THE SPECULATIVE MARKETS.

"Wheat Acts Like It Was Going to a Dollar a Bushel."

CORN KEEPS UP WONDERFUL STRENGTH.

The Oats Market Makes Good Progress Toward Higher Prices—Provisions Keep a Stiff Upper Lip.

CHICAGO, July 25.—[Special Telegram to THE BEE.]—"Wheat acts like it was going to a dollar a bushel," said a commission man about noon. The early flurry in the market was then over, but the market was nervous and strong. The great movement of the day in the wheat market took place the first hour. There was a most surprising turn in prices and the shorts were victims of the advance. When the day opened the weather conditions at home and abroad were reported more favorable. The strength on the curb, however, caused the first prices to be a fraction over the top price reached on a 2c advance of yesterday. This was regarded as a fine chance by longs to unload wheat and realize profits. The first feature was the free selling by holders of wheat bought during the past two days. It found ready takers. When the offerings ceased there was still a good demand for wheat. It was not to be had. At this point trade began to be nervous. Every bid put the price up—first by small fractions, then by larger gains, until shorts took alarm, then prices went up ½c and in a minute, with shorts big and little bidding wildly for wheat. Stop loss orders were executed by commission men in many cases after the price was 1c beyond the limit. Longs who sold out early hastened to get in. After a bulge of 2c one or two heavy shorts covered, and this gave the final impetus which put the price of September 3c over the top price of yesterday. The action of the market up to 1 p. m. was as follows: September 91⅜c to 91⅝c to 94⅝c to 92⅝c to 93⅝c to 92½c to 93⅛c to 93½c; December, 93⅝c to 94⅞c to 96c to 94⅛c to 95c. Pillsbury wired that 50 cars of patent flour had been accepted abroad at top figures. Even after a remarkable advance the market held up strong. There was general selling out of wheat before the close. Many of the buyers on the advance took profits. The result was a decline for all month the last half hour. July was quoted at the close at 93½c, August at 91½c, September 92⅞c and December 94½c.

The advance in corn was not so wonderful as in wheat, but on any other day this market would have attracted general attention. It is but a few days since corn was heavy around 38c for September. Today the price touched 41c for September and 45c for May, and there was no violent reaction from these extremes. The market looks to be moving up on a good foundation. Liverpool was helpful today as the cablegram showed and futures did decline and the situation strong. In crop news there was some change from the conditions which caused the advance to 40c yesterday. Receipts here were less than the estimate at 401 cars. In this pit, as in wheat, however, the sharp advance early was due to the efforts of shorts to protect themselves. September sales were at the opening 40c, the top price, yesterday, and sold straight to 41c off to 40⅜c up to 40⅝c and eased off to 40⅜c before 1 p. m. The closing prices for corn were generally ⅜c to ⅞c over last night, except for May, which was up 1⅛c. The last prices were: July 40c, August 40⅝@40¾c, September 40⅝@40¾c, October 41⅛@41⅜c and May 44⅝c. The high prices for the day, as gathered at the close, were: July 40⅞c, August 40⅞c, September 41⅜c and May 45c. The corn trade is now composed often bulls for one bear. A well advised broker says: "There is a firm belief that prices will be further advanced and that on a situation without manipulation."

The oats market made good progress toward higher prices early in the day and at the close the price of September was ¾c over last night, after selling 1⅝c higher the first hour. July was quoted only at 32½c, with no business for the month; August sold up to 32c and closed at 31c; September sold at 30c to 31⅛c and closed at 30⅝c; October closed with September; May oats opened at 33⅝@33⅞c and closed at 34c. The opinion is that this market is a little top heavy.

Provisions did not get excited today over the flurry in other pits. While there was a firmer feeling and higher prices in a few particulars, there was no general advance. In mess pork some bidding in shorts ran prices of July up to $12.10 at the close, with the Anglo company bidders. September pork was up but 5c at $9.25, while August was slightly lower at $9.05. Lard gained 7½c from the opening and closed 10c higher than yesterday at $6.65. Short ribs were up 5c.

CHICAGO LIVE STOCK.

CHICAGO, July 25.—[Special Telegram to THE BEE.]—CATTLE—There was a fair demand for all classes of cattle, notwithstanding the continued heavy supplies. Good to choice fat beeves, not too heavy, were inactive request at strong prices, desirable 1,250-pound average commanding a little more money, as this is the favorite export weight at present as well as an attractive average for eastern shippers and the better class of dressed beef trade. Grassy steers sold unevenly and generally as satisfactory, as heretofore reported this week. Pretty good grades were no more than steady, and such was the case with cows and all classes of butchering and canning descriptions, except perhaps a tidy, handy quality of killing heifer, cow or bull. The 3,800 Texans on sale received considerable attention from canners, dressed beef men and even eastern shippers, and strong prices prevailed. No western rangers arrived today. Choice to extra beeves, $4.50@4.80; medium to good steers, 1,350 to 1,500 lbs., $4.20@4.45; 1,200 to 1,350 lbs., $3.90@4.25; 900 to 1,200 lbs., $3.60@3.85; stockers and feeders, business light at $2.10@3.40; cows, bulls and mixed stock, $1.40@3.20; bulk, $2.10@2.90; Texas cattle, market strong and active; steers, 850 to 1,050 lbs., $2.75@3.40; 750 to 900 lbs., $2.40@2.75; cows, $1.90@2.30.

HOGS—The opening was uncertain and rather "draggy" in the Northwestern division. Buyers started out to fill up at $4.75 for desirable heavy hogs and got good many, too. In Rock Island and Burlington divisions $4.75@3.85 were the opening quotations for good heavy. Later strength was developed all over the yards, and by the middle of the forenoon the bulk of heavy hogs of good quality were selling 5@10c higher than yesterday's close, or at $4.85, with an occasional sale or so of something fancy at $4.87½@5.00, and one lot at $5.15. The southwest division had a good many loads on sale that were more or less grassy, and such were neglected at or around $4.50 early and $4.75 late. The light hog branch opened at $4.85 for sorts and selected butchers, but soon worked up to $5.00, which proved a popular trading figure, a few fancy making $5.05. Light-light and skippy pigs sold mainly around $4.70 and were in poor demand at this low figure. The general market closed strong, with the supply well cleared.

FINANCIAL.

NEW YORK, July 25.—[Special Telegram to THE BEE.]—STOCKS—Opportunities for bears to smash the market are fast slipping away. The demoralized condition of railroad rates, doubt about silver matters, uncertainty about gold exports, bond purchases and fear of serious shortage in crops to be moved, are all fast becoming things of the past. With these influences against the market, and with many of the usual active supporters of active stocks out of the street, professional bears still did not see a safe place to sell any further lines of stocks short. Now there are many signs of improvement. Standard shares advanced readily on very light trading. The bull campaign is what is expected; it may come slowly, as the expansion of the financial resources of this country goes on. The market did not start with any fresh activity today—the comparative activity shown yesterday seemed to have exhausted trading power in the street this morning, for the dullness was again equal to anything seen during the present dull period. Sugar Refineries and New England were again the only stocks displaying any animation, and in these trading was diminished from that of yesterday. First prices, in continuance of the reaction of last evening, were generally from ½ to ½ per cent lower than last night's figures, but the weakness disappeared with the first sales, and as far as such limited market could show any temper, it was firm. Sugar, however, weakened again late in the hour and declined from 98⅞ to 97⅞. At 11 o'clock the market was intensely dull and stagnant at the opening prices. Trading during the hour till noon was light and changes in values not important. Sales of stocks today reached but 75,000 shares. There was a weak, heavy feeling, although there was no special bear influence. Sugar Refineries, Atchison and Lackawanna each closed at a loss. There was little feature to the market.
