In Other Colleges

Citizens of Nashville at a mass meeting Saturday decided to aid in erecting the new building to replace the structure recently destroyed by fire at Vanderbilt university. More than $33,000 already has been subscribed for the purpose.

Philo S. Bennett, a wealthy citizen of New Haven, is placing in the hands of twenty-five schools in the United States $10,000, the interest from which is to be given as a prize each year for the best essay on the "Principles of Free Government."

A number of students of the University of Michigan spent spring vacation in "hoboing" it to the Mammoth caves in Kentucky. Three of the number reached the cavern while the remainder were stranded along the road between Ann Arbor and Louisville.

Princeton's faculty has dropped sixty-nine students from the university as a result of inability to pass the recent semester examinations. This is only six less than the number last year which marked the greatest number of failures ever recorded at Princeton from one set of examinations.

With 500 students in working attire tugging at a big rope which drew a plow, and giving the college yell with each pull, ground was broken at noon Tuesday for the new $70,000 gymnasium at Ohio Wesleyan. Prexy Whitlock guided the plow amid the cheers of the co-eds. After a furrow 150 yards long was made, the students rested and listened to speeches by the

Excitement arising from troubles between students of the University of Illinois and a gang of young men residing in East Campaign, reached a high pitch last Friday night. A crowd of 200 students paraded around the streets looking for members of the gang. They were armed with shotguns, revolvers, baseball bats and ropes, and were in a bad mood. They entered restaurants and stores in search of the enemy, but were unable to find them. No member of the student body dares to go out in the street alone at night, and the police department has been deluged with requests to carry weapons. The trouble had its origin several weeks ago in a street fight between a number of university men and the leader of the gang. Since then there have been several fights with about an equal division of victories.

TOURIST CARS POPULAR.

The idea that an inferior class of people patronize the tourist sleepers is an error. On many trips only the best class of travelers are found. They are merely men and women of good sense who would rather travel to California in this manner and save a snug sum of money to be used elsewhere. It is beginning to be understood that it is by no means necessary for the traveler to spend a large sum of money in order to enjoy a trip to the Pacific Coast.

If you cross the continent in one of the tourist sleepers of the Union Pacific you will enjoy your trip and save considerable money. Inquire of E. B. Slosson, Gen'l Agent.
