GRAIN AND PRODUCE MARKET

Russian Affairs Less Serious and Wheat Opens Lower.

RALLIES ON SUPPORT OF BULL LEADERS

Reports Come of Damage by Rain to Wheat in Argentina—Corn and Oats Regain Loss at the Close.

OMAHA, Oct. 30, 1905.

Owing to a less serious aspect to poitical affairs in Russia by reason of the czar's reported acceptance of the liberal program the wheat market opened considerably lower. Support by the leading bulls, however, together with reports of damage by rain in Argentina, railied prices at noon to ¼c over Saturday. The close was a little below the high point. December closed at 90⅝c, May at 91⅝@91⅞c and July at 89⅝c. July was the only month to fall below Saturday.

The corn market follows the same course, except that the close was at the high point. Prices at the end were ¼c over saturday. December closed at 46c, old December at 46⅝@46½c, May at 46⅝c and July at 46⅞c.

Oats opened ⅝c lower and went up at the close to Saturday figures. December finished at 30½c, May at 32⅝@33c and July at 31⅝c.

The visible supply of wheat shows an increase of 1,150,000 bushels, of corn a decrease of 334,000 bushels, and of oats an increase of 1,307,000 bushels.

New York exporters were bidding for wheat Saturday and said the scarcity of offerings was checking business.

Broomhall cabled that a responsible agent in the south of Russia reported that land owners and big farmers have marketed nearly all their wheat, while small growers still hold some. He said also Buenos Ayres cabled that incessant rains have damaged wheat slightly in Argentina.

Primary wheat receipts were 1,669,000 bu. and shipments 468,000 bu., against receipts last year of 1,528,000 bu. and shipments of 390,000 bu. Corn receipts were 523,000 bu. and shipments 191,000 bu., against receipts last year of 291,000 bu. and shipments of 110,000 bu. Clearances were 290,000 bu. of corn, 374,000 bu. of oats, 299,000 bu. of wheat and 16,000 bbls. of flour.

Liverpool closed ⅝@¾d lower on wheat and ½@¾d lower on corn.

The latest estimate on the Candian northwest wheat crop is 70,000,000 bushels. The marketing of wheat in Minnesota and the Dakotas is placed at 50 per cent of the crop. This shows larger marketing than usual.

World's shipments of wheat for the week were 12,128,000 bushels, against 12,016,000 bushels last week and 10,856,000 bushels last year. Corn shipments were 2,775,000 bushels, against 1,902,000 bushels last week and 3,564,000 bushels last year.

TOLEDO, O., Oct. 30.—SEED—Clover, cash and October, $8.12½; December, $8.20; January, $8.25; February, $8.30; March, $8.32½; prime Alsike, $8.00; prime timothy, $1.55.

Duluth Grain Market.

DULUTH, Oct. 30.—WHEAT—To arrive, No. 1 Northern 89⅝c, No. 2 Northern 87⅝c; on track, No. 1 Northern 89⅝c, No. 2 Northern 87⅝c; December, 85⅝c, May, 90c.

OATS—To arrive and on track, 29⅝c.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Oct. 30.—The Russian crisis buoyed up prices today in the wheat market here, although a temporary sinking spell on early profit-taking followed a sharp break at Liverpool. Closing prices for May were up a shade compared with final figures of Saturday. The December option shows a gain of ¼c. Corn is up ¼c. Oats and provisions are practically unchanged.

The wheat market opened weak on heavy profit-taking and on liberal short selling by commission houses. May was off ⅛@¼c to 91@91⅛c. December was down ¼@¼c at 89⅛@89⅜c. At the start the market was influenced by a decline of 16@1¼c in the price of wheat at Liverpool. Another factor that had some effect was the wet weather in the American southwest, where rains were greatly needed to germinate the fall sown crop. Shorts took advantage of the opening weakness and covered freely, forcing the price of May up to 91⅜c and December to 90¼c. Further profit-taking resulted in another reaction, but prices held above the lowest point touched on the opening transactions. It was soon evident that several bull leaders were supporting the market and picking up all offerings. This eventually started renewed profit-taking by shorts and resulted in a complete recovery of the earlier loss. A cablegram from Odessa stated that there was a possibility of shipments from that port being stopped tomorrow, as a result the market during the last half of the session continued strong. For May the highest point of the day was reached at 92c. December advanced to 90¾c. The market closed strong with May at 91⅜@91⅝c. Final quotations on December were at 90⅜c. Clearances of wheat and flour were equal to 32,000 bushels. The amount on passage increased 1,704,000 bushels and the visible supply increased 1,150,000 bushels. World's shipments of last week were reported as 12,128,000 bushels compared with 10,856,000 bushels the corresponding week a year ago. The Russian and Danubian share of this total was 5,776,000 bushels. Primary receipts were 1,669,000 bushels compared with 1,528,000 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 1,147 cars against 1,306 cars last week and 1,208 cars a year ago.

The Louis market was influenced largely by the situation in the wheat pit. Commission houses were sellers early, but later became active buyers. Shorts covered freely late in the session. Local receipts were considerably in excess of the amount estimated. This had a bearish effect at the start. The market closed strong with prices at the highest point of the day. December opened ⅛@¼c lower at 45½@45⅝c, sold between 45⅝@46c and closed at 46c. Local receipts were 309 cars with 34 cars of contract grade.

Heavy liquidation caused weakness in the oats market early in the session. Later the market responded to the strength of wheat, a steady to firm tone being manifested. There was no particular change in the grain situation, shipping and export demand still being urgent. December opened ⅛@⅜c to ⅜c lower at 31⅛c to 30⅝@30¾c, advanced to 30½c and closed at 30⅝@30⅞c. Local receipts were 461 cars.

Provisions were firm on an excellent shipping demand for lard. The rapidly decreasing stocks of lard formed the basis of the demand for that product. At the close January pork was unchanged at $12.45, Lard and ribs were each up a shade at $6.85 and $6.52½, respectively.

Estimated receipts for tomorrow: Wheat, 347 cars; corn, 257 cars; oats, 441 cars; hogs, 24,000 head.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS

Values Advance Sharply in Early Dealings in Sympathy with Foreign Markets.

SUDDEN RISE IN RATE FOR CALL LOANS

This Stops Buying Movement and Prices Are Irregular Until Near the Close, When Another Rally Ensues.

NEW YORK, Oct. 30.—Stocks rose sharply this morning in sympathy with the improvements in foreign markets, induced by more hopeful feeling regarding the prospect of Russian affairs. A brisk rally in Russian imperial 4s was the best definite indication of this feeling. The price of wheat in our markets ran off in accordance with the same influence while stocks were advancing. The upward shoot in the quotations for call loans put a stop to the advance in stocks, and prices afterwards fluctuated narrowly and uncertainly until the strong rally at the last.

The lack of any engagement of gold for export was made something of to rally speculative sentiment, although the downward movement of exchange away from the gold export point was quite clearly due to the advance in the money market. Time loan money also was firmer and quotably higher. It is believed that the principal factor in the flurry in call money was the calling of loans by the bankers having in charge the recent Japanese loan flotation. It is understood that November 1 is the period set for turning over the proceeds of that loan to the custody of the Japanese fiscal agent and that the day's calling of loans was in preparation for that operation. There were other large requirements to be met for the November 1 settlements, a prominent one of which was responsible no doubt for the disturbance in the day's money market. Following the transfer to Chicago on Saturday to the sub-treasury of $500,000 an equal amount went to the same destination today and reports were current that the demand from this source within the next few days will call for further large sums. St. Louis also took $300,000 today. The price of gold was marked up in London and sterling exchange fell in Berlin and remained stationary in Paris at the low price of Saturday. The Bank of England, however, was able to secure some large sums of gold arriving in London.

The money question was thus brought prominently to the front again and the enthusiasm of the opening market was chilled. A few stocks continued to make special movements, due to individual causes. American Smelting went to a new record price, stimulated by current rumors of a comprehensive merger in the metal industrials, and Locomotive showed the benefit of the extraordinary demand for its product. There was no change in the tenor of the weekly reports of railroad traffic managers. The cry of car shortages was practically universal, and railroad officials proved to be making every effort to reduce shipments rather than to solicit freight, and they find freight blockades unavoidable with their best efforts. Some of the reports of net earnings of railroads for September which made their appearance today were decidedly favorable. There was much discussion of the probable showing to be made by the United States Steel corporation of its report of net earnings for the September quarter which will be given to the executive committee of the corporation at its meeting tomorrow. A very favorable showing was the general expectation, but the stocks of the company were little affected. The avoidance or postponement of gold exports was of vigorous effect on the late market, and prices were lifted generally to the best and the closing made strong.

Bonds were irregular. Total sales, par value, $2,125,000. United States bonds were all unchanged on call.

The following were the quotations on the New York Stock exchange:

Total sales for the day, 661,600 shares.

Foreign Financial.

LONDON, Oct. 30.—In the market today the supplies of money were abundant and rates were easier than last midweek. Discounts were firm. Bar gold was in much continental request. Trading on the Stock exchange opened with a fairly good tendency as a result of the calmness on the continent, the Russian situation being regarded more hopefully. Prices rallied in many directions. The ease of money was also a bull factor. A small failure was announced, but it did not affect the market. Consols were fairly supported though slightly easier. They closed firmer. Home rails mostly had a better tone. Americans opened dull, railied soon to above parity on New York buying, afterwards became unsettled and easier on realization and closed weak. Grand Trunk was flat on the disappointing revenue statements. Foreigners improved. Russians hardened considerably, but closed weak on Paris selling. Japanese imperial 6s of 1904 were quoted at 101⅝.

PARIS, Oct. 30.—Prices on the Bourse today opened with an upward tendency, owing to the satisfactory reports from Russia received here early in the day. Later reports, including the rumor of an attack upon Emperor Nicholas, caused prices to weaken. Prices were depressed, Russian imperial 4s going down to 90.00 and Russian bonds of 1904 to 514.00. At the close the market was feeble.

BERLIN, Oct. 30.—Prices on the Bourse today were firm on account of the receipt of no very bad news from Russia.

New York Money Market.

NEW YORK, Oct. 30.—MONEY—On call, firm at 4@5½ per cent; lowest bid, 4 per cent; ruling rate, 5 per cent; last loan, 5 per cent; closing bid, 4⅝ per cent; offered at 5 per cent; time money, slightly firmer; sixty and ninety days, 4⅝@5 per cent; six months, 4½@4¾ per cent; prime mercantile paper, 4⅝@6 per cent.

STERLING EXCHANGE—Weak, closing steady, with actual business in bankers' bills at $4.82@4.83⅛ for demand and at $4.84@4.8500 for sixty-day bills; posted rates, $4.84@4.84½ and $4.87@4.88; commercial bills, $4.83⅛@4.83¼.

SILVER—Bar, 62⅝c; Mexican dollars, 48c.

BONDS—Government, steady; railroad, irregular.
