. Viola Kelley; dismissed—each to pay own costs.

Susie M. Gammill vs. Aaron E. Gammill; divorce granted—each to pay own costs.

M.S.Emberling vs. James McAdams, same vs. J.E.Kelley, same vs. John H. Grannis, same vs. James A.Emberling; judgment of lower court reversed and verdict for plaintiff.

George W. Dillon vs. Maggie Dillon; divorce granted.

Walter L. Duffey et al.; judgment for plaintiff for $4,726.65 and 7 per cent interest.

Samuel C. King vs. Richard M. Williams et al.; decree of foreclosure.

Adela A. Jordan vs. Edward D. Jordan; divorce granted.

Does This Interest You?

The killing and dressing of first-class beef by different butchers does not change the quality of the meat; but we do claim that to be able to select good beef on foot one has to be a judge. In this I claim to be par excellence. My entire business comes under my own personal supervision. I have no assistant. Give me a trial and if my goods are not as good as the best; if my prices are not as low as the lowest; if my way of doing business is not entirely satisfactory, stop dealing with me. My business is neither the oldest nor the largest in the city and a customer lost or gained means more to me than to my competitors; this is why I am willing to do a good deal to secure a new customer or to hold an old one.

Don't forget the original Blue Trading stamp. I give them. Yours for business.

PAUL ANTON.

Dr. Herring on Home Missions.

Dr. Herring of the first Congregational church of Omaha delivered a home missions address in the Congregational church of our city, Wednesday evening. The meeting was in the nature of an echo of the state meeting held in Lincoln, Monday. The address was chock full of earnestness and interest and was strongly appealing to the subject. It is regrettable that more did not have the pleasure of hearing the doctor. Revs. Halberslaben of Indianola and Axtell of Trenton were present, the purpose being to have a district gathering.

Ill With Heart Trouble.

August Droll of Perry precinct was severely stricken with an attack of heart trouble, Tuesday afternoon, while in town, and for a while his life was despaired of. Later he recovered sufficiently to be taken home and we learn has quite recovered his usual health.

We want you to know that we are always glad to show our wall paper whether you buy or not. Our new papers are here and are well worth seeing. Some of the prettiest patterns must be seen here to be seen at all.

L. W. MCCONNELL.

Over 60 styles of new ginghams at 8½ and 12½c yd. Large assortment of mercerized wash fabrics as handsome as silks. Beautiful new oxfords and welts for shirt waists and suits at The Thompson Dry Goods Co.'s.
