FINANCIAL.

NEW YORK, October 4.

Money—Easy at 2@3 per cent., closed at 2 per cent.

Prime Paper—6@7 per cent.

Exchange bills—Weak at 4.81½; demand, 4.84¼.

Governments—A fraction better; 4½s were a trifle lower.

Stocks—Opened a fraction lower, then advanced ⅝@⅞ per cent, the latter in Oregon Transportation. By eleven o'clock the improvement was lost and the bears had the market once more under control. Villards fell off ⅝@1½; Northern Pacific dropped from 31½ to 30¾, preferred 60 to 57¾. The remainder of the active list sympathized but slightly with these shares, declining only ¼ to ¾ per cent, except for Omaha preferred, which broke 1 00¾ to 96¾. Shortly after eleven o'clock Lackawana received strong support, fully 30,000 shares being taken in the neighborhood of 1 20@1 20¾. This had the effect of stemming the downward movement and caused a rally of ¼ to 1½ per cent, in which Oregon Transportation was most conspicuous, selling up to 49; Northern Pacific recovered to 31¾, preferred to 56 and other stocks ⅛ to ½ per cent. From this time until nearly 1:30 the market was quite dull. About the time mentioned a report was circulated that the leaders were in conference to devise means to end the bear raids. Simultaneously with this announcement the sharpest drive of the day was made on some shares, particularly on Oregon Navigation and Northwestern. The former broke 2½ points to 1 19½ and Northwestern 1⅝ points to 1 20¾. The shares not attacked by the bears yielded but little, about ¼ to 1 per cent. Toward the close a much better feeling prevailed and an advance of ½ to 3¼ per cent was established with great activity. The underlying cause of the sharp recovery was the reported conference of Gould and Villard. It was currently stated that the capitalists in question and two or more prominent banking houses had agreed to take a certain amount of bonds to be issued by the Northern Pacific company, the proceeds of which will be used in taking up the floating debt and providing the company with means to thoroughly equip their lines. It was also reported that a portion of the bonds will be taken for European account. Still another rumor current was to the effect that Gould and Sage would enter the Oregon Transportation directory. While these rumors could not be officially confirmed, there is apparently good ground for believing that a deal in Northern Pacific has been made and that the purchases made by the leading operators to-day were decided upon by the deal in question. In late transactions Northern Pacific rose to 32¼, preferred to 61. As compared with last night's closing prices, some shares show ⅛@⅞, while others are ¼ to ⅞ per cent lower, except Oregon Navigation, which is down 3½@1 20.

GRAIN AND PROVISIONS.

Special dispatch to THE BEE.

CHICAGO.

CHICAGO, October 4.—Quiet and shading into dullness was the pervading spirit of to-day's markets. The feeling was easier and in some commodities weak. The aggregate of business transacted was much smaller than yesterday's. Local speculators were indisposed to operate and country orders were conspicuously lacking. Wheat opened easy and continued dull throughout the morning. Receipts were moderate and an increase in the visible supply of 80,000 bushels was bulletined. This induced a few energetic bears to hammer down the market ⅛@⅜c at the opening. Their movements met with some resistance, a rally taking place, but at the close prices declined ⅛c below yesterday. November was the principal option dealt in. Trading in it was light, and it closed at 97c. Corn was dull; no competition existed among shippers, whose purchases were moderate and the speculative demand was even more so. Foreign advices quoted slow dull markets. The visible supply showed a large decrease, which helped to sustain prices. Prices were confined within narrow limits, with a declining tendency and closed ⅜c below yesterday. October closed on 'Change at 47⅞c; November 47⅛c bid. Oats were very dull and showed a slight decline. Barley dull and about unchanged. The bulk of the supply were grades below No. 2 and is different of sale, by sample, as receivers now endeavor to work it off with a view of realizing better prices than for some stuff in store. No. 2 in store sold at 60½@61. Some by sample about 1@2c higher; No. 3, 44@45c in store, by sample ranged at 44@57c. Trading in pork was moderately active, offerings not large and demand fair. Longer deliveries ruled 5@10c lower. Shippers were favored with fair orders, but the excessive prices asked tends to check business. The feeling was unsettled, prices fluctuating considerably, but on the whole confined to a narrow range. The close was steady, October 10 52½@10 55; November 10 42½@10 45.
