THE SPECULATIVE MARKETS.

Wheat Market Slow and Narrow, With a Slight Rally at Noon.

CORN SADLY DISAPPOINTS THE BULLS.

Oats Open Strong on Country Buying Orders—Very Little Outside Business in the Provision Trade.

CHICAGO, July 14.—[Special Telegram to THE BEE.]—Considering the news the wheat market was heavy today. The big head of steam on in corn on the curb, and at the opening, helped to start wheat at better figures, but there was no advance from the opening. The visible supply figures came in slowly. Chicago showed a large decrease of 274,000 bushels, Minneapolis 397,000 decrease, while New York decreased but 153,000. The large increase of 298,000 bushels at Buffalo and 153,000 in store, and 100,000 afloat at St. Louis, was unexpected. For a time it looked as if there would be a small increase instead of the 500,000 decrease anticipated Saturday. The official figures of 1,040,000 bushels against 1,184,000 bushels, a decrease from last year. New York cleared 140,000 wheat and some flour and reported pretty bullish continental cables. Liverpool cables were firm for spot and futures. The extreme heat of Sunday in the northwest was followed by high winds and hard rains at many Dakota points last night, and high temperature again today. The news from that quarter was bullish in the extreme, as no crop can flourish under the conditions reported. Northwestern orders were to sell wheat in this market. Northwestern country stocks decreased for the week 170,000 bushels. Much of the wheat bought on the curb and at the opening was sold out the first hour, leaving prices under the Saturday figures. There was a little rally about noon, but the market was slow and narrow. July started at 88c and sold at 87½c on the decline. August sold at 89¼c off to 88⅝c to 88¾c to 88½c. September opened at 9[illegible]c, sold at 90⅝c off to 90c at once, rallied a fraction and then went off to 89⅝c, with a second rally to 90c before 1 o'clock; December, 90⅝c to 90c to 91⅛c. Visible supply figures, showing a decrease of over 1,000,000, were not posted until near the close of the session. There was a temporary rally in September from 89⅞c to 90⅜c, but aside from this there was little change. The closing prices were identical with Saturday's figures—July, 88½c; August, 88½c, September 89⅞c and December 91⅛c.

The corn market was a strong one at the opening, but the result of the day was a disappointment to the bulls. The weather conditions over the southwestern states became bullish. Blistering hot weather was reported over Kansas and Nebraska, with dry and high temperature in Iowa, Missouri and Illinois. There was active buying on the curb, and when the market opened at 10:30 all futures were up 1c from the close Saturday. The buying was led by Logan & Co. and McCormick & Co. The strong appearance of the market caused shorts to jump in and buy. The advance was stopped by offerings of Hutchinson. On the early bulge the local crowd hastened to realize and the best prices were not held. July sold at 56½c to 56⅞c to 57⅛c; August 57⅜c to 57½c to 57¼c; September sold at 58½c to 58⅝c to 58½c to 58⅜c; May 41⅛c to 41⅜c.

The oats market was strong at the opening on country buying orders. Prices advanced still further on the general bullish feeling in all the markets early. Then Hutchinson caused a break by heavy selling. The last prices were about ¼c over the close Saturday. July sold at 29c to 29½c at the close, August 28⅝c to 28¾c to 28½c, September 28⅝c to 28⅝c to 28¼c to 28⅛c to 28¼c to the close, May 31⅜c to 31½c to 31⅜c to 31½c.

The provision trade put in a day with insignificant local operations. There was little outside business. There was some firmness only on account of hogs being 5c to 10c higher and corn up. Short ribs held firm all day and closed higher at 5.30 for September, Lard for the same month was at 5.02½ and 6.05, closing at 6.02½. Mess pork for July was quoted at $12.00 and $11.85 at the close, September $11.00 to $10.80 to the close. There were no new features except that the clique appears to be letting pork decline slowly.

CHICAGO LIVE STOCK.

CHICAGO, July 14.—[Special Telegram to THE BEE.]—CATTLE—The supply was made up of 18,000 natives and 3,000 Texans. Natives consisted principally of three-quarter fatted steers, such that have been selling of late mainly around $3.75, still there were a great many heavy fat cattle on sale, but only a light sprinkling of handy dry-fed qualities and desirable butcher stuff. Heavy cattle, such as are classed as exporters, met with slow and weak inquiry and prices eased off 10 and 15c. Dry fed smooth steers of light and medium weights received considerable attention, and prices for such ruled steady. Good cows, heifers and calves were comparatively scarce and commanded strong figures, while other grades ruled steady. The early Texas market was 5c and 10c higher, but the closing sales show no more than last Saturday's quotations. The big run of native cattle today is due in a great extent to the drying up of water, wells and springs throughout Iowa, Missouri and many streams of Illinois and Kansas, forcing farmers to rush their stock to market sooner than take chances of holding during this hot weather. Choice to extra beeves, $4.60@4.75; medium to good steers, 1,350 to 1,500 lbs., $4.25@4.40; 1,200 to 1,350 lbs., $3.80@4.10; 950 to 1,200 lbs., $3.50@4.00; stockers and feeders, $2.40@3.50; cows, bulls and mixed, $1.25@3.10; bulk, $2.10@2.65; fed Texas grass steers, $2.25@3.00; corn-fed, $3.00@3.35; cows, $1.75@2.25.

HOGS—The market opened with a good demand for a choice quality of hogs from all classes of buyers, and prices averaged 10c higher than the average of Saturday, and fully 25c better than Friday, the low day last week. The bulk of the heavy, good enough for shipping, sold around $3.85, and most of the packing grades between $3.80@3.85. A few fancy sorted heavy were bought by Underwood at $3.95, but $3.90 represented the actual extreme top of the market for primest heavy qualities. Light hogs sold from $3.85 to $3.95, with $3.90 the popular price for York sorts. A few singing tops brought $4.00. Selected butchers' pigs commanded generally $3.85@3.90, though packers sold as low as $3.70@3.75. The finish of the general market was weak and indications have an uncertain outlook for tomorrow.

FINANCIAL.

NEW YORK, July 14.—[Special Telegram to THE BEE.]—STOCKS—The effect of the passage of the silver bill upon the stock market this morning was little more than to stimulate trading in silver certificates, and although the market presented a strong front outside of Sugar Refineries there were but slight changes in the quotations after the opening advances. First prices were generally from ⅛ to ½ per cent better than Saturday's closing figures, but Sugar was up 1 per cent and Pacific Mail 1½. Sugar was very active and rose 1 per cent further to 78¾, a net gain of 2 per cent from Saturday's final figure, but reacted fractionally in the latter portion of the hour. Silver certificates also opened up 1½ per cent and on comparatively large business rose to 109¼, a gain of ¾ per cent over the opening price. Among the stocks of the regular list St. Paul was most active and showed a small fractional advance, but Pacific Mail was unable to hold its opening advantage, reacting ¾ per cent, and Hocking Valley, after a gain of ¾, lost most of its improvement. The rest of the market showed little or no feature and the fluctuations were scarcely perceptible. At 11 o'clock the market was quiet and rather heavy, with some stocks slightly lower than the opening prices. During the hour to 2 o'clock Pacific Mail again touched its high point, 45¾, with its friends predicting a great climb on account of the subsidy bill. Lackawanna rose to 1[illegible], but did not hold its best price. Sugar dropped to 77½ and again rose to 78. Granger stocks were dull at little better than Saturday's figures. Sugar Refineries, after being manipulated all day, returned just at the close to 76½, the last price of last week. Late in the day, Rock Island dropped to 90¾, but recovered to 91¼, showing ¼ net loss. St. Paul and Lackawanna were each somewhat active, and each showed ¾ gain at the close. Grangers generally were heavy with Rock Island. Total sales were 98,800 shares.
