Prime Paper—6@7 per cent.

Exchange bills—Weak at 4.82½; demand, 4.85.

Governments—Strong.

Stocks—Another dull day in stock circles. At the opening the market was firm and higher, with a general advance in prices of ¼ to 1½ per cent, the latter for Western Union, on the favorable decision of the Court of Appeals legalizing $15,526,500 of stock issued at the time of the consolidation of the American Union and the Atlantic & Pacific Telegraph companies with the Western Union in 1881. After 11 o'clock the market was quiet and steady, and continued so until the afternoon, when a sharp attack was made in Cleveland, Columbus, Cincinnati & Indianapolis, carrying the stock down from 61¼ to 55. This was followed by a general decline in the whole list of ¼ to 2 per cent, Northwestern preferred suffering most. There was little recovery at the close. As compared with last night's close prices are down ¼ to 2 per cent, except for Chicago, Burlington & Quincy, which is a fraction higher.

GRAIN AND PROVISIONS.

Special dispatch to THE BEE.

CHICAGO.

CHICAGO, October 2.—At the tap of the bell this morning the market shook off the lethargy of the past few days, awoke into activity, and was at times excited. Trading in all commodities was brisk, especially in corn, which was the center of attraction for foreign and local speculators alike. The day belonged to the bears. Their movements amounted to a raid, and they forced a decline of about 1c in the principal cereals. There was, nevertheless, a bull element, which succeeded in recovering a portion of the extreme decline in corn. Foreign advices were firm, but the home markets were weaker. Wheat opened active, but lower. The liberal offerings increased the decline to a point 1½c below Monday's prices, but at the close a spurt by the buyers recovered ¼c of the decline. Pork opened lively, and continued active throughout the session. Prices early in the day displayed a lower tendency, which was furthered by heavy offerings, and after some irregularity in the market there was a decline of fully 10c below yesterday's close, and was quiet at inside figures. The transactions were large, but entirely speculative, the shipping demand being small. Oats were exceptionally dull, prices weakened slightly, speculation was limited, and the cereal displayed not much life. Hog products were unsettled and rather weaker. Foreign advices were of a nature inclining this market to inactivity. The receipts were light, but the shipping demand was liberal. The stock of hog products is reported at 20,000,000 pounds in excess of the supply at the same time last year. Offerings of mess pork were free. Owing to this fact prices declined 12½@15c on the whole range, and closed steady, with the transactions aggregating only a moderate amount.

THE NECESSITY

FOR THE SPECIALIST,

DR. H. WAGNER,

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them all. Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the genito-urinary organs need special study more than anything else, if we would understand and know how to treat them properly.

DR. H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most persons of refinement and intelligence a more enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And fortunately for humanity, the day is dawning when the false philanthrophy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

A Few Reasons

Why you should try the celebrated Dr. H. Wagner's methods of cure:

1. "Dr. H. Wagner is a natural physician."
O. S. FOWLER,
The Greatest Living Phrenologist.
2. "Few can excel you as a doctor."
DR. J. SIMMS,
The World's Greatest Physiognomist.
3. "You are wonderfully proficient in your kn
