BUSINESS CHANCES. BUSINESS CHANCES.

"Poor Richard" Says:

"No Morning Sun Lasts All the Day."

This is but another way of saying that you should do what you're going to do. Don't depend on tomorrow.

You'll never get ahead—you'll never get a better position than your present one until you make a start.

The first blow of a maul doesn't drive a stake into the earth. Neither does the second nor the third. But you can never take the second blow until you strike the first.

It really isn't half as important to us that you enter our college as it is to you that you enter it. Yet we are doing the talking.

What is a mere $62.50 for books and tuition for a six months' course compared with the sound, sure, thorough BUSINESS EDUCATION you will receive here?

If you cannot attend the day school, the next best thing to do is to take a scholarship in the

NIGHT SCHOOL.

PROVEN BY U. S. MINT RECEIPTS that this company produced over 160,000 gold bullion from one year's development work on one claim. It paid over $23,000 in dividends last year. The Nevada-Keystone Mining Co. owns seven additional claims and it is for the purpose of pushing development work on these that a limited amount of stock is offered for sale. Such development work as has been done on the seven claims has demonstrated that they are richer than the developed claim, the "Keystone," which gives the name to the whole group. Ten per cent per annum in dividends on your investment is certain because of the earning power of the developed mine, with a magnificent opportunity of increasing the value of your holdings by the development of the seven additional claims. The company courts the closest investigation of both large and small capital. Dun and Bradstreet mercantile agencies have intelligent reports on the company. Highest bank references. We recommend this as a rare opportunity for a safe and remunerative investment. Write at once for booklet containing facsimiles of U. S. mint receipts and "what others have to say."
