THE SPECULATIVE MARKETS.

Wet Weather Scares Were the Bull Forces in the Wheat Pit.

ACTION OF THE CORN MARKET TIMID.

Oats Kept in a Narrow Groove—A Spirit of Liquidation Prevailed in Provisions—Cattle and Hogs.

CHICAGO, July 8.—[Special Telegram to THE BEE.]—There were many things in favor of the bull market in wheat today, but trade generally was against it and lower prices were recorded. The sharp advance of yesterday was without sufficient cause and a decline was natural before the public, and many consistent bulls would take hold again. The hot weather scare was the bull force yesterday and when early dispatches showed a lower temperature in the northwest the traders sniffed the cooler breezes also and offered wheat at lower prices at the opening. July started nominally steady at 89½c for August 89½c off at 89½c for September, a fraction lower at 90½c and December at 91½c. The so-called big plungers were not in the market to any great extent that means Hutchinson, Bryan, Cardwell, Reed and many others. Chandler & Brown were heavy sellers, with the cowhanging wheat weak for. Humis turned in and sold contrary to bull skidspatches. In this he was only a little in advance of the crowd, who "cropped" the bull ness later in the day. The most conspicuous buyer of the day was by Melvoigt & Co. Mr. Hutchinson made a show of selling on the bulges, but it was evident that he was taking wheat at lower prices. Bear news was as stated—better temperature in the spring wheat country, together with better crop figures giving an increase of 24,000 bushels on the ocean passage. Bad points were more numerous. Continent cables reported cool and wet weather. Liverpool cables were firm early and closed ½@¾d higher. New York cleared 90,000 bushels of wheat and 10,000 packages of flour and reported 22 loads bonded to leave for export today. Our inspections included 112,000 bushels of contract wheat and Hutchinson took 60,000 bushels for vessel room, making 56,000 bushels taken by him in a few days. Receipts here were very light, only 36 cars, and only 22 cars estimated for tomorrow. Besides the reaction from yesterday there was some liquidation by the road in anticipation of the March government report on Thursday. The action of the market up to 9 o'clock was: July 89⅞c to 89¾c to 89½c; August 89⅞c to 90c to 89½c to 89¾c; September 90½c to 90¾c to 90½c to 90¾c; December 90½c to 91¼c to 91¼c to 91½c. Wheat held steady at o'clock prices until a few minutes before the close, when there was fresh buying on 26 loads taken for export to New York and 145,000 bushels for vessel room taken here. The last prices were pretty well up to the top for the day at 89¾c for July, 90½c for August, 90½c for September and 91¾c for December.

The action of the corn market for two days shows how easy trade may be led one way or the other by dispatches. Corn jumped nearly 2c yesterday on a sure over the drought, when no real danger existed. Today's trade heard of showers in the southwest and imagined the crop saved and ready for husking and cribbing and went straight away sold all they bought yesterday. The result was a drop in prices early of about 1c all around. September opened in a flurry all the way from 38c to 39½c, at the same moment sold at 37½c and closed at 37½c, or 1c lower.

There was a narrow market in oats. Some receiving gave a heavy appearance to the market and at the close prices were 1c lower all around. July held close around 28c all day, closing at 27½c; August sold at 27½c to 27¾c to 27½c to 27½c to the close; September sold sparingly at 27½c and closed at 27¾c; May sold at 30¾c to 30½c to 30½c to close. Light receipts of hogs and dispatches giving prices 5 cents higher at the yards caused a firm opening for both short ribs and lard on the floor. But the spirit of liquidation prevailed later in the day and provisions yielded with grain. The trade was very large, local and selling from Eastern and Western and other packers. Pork sold at $12.20 to $12.00 to $12.05 to $12.12½ for July and between $11.90 and $11.90 for September, closing at $11.95. Lard touched $6.90 for September and closed at $6.92½. Short ribs for September sold at $5.35½ and $5.37½, closing at $5.30, or 5 cents lower.

CHICAGO LIVE STOCK.

CHICAGO, July 8.—[Special Telegram to THE BEE.]—CATTLE—There was little or no change in demand or prices. Good to fair and suitable stock sold the same as yesterday and the same as at the close of last week. Common and medium steers were again slow and the last to sell. A falling off of 7,000 has not yet made any perceptible change in values on natives, as the decrease is largely in Texans, which are selling 10c to 20c higher than last week, the advance being largely today. Calves of native butcher stock have sympathetically followed the advance on Texans, making best cows, heifers and bulls 10c to 15c higher than at the close of last week. The stocker and feeder trade presented no new features. The supply is not equal to the demand and prices are strong on anything nice and handy. Choice to extra beeves, $4.70@5.35; medium to good steers, $3.50 to 4.50 lbs., $4.00@4.60; 1200 to 1350 lbs., $3.80@4.10; 950 to 1300 lbs., $3.40@3.95; stockers and feeders, $2.25@3.30; cows, bulls and mixed, $1.25@3.10; bulk, $2.00@2.80; slop-fed steers, $3.00@4.50; Texas steers $2.20@3.00; cows, $1.90@2.10.

HOGS—Business active with another upturn of 25@5c for the great bulk of mixed selling at $4.95 and the best heavy at $4.90. A few lots of common mixed sold at $4.85 and $4.90 and a few lots of fancy heavy at $4.92½; light mixed and assorted light sold early at $4.80 and single sort at $4.95.

FINANCIAL.

NEW YORK, July 8.—[Special Telegram to THE BEE.]—STOCKS—The stock commission houses are still waiting for business. The bull campaign will start slowly, if it starts at all. There is keen disappointment in the bull camp. The selling of yesterday was a serious set back. The fresh bear operations of the Cammack-Jones party have given sellers more courage. But the unexpected appears to be the order of the week. When everything was the darkest for buyers this morning, quite a favorable change occurred. The weak tone of yesterday gave place to a strong temper which in the first half hour generally recovered the losses of yesterday. The first prices as compared with the final figures of last evening, showed some irregularity, but the changes were generally for small fractions only, and a firm tone became apparent immediately. Advances of 1 per cent in Jersey Central, ¾ in Lackawanna, ¼ in Sugar Refiners and ½ in Union Pacific, with smaller amounts in the rest of the list, followed, when the market became dull and steady at the improvement. Lackawanna, St. Paul, Atchison, New England, Reading and Rock Island led in point of activity, but the general list was comparatively neglected. The conference agreement upon the silver bill resulted in no larger transfer of certificates, but with only a slight change in prices. Before noon Transcontinental moved up to 4¾ against 4⅝ at the close yesterday. Atchison rose to 4⅝ and Reading to 47. The support in Lackawanna came from the S. V. White following, and Boston bought New England. The market held firm to light business at 2 o'clock. To day in stocks passed out fairly well. The total sales were much over the late average at 200,000 shares. Lackawanna continued strong and after selling at 135 closed 134 upat 46½. St. Paul and Missouri Pacific each gained ½ for the day, with other western stocks firm and steady. Jersey Central rose 7¼ for the day to 12¾, with Transcontinental up 1½ to 6. Sugar made a net gain of ½ and Chicago Gas a similar loss to 75½.

Estimated receipts of cattle 2,200, compared with 3,309 yesterday and 1,472 Tuesday of last week. The market opened active and strong on desirable beeves, including heavy shipping and export steers and the best grades of cows. The poorer grades, such as are in the pens, are slow with a downward tendency.
