A BULL WHEAT SYNDICATE

Big Speculators Unite Under Ream to Push Wheat Higher.

THE LARGEST CORNER IN YEARS.

Great Activity in Trading in All Grains, With Prices Fluctuating—Pork Scores an Advance—General Quotations.

CHICAGO PRODUCE MARKET.

CHICAGO, Dec. 4.—(Special Telegram to the BEE.)—Ream has changed his attitude on wheat and now is an avowed bull. This is the most important speculative change in the situation since this big bull movement began. Ream admitted that he was a very large holder of wheat, and said that he believed that the advance had just begun. He said: "I am now a bull on wheat, and believe that there will be at least 10 cents further advance. The situation abroad has changed and that is why I have turned. When crops in Europe are bad it has been invariably the case that the farmers over there sell freely and early. That has been the case over there this year, so that it is quite certain that the stocks back in the farmer's hands are small in all the wheat regions of Western Europe. As for stocks at points of accumulation they, as everybody knows, are much smaller, than heretofore. I find that they are certainly smaller than for three, and I think smaller than for ten years. This creates an extraordinary demand for wheat abroad. Ours is the best and quickest and most natural market for them. Besides, the quality of our wheat this year increases our chances. As for speculation, it is widening and deepening so that now there is more general buying of wheat than for years. I believe the advance has just began, and I should not be surprised if there was a 10 cents further up movement at least." The truth is that a great syndicate has been made up to bull wheat; that it is headed by N. B. Ream, comprises Pillsbury, Nat Jones, Pat Kelly and all the northwestern millionaires' crowd which accepts Ream as leader. The syndicate has been buying wheat under cover for nearly a week, and only day before yesterday took 3,000,000 bushels through a single house. Well informed commission men are of the opinion that the crowd holds already 10,000,000 bushels of wheat and perhaps more. Before they went in they looked over the grounds carefully, and there is no doubt at all but that the biggest deal since Armour's great corner of 1882 is now on. Just before the opening the indications were that wheat would open weaker
