GRAIN AND PRODUCE MARKET

Up Like a Rocket and Down Like a Stone.

WHEAT OPENS HIGHER, CLOSES LOWER

Advance of Nearly a Cent on Bullish News and Heavy Decline on Selling—More Black Rust Reports—Oats Are Weak.

OMAHA, July 19, 1906.

It was up and down with the wheat today, the close being lower than yesterday after an early strength in which prices were up nearly a cent. All the news was bullish—bad reports from Russia, black rust in the northwest and bull advices from Argentina. There was more talk of black rust than yesterday, but also some denials of former sensational reports. At the opening, which was ¼ cent up, there was a rush to buy and prices went to nearly a cent above yesterday, only to lose all the gain on selling at the advance and closed ¼c below yesterday for September. The close was on a slight rally.

Corn opened strong at ⅛c advance in sympathy with wheat. With the down turn in wheat there was heavy selling of corn and the market declined almost a cent from the top. The close was ⅝c below yesterday for July and ⅛c lower for September.

The oats market was nominal, the quotations being slightly lower.

Primary wheat receipts were 999,000 bushels and shipments 410,000 bushels, against receipts last year of 762,000 bushels and shipments of 466,000 bushels. Corn receipts were 446,000 bushels and shipments 529,000 bushels, against receipts last year of 378,000 bushels and shipments of 184,000 bushels. Clearances were 49,000 bushels of wheat, 8,384 barrels of flour and 165,000 bushels of corn.

Liverpool closed ⅛@¼d higher on wheat and ⅛@¼d higher on corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 19.—Black rust and the condition of the Russian crop were the principal influences bearing upon the wheat market today. Early assertions of damage were denied late in the day and the market closed weak, although final quotations were still slightly above the close of yesterday. At the close September wheat was ⅛@¼c higher. Corn was off ⅜c. Oats were down ⅜@⅝c. Provisions were 50@15c lower.

Early in the day the market was decidedly strong on an active demand by shorts and commission houses which was based upon fresh reports from Minneapolis of additional instances where black rust had been found in the spring wheat crop. A sharp rise in the price of wheat at Minneapolis apparently substantiated these advices and caused additional anxiety among local shorts. Several reports were received claiming that several provinces in southern Russia had experienced a total failure of the crop. Late in the day denials came from the northwest that any great amount of damage had been done by rust. This caused considerable profit taking and a sharp break in prices at Minneapolis brought about a quick decline here. The market closed weak, although the early gain was still retained. September opened ⅛@⅜c to ⅝@¾c higher at 73⅝c to 73⅞c, advanced to 73¾c and then declined to 73⅛@73⅛c. The close was at 73⅛c. Clearances of wheat and flour were equal to 35,500 bu. Primary receipts were 1,000,000 bu., against 782,000 bu. for the corresponding time last year. Minneapolis, Duluth and Chicago reported receipts of 550 cars, against 385 cars last week and 231 cars a year ago.

The early bulge in wheat strengthened the corn market, but later the market weakened on realizing sales caused by a sharp decline in oats. Increased acceptances also weakened prices. The market closed weak with prices close to the lowest point of the day. September opened ¼@⅜c to ⅝c higher at 53⅝@53¾c, sold off to 51c and closed at 51⅛c. Local receipts were 192 cars with 56 of contract grade.

The oats market broke sharply about midday and for the remainder of the session the tone was weak. Reports were received that the recent damage reports had been greatly exaggerated and this caused heavy sales by large holders. Cash houses also sold freely against country purchases. During the first hour the market was quite firm in sympathy with other grains. September opened ¼@¾c to ¼@⅝c higher at 34⅛c to 35c, declined to 33½c and closed at 33¾c. Local receipts were 114 cars.

Provisions were quiet. A feature of trading was an advance of 62½c in the price of July pork, the upturn being caused by the buying of shorts. A firm market for live hogs caused bullish sentiment in provisions. At the close September pork was up 15c at $17.50. Lard was off 7½c at $9.87½. Ribs were 5@7½c lower at $9.35.

Estimated receipts for tomorrow: Wheat, 284 cars; corn, 139 cars; oats, 146 cars; hogs, 17,000 head.

Estimate of Wheat Crop.

CHICAGO, July 19.—The Daily Trade Bulletin today issued its annual estimate of the wheat crop. The crop of winter wheat is placed at 435,000,000 bushels and that of spring wheat at 285,000,000 bushels, making a total yield of 720,000,000 bushels. Supplies carried over in second hands are estimated at 85,000,000 bushels and it is figured that 45,000,000 bushels are still in the hands of farmers, making a total supply for the year of 821,000,000 bushels. The estimated consumption for the year is 460,000,000 bushels, leaving available for export during the year and supplies on hand July 1, 1907, 364,000,000. The aggregate world's crop is placed at 30,000,000 bushels less than last year.

NEW YORK STOCKS AND BONDS

Day's Dealings on Wall Street Exchange Approaches Year's Record for Dullness.

FEW ISSUES MOVE AS MUCH AS A POINT

Union Pacific Sags Lastly on Announcement of Extra Dividend of One-Quarter of One Per Cent for the Quarter.

NEW YORK, July 19.—The year's record for dullness was approached in today's business at the Stock exchange. The tedious fluctuations represented nothing but the shifting operations of a handful of room traders and they were not sufficient to effect any appreciable movement. Few of the active stocks moved as widely as a point from last night's level. Interest in the market seemed entirely dormant until the sharp rise at the last, when the market held firm on the Amalgamated dividend announcement. No less than three meetings of corporation directors were scheduled for the day to which importance had been attached in the previous stock market discussion and upon which speculative hopes had been based or professed. It was early announced that the St. Paul meeting could not be held owing to the inability to secure a quorum of the directors. It had been predicted with the usual show of confidence that the long expected financial plan for the construction of the Pacific coast extension was to be considered at this meeting and an official announcement prepared. The market received the report of the abandonment of the meeting without a ripple.

Special effort had been made to drum up a quorum of Union Pacific directors, but they attended to only routine matters and left the decision of the next dividends in the hands of the executive committee. Confident assertions had preceded the meeting that a large extra disbursement would be made out of the proceeds of sales of the company's holdings of Great Northern preferred and Northern Pacific stock. The day of a dividend announcement on Amalgamated Copper is attended with more speculative excitement in periods of activity in the market than almost any other event. The only spark of animation that the market showed during the day followed the assembling of that company's directors. Various predictions had been heralded of the probable action ranging all the way from a passing of the dividend to an increase of 5 per cent. The stock sagged lazily on the announcement of the retention of the last dividend rate of 1½ per cent to ¼ per cent extra for the quarterly period.

Foreign markets continued under the weight of the discouraging outlook in Russia and it was reported that the London market was affected by supposed liquidation on account of the Belt estate. A report came from Chicago that railroad companies were borrowing heavily from banks there at 5½ to 6 per cent to postpone offerings of securities in the present unfavorable market. The outcome of tomorrow's offering of $30,000,000 of Panama canal bonds and the completion of the repayment of $10,000,000 of government deposits which have been recalled is awaited with interest. The professional element drew a negative deduction favorable to a rise from the lack of pressure on the market, which resulted from the disappointing outcome of the three meetings of the day. The strong closing was the consequence of the only demonstration of activity for the day.

Bonds were irregular. Total sales, par value, $1,377,000. United States bonds were unchanged on call.
