Be wise, be prudent, be economical.

First—Spend your money to the best possible advantage, investigate carefully and thoroughly the values offered. Bear in mind that poor merchandise is dear at any price. Come here before you buy. That is wisdom.

Second—Stop to think; no one can accomplish the impossible. There is but one best, none can be better. There is but one cheapest—we are the one. Look here before you buy. That is prudence.

Third—Your money's worth or your money back; that's protection. Buy here, where you take no chances. Buy here, where qualities and values are guaranteed absolute. That is economy.
