THE SPECULATIVE MARKETS.

Wheat, the First Hour, Makes an Advance of Three Cents from Saturday.

CORN MEETS WITH A LARGE BUSINESS.

Oats Strong at the Opening But Weaker at the Close—Hog Products Dull on the Windup—Cattle and Hogs.

CHICAGO, August 11.—[Special Telegram to THE BEE.]—The visible supply report was lost sight of the first hour in wheat because of the remarkable opening of the market—an advance of 3c from Saturday. Later in the day, when the visible supply showed an increase of 126,000 bushels, there was little disappointment, not because the increase is not natural at this season for a year ago, but because early figures received from Minneapolis and a few other cities made it look as if there might be a decrease. This would have added to the bull ammunition greatly. The situation in wheat here at the opening was peculiar, and notwithstanding the big business of last week trade prepared for the Dodge crop figures by getting owned up. Then when his report came after hours Saturday it was harmless. It proved to be quite bullish and gave the average of spring wheat, over which there has been so much controversy, at 83c. Extreme estimates of trade were from 81 to 88c. The government estimate very nearly confirmed the worst feature and this, with the change done since August 1, made it the cause for a sharp bulge. The market opened with a bound of over 3 cents. This was not followed by any panic, or great covering by shorts, or unloading by longs. That was out of the way and business began on a higher range, with bulls and bears still even. Leopold Bloom was first to sell long wheat heavily and this checked the upward movement. Later in the day Roche and others sold freely. A big line of long wheat taken by S. V. White & Co. last week was partly liquidated at advance figures. While opening prices were about the top for the day, there was no violent reaction. The range for leading months up to 1 o'clock was but 1c and trading was not equal in volume to many days of late. September sold at 90c to 90½c at the start off to 90¼c to 90⅛c to 89⅞c; December $1.02¼ to $1.02⅛ at first, off to $1.01⅞ to $1.01½ to $1.01¾; May sold at $1.07½ and $1.06¼, recovering to $1.07⅛. Liverpool cables were very firm and ¼d up for spot and futures, and private cables later were bullish. New York cleared only 60,000 bushels of wheat and other ports practically nothing.

In corn forces were conflicting and large business was done within a moderate range after the first advance in prices. The fact that the government statistician finds a decrease of 20 points in the condition of the crop of the country from July 1 to August 1 is sufficient to give the market a good support. July 1 Mr. Dodge called the condition 93.1 and a month later 73.3. The question then is—with September corn above 50c and May at 4c premium—has the damage to the crops been discounted by the wonderful advances in prices in the past two weeks? The action of trade would indicate not. September corn, which closed at 49⅞c Saturday, opened this morning at 51c and sold at 51½c a moment later. October jumped to 52c and May started at 55c and touched 55½c. Then there was another feature to consider. Sunday brought scattering rains to Nebraska and Kansas. Ten days ago this would have caused a break of 2c in the hour. It caused some selling on a bulge today. Is the crop too far gone to be helped? This is the next great question. September sold off to 50⅝c and recovered to 50⅞c at 1 o'clock; May sold at 51½c and recovered to 54⅝c. Corn closed about ¼c better than the bottom prices of the day for all months and from ¾c to 1c over the close on Saturday. An easier feeling was created late in the day by some local realizing and selling on country orders on the strength of the rains. Closing prices for all months were: August, 50¼c, range 49¾ and 51c; September, 50⅜c; October, 51⅝c; December, 51¾c; May, 54⅝c.

There was a flurry in oats at the opening with everything else, but as the day advanced there was little in news to give force to the market and it quieted down at a lower range of prices than at the opening. First prices were up about 1c from Saturday, with August at 40⅝c, September at 40c, October at 39¾c and May at 44c. In August and May there was a slight bulge over this to 40⅞c and 44⅛c respectively. Then prices yielded, as in other grain, and August closed at 39⅝c; September sold off to 39c and closed at 39⅝c; October to 38¾c, closing at 39c; December sold at 40⅛c and 39⅞c, closing at 39⅝c; May touched 42c and closed at 42⅛c, all seller at the close.

There was an active opening in hog products, but the market was dull before the close. January pork sold up to $12.35 on the strong start in corn, dropped to $12.25 and closed at $12.30. On call August pork was offered by a clique house from $11.25 down to $10.60, with no takers. Later on the same sold at $10.75 and the close was at $11.00, for September $11.20. Lard closed 5c up for September and 7½c for January. Ribs were up 7½c for September and 10c for January. There were about 20,000 hogs received at the yards.

CHICAGO LIVE STOCK.

CHICAGO, August 11.—[Special Telegram to THE BEE.]—CATTLE—As compared with the close on Friday and Saturday there was little or no change either in demand or in prices. Corn-fed cattle in some instances sold 5@10c higher. A bulk of the sales showed no particular change, and the common end of the stock dragged along in about the same way as for a month or so past. Business seems to have nearly collapsed in the Texas division. There was at least 6,000 in the run and perhaps 1,000 were carried over, making 7,000 on sale, and up to a late hour scarcely any business had been transacted, as buyers were offered 10c lower, and sellers were endeavoring to get at last week's prices. There was nothing of note going on in the stocker and feeder line. Choice to extra beeves strong at $4.60@4.80; medium to good steers, 1350 to 1500 lbs, $4.00@4.30; 1200 to 1350 lbs, $3.50@4.00; 950 to 1200 lbs, $3.25@3.75; stockers and feeders, $2.00@2.90; cows, bulls and mixed, $1.20@3.00; bulk, $2.00@2.35; slop-fed steers, $3.25@4.40; Texas steers, $2.00@3.00; cows, $1.50@2.00; western rangers, $3.20@3.65.

HOGS—Business was active with an upturn of a strong 5c on prime corn-fed assorted heavy and little or no change on the ordinary run of mixed or packing grades. Light sorts also sold 5c higher; rough and common sold at $3.00@3.65 and bulk at $3.60@3.85, with prime assorted heavy at $3.80@4.00, a few fancy heavy and butcher weights making $4.02½@4.05; light sorts, $3.95@4.00.

FINANCIAL.

NEW YORK, August 11.—[Special Telegram to THE BEE.]—STOCKS.—Everything goes the way of bears in stocks. The depressions of Saturday were followed up by further attacks all through the list. This morning rumors regarding the Vanderbilt-Knights of Labor fight were ugly, and everything but reassuring. Bears easily succeeded in opening the market from ⅛ to ½ per cent lower than the closing prices of Saturday, while Lake Shore was down 1 cent and Cleveland, Cincinnati, Chicago & St. Louis and Rock Island each ¾. There was unusual activity in the first half hour and buying was equally as good as selling, and in a few cases did further losses reach more than slightest fractions. Laclede Gas, however, yielded 1½ per cent to 18 and Burlington & Quincy ¾ and Erie ⅛. The decline was soon checked, however, and almost everything was brought up to small fractions better than the opening figures. Sugar Refineries were again a strong feature of the market and it rose 1 per cent to 82. Sugar, St. Paul, Atchison, Lake Shore and Erie were specially active and there was good business done in all leading shares, the market being more active than at any time for months. Still lower prices were reached shortly after 11 o'clock, when Northern Pacific common was off 1 per cent to 42½, preferred ¾ at 79¾, Burlington at 76½, Rock Island at 87½, St. Paul 69½, Lackawanna off 1¾ to 142½. Reading also 1½ to 41¼. Before noon Missouri Pacific, Burlington, Lake Shore and a few others recovered ½ to ¾ from bottom figures. Other stocks showed no improvement and the market continued irregular and trade nervous. The stock business was the largest for weeks and sales reached 225,000 shares. Everything appeared to be against the market. Prices on the whole went lower before the close, with money loaning for the moment at 25 per cent. New York Central and Lake Shore recovered considerably before the close. Reading was very weak and nearly 2 points lower. St. Paul was very weak. Sugar closed steady.
