The Strength of Wheat a Matter of Surprise to All Traders.

CORN HAS A CHECKERED BUT BRISK TRADE

Oats Close at a Slight Advance—Hutchinson Whipsaws the Provision Pit—Live Stock and Financial.

CHICAGO, Oct. 7.—[Special Telegram to THE BEE.]—The wheat market surprised every one by its strength today. There was not such a deal of bull news going, but there was nothing seriously against the market. It started strong and ½c up from last night. This was seized as an opportunity to sell by very many houses holding long wheat. For the first half hour it was longs pouring out wheat and shorts taking it. At the end of the first hour prices were off somewhat, but still showed only a fraction under the close last night. Considering the offerings by Logan, Farnam, McCormick & Co., Mitchell and many others, the market was regarded as showing excellent strength. It was thought that Cudahy covered some wheat very quietly and that Bloom was getting back short wheat. Up to this time there was no positive bull news. Cables were firm and higher and second cables gave Liverpool ¼d higher. New York reported eleven boatloads taken for export. Still later it was wired that New York cleared 70,000 bushels of No. 2 red wheat, which will appear in the report tomorrow. An export company at Baltimore reported sales for export at ⅞c over prices that would not be paid by foreigners ten days ago. The receipts in the northwest were not usual at 486 cars at Minneapolis and 232 at Duluth. Pittsburg sent some bullish dispatches on flour. It was near midday when the market received its greatest advance. Hutchinson's brokers were in the pit bidding for large lots and taking all they could get. Early sellers quickly turned buyers and outstanding shorts hastened to cover. There was almost a panic among buyers for a time, while the price of December climbed a full cent over the high price early and ⅜c over the close yesterday. This, for a market that nine-tenths of the trade expected to break down after yesterday's advance, was no little price. The action of the market was: December, $1.03½ to $1.03¾, to $1.02½, to $1.04¾, to $1.04, to $1.04¾ at 1 o'clock; May sold at $1.08, to $1.08⅛, to $1.07⅞, to $1.09 to $1.08½. The interest in wheat was kept up to the close. The net gain for the day for December wheat was 1½c, the closing being at $1.04¼. The range for October was given at $1.00¼@1.02 and the close at $1.00¾. May closed at $1.08½ or ⅛c up for the day. The estimate is 75 cars for this market for tomorrow. Wheat was a little easier on the curb and privileges for December sold at $1.02⅝ and $1.04⅝.

The corn market had a checkered course, but business was brisk. The extreme range for the day for the leading month was 1c. In a general way the market followed wheat. It opened at an advance with October at 50c; November at 50½c and May at 53c. Hutchinson was a seller early. Bryant sold long corn on the bulge, and McCormick & Co. and S. V. White sold. May went off to 52¾c later in the day. When Hutchinson put on his horns and sent brokers in all the pits to buy he bid corn up also. Logan bought freely and Walker & Co. bought at the very top, which was 53⅞c for May with per haps a sale at 53⅝c. Scalpers generally sold early months and bought May. There was a decrease in corn on ocean passage receipts, which were away below the estimate at 424 cars. October sold up to 50¼c and closed at 50c; November, up to 50⅝c, closing at 50½c; December, at 50⅜c, closing at 50⅜@50⅝c; May, to 53⅝c, closing at 53c. Privileges on May corn sold at 52⅝c and 52½c.

Oats closed ⅛c to ¼c higher than yesterday for all months and about ⅛c under the best prices of the session. October sold at 39⅞c and closed at 39¾c; November, 39⅝c, the top and close; December, 40c, the top and close; May opened at 42⅝c, sold at 42¾c and up to 43c for a few sales, closing at 42¾c.

It was in the provision pit that Hutchinson made his boldest move today. It was a whipsaw deal just as in the other pits. The pork market opened heavy with prices lower and January around $11.75, with Armour & Co. leading the selling. From $11.80 the price was put up to $12.05 by Hutchinson's brokers, who then turned sellers and put the price back to $11.90. At the same time lard firmed up to $5.77½ for January and $5.97½ for May, and closed at a slight advance at $5.55 and $5.55. Ribs at the close were 2½c up for January and steady for other months.

CHICAGO LIVE STOCK.

CHICAGO, Oct. 7.—[Special Telegram to THE BEE.]—CATTLE—Business moved along about the same as yesterday in all departments of the cattle trade. Prime steers of suitable weight were wanted and sold readily, while all others, whether fat or otherwise, were difficult to dispose of at anything like satisfactory prices for either shipper or grower, and even buyers found fault with their purchases at their own prices. Native butchers' stock remains at the lowest prices of the year, and big heavy calves can scarcely be sold unless at around $1.75 to $2.10, which barely pays freight and expenses. There was little or nothing new in the Texas or ranger trade. The demand for Texas canners was rather better than yesterday and some lots sold a shade higher. Light stockers change hands from day to day at $1.65 to $2.25 and the better classes at $2.50 to $3.25. Prime fully finished native steers sold at $4.95 to $5.12½; others, $4.50 to $4.80, and common, $2.85 to $4.25. Large numbers of native cows sold at the extremely low prices of $1.00 to $1.15 per 100 lbs, and the best at $1.80 to $2.25. Texas steers sold at $2.25 to $3.25; rangers, a good 100c lower; top price, $3.00; others, $2.00 to $2.50.

HOGS—A few early sales of prime heavy and light were made early at fully as good prices as yesterday, but as receipts began to show up greater than early estimates there was a sharp downturn of 10c all around; in some instances values were 15c lower. The general market closed weak with a large number left. Packers paid $4.10 to $4.35, and shippers $4.40 to $4.60, largely $4.50, for prime heavy butcher weights. Light sorts, $4.50 to $4.60 for prime, and $4.00 to $4.40 for second class; pigs, $2.00 to $4.15, largely $3.50 to $3.75.

FINANCIAL.

NEW YORK, Oct. 7.—[Special Telegram to THE BEE.]—The stock market opened with a buoyancy which did not last through the first hour. The upturn was hailed by many as the long looked-for change for the better in values. It was occasioned first by the change in London orders from the selling to the buying side; second by the rush of shorts to cover, and third, by some quick buying by liquidated parties who wished to get in at the very bottom. The advance was led by Chicago Gas, Northern Pacific preferred, Union Pacific, St. Paul, Burlington and Missouri Pacific. Gas started ⅛ up at 41⅛ and rose to 45; Louisville & Nashville rose 1½ from the close yesterday to 81½; Northern Pacific preferred rose to 75½, but did not hold and at noon was off to 74¾. The recovery on some of the more active western stocks was: Atchison, ⅝ to 26⅛; Burlington, ¾ to 69½; Northwestern, ¾ to 107¼; Rock Island, ½ to 78¾; St. Paul, ⅝ to 62⅝; Union Pacific, ¼ to 52. The outlook was more hopeful on the ground that stocks have passed from weak bulls' hands to strong parties. Bears had a hard day in stocks. After the unusual efforts to further depress the market there was enough good buying to cause most of the active stocks to close with fair gains for the day. Union Pacific was especially well supported and closed a full point up; Rock Island was just steady, and Burlington alone showed a loss. The earnings for September are expected to greatly improve over August and that helped buying. Sales were 198,000 shares. The following were the closing quotations:
