SEASONABLE FASHIONS

4551 Plaited Skirt 22 to 30 waist.

Eleven Gored Skirt 4551—Having side plaits laid in each gore at flounce depth and box plait in center back, perforated for dip in front. Plaited skirts of all sorts are to be noted among the smartest designs of the season. This one is made of moleskin cloth with trimming of French knot braid and handsome applique ornaments, but the design is suited to all reasonable fabrics. The many gores allow of snug fit over the hips with generous flare below the knees, which is intensified by the wide plaits that are laid at the edges of the gores and extend to flounce depth. The narrow front gore and the box plait at the back both are features worthy of special note. Fancy braid of all sorts is available as trimming or simple tailor stitching with silk can be substituted if a more severe garment is desired.

The skirt is cut in eleven gores, and the box plait which is arranged over the center back seams. The front gore is unbroken in length as is the box plait, but at the side seams are laid deep plaits that extend to flounce depth and are turned toward the front.

The quantity of material required for the medium size is 9¼ yards 27 inches wide, 5½ yards 44 or 52 inches wide.

The pattern 4551 is cut in sizes for a 22, 24, 26, 28 and 30-inch waist measure.

For the accommodation of The Bee readers these patterns, which usually retail at from 25 to 50 cents, will be furnished at a nominal price, 10 cents, which covers all expense. In order to get a pattern enclose 10 cents, give number and name of pattern.

Father Prefers Charges.

Ray Swansen, the 15-year-old boy who stole $94 from the pocket of Nick Barbato, an Italian workman, last Saturday, was bound over to the district court on complaint charging incorrigibility, which was preferred by his father. He will not be let out on bond and therefore the court refrained from fixing any.

O'KEEFFE STILL ON WARPATH

Declares that Rotten State of Affairs Exists in Court House.

CHARGES OF OFFICIAL MISCONDUCT

Divulges Alleged Steals in Connection with Bridge Contracts and Furnishings of Vaults in the Building.

Commissioner O'Keeffe is still on the warpath and does not propose to be suppressed by his associates in the basement of the court house.

"There has been a rotten state of affairs," declares the commissioner, "that I feel in duty bound to ventilate. I am not talking through my hat or trying to make campaign capital, for I am not a candidate this fall and may not be a year from now. If we could only get an honest and thorough investigation there would be startling revelations for the taxpayers of Douglas county.

"My personal inquiries have been confined to the bridge contracts and the contracts for furnishing the vaults in the court house. In examining the vouchers on file in the county auditor's office I find that $483.25 have been drawn out of the treasury for tubing on the Elkhorn bridge that did not exist and caused the bridge to sag. It would have collapsed if it had not been strengthened this summer. This tubing was contracted for at $25 per vertical foot, or just double the price which the same contractor received the year following for the same kind of work. And yet nothing has been done up to this time to recover from the contractor, who now offers to remedy the defect for $200. As a matter of fact, it would take from $2,500 to $3,000 to carry out the provisions of the contract.

Can Only Guess Extent.

"The extent of the bridge steal can only be guessed at by making comparisons between the cost of the Waterloo bridge and the bridge near Elkhorn City. The Waterloo bridge was built in the fall of 1898 and winter of 1899 and the Elkhorn bridge a year and a half later, in 1900. The Waterloo bridge is ten feet longer than the Elkhorn bridge, but it only cost $4,600, as against $13,388.16 for the Elkhorn bridge. This was without extras. They subsequently were compelled to put in "I" beams at three times their ordinary cost and paid a bill of $1,800 for them. The tubing, which was to be 112 feet, was paid for at the rate of $25 per vertical foot, or $2,800, which was an overdraft of $483.25, on account of the shortage of the tubes. At Florence, near the water works, four and one-half feet of steel tubing was put in at $29 per lineal foot, when it should have been less than $8 per foot.

"One thing I have forgotten to mention, and that is that just as soon as I commenced to pry into the bridge contracts the plans and specifications of the Elkhorn bridge mysteriously disappeared from the court house. All this shows the graft of the bridge company, but I have discovered a good deal ranker job in the county vault work.

Records Will Show.

"The records in the clerk's office show that vault fixtures were contracted by resolution and referred to the committee on court house and jail in 1902 for the vault of the county clerk, and the price paid was $4,788. As there was no money in the treasury they had to wait until July 10, 1903, when the levy was made for this year. As soon as the levy was made the bill was filed and a warrant drawn and paid on July 11. The claim was not referred to any committee, but was railroaded through in my absence, to the Omaha Printing company's red.

"I suspected that there was a big darkey in that woodpile and had drawings and specifications made of the vault and fixtures by J. R. Dietrick, and had it submitted for bids to different manufacturers. The highest bid was $2,563 and the lowest bid was made by the Berger Manufacturing company of Canton, O., who offered to duplicate the work complete for $2,250, which shows that there was at least from $2,300 to $2,500 more paid than we could have had the work done for."

DRUGGISTS MUST BE CHARY.

They Sell All Kinds of Hair Preparations, and Fear to Discriminate.

Druggists sell all kinds of hair preparations, and as a rule they are wisely chary of giving preference to any particular one, but many of them have come out plainly for Newbro's Herpicide, the new treatment that absolutely kills the dandruff germ. H. Swannell & Son, Champaign, Ill., say: "One customer of ours who did not have a hair on top of his head when he began to use Herpicide now has a fair start toward a good head of hair. We believe Herpicide to be by far the best preparation of its kind on the market." Hundreds of similar testimonials from everywhere. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Sherman & McConnell Drug Co., agents.

PREPARING FOR GOOD EXHIBIT

People in Northwest Nebraska Planning for World's Fair Display from that Section.

Secretary H. G. Shedd of the Nebraska commission to the St. Louis exposition has just returned from an extended tour through Cherry county and northwest Nebraska on private and general business. He said:

"The people in that section are taking a lively interest in the proper representation of their section of the state at the exposition. I could but notice that the stockmen, by persistent industry, are extending the hay flats by exterminating the weeds and planting timothy, brome and alfalfa, and as a result these flats that used to produce but two or three stacks of hay are now producing from fifteen to thirty.

"Another interesting problem that is being solved up there in the sandhill country is that of tree planting under the direct supervison of the general government. The trees that were set out a few years ago are thriving finely and the experiment is proving a success. A large area of trees will be planted this fall and next spring, and, as you know, the government will care for them for an indefinite period. Another thing I noticed was that the fences are coming down rapidly. The cattlemen have come to the conclusion that all fences have got to come down and they have reconciled themselves to the inevitable."
