MAE WOOD TO JAIL

ABRUPT END OF PLATT SUIT IS SENSATIONAL.

Judge Questions Plaintiff Briefly, Then Suddenly Dismisses Suit, Declaring Charges Against Platt Unfounded, and Miss Wood is Locked Up.

The case of Mae C. Wood, the Omaha woman who sued United States Senator Thomas C. Platt for divorce, came to a sudden and sensational end Thursday afternoon when Justice O'Gorman, of the supreme court, dismissed the complaint and directed the complainant to be committed to the city prison under \$5,000 bail on a charge of perjury. Miss Wood was taken to the Tombs.

The climax came after the introduction in evidence of the deposition of a man who manufactured the blanks upon one of which the alleged Platt-Wood certificate had been prepared, in which he declared that the blank form in question was not lithographed until three months after the marriage of Miss Wood to Platt is alleged to have occurred. The senator's son, Frank H. Platt, also testified that it is his belief no such letters ever had been written to Miss Wood by his father as were represented in alleged copies offered in court by the complainant. The case has attracted exceptionally wide attention on account of the prominence of the aged senator and the names of other widely known persons whom Miss Wood involved in her sensational charge in support of her complaint.

Miss Wood was at once taken to the Tombs prison. One way she chatted laughingly with the officers.

The commitment on the perjury charge was made by Justice O'Gorman on his own initiative. He had personally questioned the complainant, who had been recalled to the stand, and when she reiterated her former testimony regarding the marriage the justice said:

"The court cannot believe there was a marriage. Being convinced of the plaintiff's guilt in committing perjury in the case, I commit her to prison unless she furnishes \$5,000 bail."

RAIL HORROR IN BELGIUM.

Worst Disaster of the Kind in History.

The worst railroad catastrophe ever recorded in Belgium took place near Contich, six miles southeast of Antwerp, Thursday morning. The Antwerp Express, running fifty miles per hour, crashed into a train loaded with pilgrims on a siding. Three cars were literally ground to pieces, and practically all the passengers either killed or badly injured.

Up to an early hour Thursday afternoon 38 dead and 79 wounded had been removed. The occupants of the cars were mostly workmen and peasants.

Success was extended to more than 100 injured. Surgeons, doctors and nurses arrived early from Antwerp at the scene of the wreck. Many shrieking and helpless, wounded persons are still pinned under the debris. The scene is one of horror and beggars description.

Poles Wedded by Mistake of South Norwalk Town Clerk.

The minister of war and a large gathering of officers had assembled to witness the experiment. Fonseca entered the car and was completing his final preparations when a strong gust of wind obliged the men who were holding the ropes to let go. The balloon shot up into the air, breaking the last ropes that held it to the ground. It rose to an altitude of 2,000 feet, when suddenly it collapsed and fell down to earth with unchecked rapidity. The lieutenant was crushed to death. It is supposed that the accident was caused by a false maneuver on his part.

BATTLE IN CAR STRIKE.

Car Riddled with Bullets and Four Men Shot.

The most serious violence of the street car strike in Cleveland, O., occurred in Lakewood, a suburb Tuesday night, when four men were wounded by bullets, one car was burned and another partly wrecked. Trouble has been anticipated and the first car run into Lakewood on the Clifton avenue line carried no passengers. When it stopped before a railway bridge a crowd which had been lying in wait leaped from behind the bridge and opened fire upon the crew and guards.

Guards W. J. James and John Swanson returned the fire. Over thirty shots were exchanged. While the shooting was in progress the crowd grew to nearly 1,000. Another car arrived and its crew and guards joined in the fight. Gasoline was poured upon the second car and it burned to the trucks.

The Cleveland police were notified and sixty officers were sent to the rescue. The first car, riddled with bullets and windows broken, proceeded to the car barn.

Motorman P. C. Elsholtz was shot in the leg and Gray and Alexander, guards on the second car, were shot in the chest. Mace Burlingame, who was in the crowd which made the attack, was shot in the hand.

All were taken to the hospital where they are reported to be seriously wounded. An earlier disturbance occurred in the down town district when Yetta Wolkman, a little girl, was killed by a Woodland avenue car while she was attempting to cross the street. Her death was said to be due to the inexperienced motorman being unable to check the car.

CHINAMAN SENT IN BARRELS.

New Trick Being Worked to Smuggle in Mongolians.

Chinatown at El Paso, Tex., is in a state of excitement over a telegram from New York to effect that fifteen barrels, shipped from this place as merchandise, were received at the establishment of Quong Duoy Yin in Pell street, New York, each containing a Chinaman. This is a result of a new trick to get smuggled Chinese out of El Paso to a place of safety.

Three weeks ago 400 Chinaman arrived at Salina Cruz, Mexico, from China and went immediately to Juarez, from which locality attempts have been made to enter the United States. Within the last two weeks the immigration force guarding the border at this place have been greatly increased. Squads of Chinese have been turned back, but notwithstanding all vigilance many have been able to enter El Paso. The difficulty lies in getting out, as all trains are closely inspected.

For many years smuggling Chinese has been an active and lucrative business in El Paso and those who ply it are experts in tricks for evading the law.

The spectacle was witnessed by Flint Randall and Miss Maggie Tate, young people, who were returning from a party, and who were captured by the raiders and forced to accompany them to the prayer meeting and barn burning.

After the torch was applied and the flames were under good headway, the young people were led some distance away, with instructions to go home, and as they left they heard strains of "Nearer, My God, to Thee," floating through the air to the accompaniment of crackling timbers and roar of flames.

Hurried to Sioux City to Save His Daughter.

Believing that his 13-year-old daughter, Goldie Priest, had eloped with Will Knudson, 27 years of age, Frank Priest, of Homer, made a record drive from Homer, Neb., to Sioux City Sunday in pursuit of the pair. Before the father arrived both the girl and the man had been taken into custody by the police.

The frantic father early in the day notified the police by telephone that his daughter was in Sioux City, and that she probably would be joined soon by Knudson. An officer located the girl at the hotel and kept her under close surveillance for nearly two hours before Knudson put in an appearance. The man walked by the sitting room and motioned to the girl to come outside. Before they had time to exchange a greeting they were taken into custody.

The girl first seemed self-possessed, but wept bitterly upon the arrival of her father. Knudson, who came to the city Saturday morning, said he had no intention of running away with the girl, but that she was dissatisfied with her home and came here of her own accord. He had, he said, volunteered to assist in securing a situation for her. The girl left home without the knowledge of her parents. She told her father that she never again would leave home.

OMAHA WOOL RATES LOWEST.

Storage Schedules Show Up Best Compared with Others.

Rates of storage were announced by the Omaha Wool and Storage company, Wednesday, and comparison with the rates in any other wool market shows that the Omaha rates are the lowest in the United States. The first proposition was to make a flat rate of 5 cents per 100 pounds per month, which is the average rate charged in other warehouses, but some of the eastern markets, which are anticipating a decline as a result of the establishment of wool houses at Omaha, gave notice of a sliding scale rate. The matter was taken up at once with the Omaha company and they decided to make the lowest schedule of rates in the United States. The following are the rates announced:

Table with 2 columns: Rate, Lbs. Storage, first month or fraction of month, 100; Storage, succeeding months, or fraction, 2c 100; Unloading, 1c 100; Loading, 1c 100; Weighting and certifying, 2 3/4c 100

Arrangements were also completed Wednesday for the wool placed in the Omaha warehouse at the exceptionally low rate of 50 cents per 100. The terms offered by the Omaha company and the inducements extended by the Omaha banks are the most liberal of any in the United States. While the commission houses of Boston have been advancing from 35 to 50 per cent of the value of the wool in cash and charging interest until settlement is made, the Omaha Wool and Storage company, in a letter to the following effect, makes the following announcement:

"Every certificate of weight will be furnished, making same negotiable for loans. Arrangements are being perfected to negotiate loans, if desired, covering 60 per cent of the value of your wool, at a rate of 6 per cent per annum and 1 per cent commission. It has also been announced that the warehouse company will pay the freight on all consignments, if desired, thus saving the grower from advancing a cent and enabling him to place the wool in storage at Omaha, simply delivering it at the railroad station nearest him and the bill of lading to the warehouse company."

This makes it possible for growers to come to Omaha when the manufacturers come here to buy, and each grower may attend to his sales and see that the best possible price is obtained.

Baysinger made a demonstration showing how Kenison fired the first two shots and Cox was killed and that Kenison was not interfered with in killing him.

The state has a strong case up until now and it looks bad for Kenison. Other testimony has been along the same line.

WORK OF CONGRESS COMMERCIAL AND FINANCIAL CHICAGO.

The sundry civil appropriation bill, carrying a total of about \$120,000,000, was passed by the Senate Thursday. This is the last of the large supply bills, and its passage places the Senate squarely alongside the House in the consideration of the appropriation bills, and of the entire fourteen leaves only the general deficiency and the military academy bills to be considered. A portion of the session was devoted to the consideration of the bill suspending the penalty feature of the commodity clause of the railroad rate bill. The House devoted the entire day to the Vreeland currency bill, which was finally passed under suspension of the rules.

The Vreeland currency bill, which was passed by the House Thursday, was delivered to the Senate Friday and at once sent to the committee on finance. Senator Aldrich promptly made a report from the committee substituting the Aldrich bill in an amended form, and it was passed by the Senate. This action threw the bill into conference, and an effort will be made to reach an agreement at an early day. The work of cleaning up legislation in the House preparatory to adjournment May 23 proceeded at a rapid pace. With only a short time allowed for debate the military academy appropriation bill and the omnibus public building bill were passed, leaving of the supply bills only the general deficiency bill to be considered. Eight hundred and twenty private pension bills were put through. A bitter and sensational attack on former Speaker Keifer of Ohio by his colleague, Gen. Sherwood, was a feature of the day's proceedings. By a strict party vote the Vreeland currency bill as amended by the Senate was, after a lively debate, sent to conference—yeas 150, nays 103, "present" 0.

The Senate Saturday adopted a resolution reported by Mr. Aldrich from the committee on finance giving that committee authority to employ expert assistants necessary to provide for an intelligent revision of the tariff and to report that further legislation is needed to secure an equitable treatment for agricultural and other products of the United States. The committee is also instructed to collect proof of the relative cost of production in this and the principal competing foreign countries. A bill was passed appropriating \$5,000,000 for the acquisition of lands on the water shed of navigable streams in the southern Appalachian Mountains and the White Mountains of New Hampshire and Maine. Senator Carter secured an agreement to make the postal savings bank bill a special order in the Senate for Dec. 14 next. The process of cleaning up preparatory to adjournment was continued in the House. The sundry civil appropriation bill was sent to conference, the conference report on the military academy bill was agreed to, the general deficiency appropriation bill was reported and the following bills passed: Granting compensation to government employes for injuries sustained in the service, authorizing the continuance of the inland waterways commission and creating a national forest in Minnesota. With the view to paying the way for a revision of the tariff a resolution was passed permitting the committee on ways and means to sit during the coming recess and conduct hearings.

Best reports as to the improvement in fall buying come from the larger centers like New York, Chicago and St. Louis while current retail trade reports are best in the Southwest and Northwest. Agreements to maintain pig iron quotations having proved ineffectual, efforts to "peg" the market at a steady level have been abandoned. Therefore prices are easier, and those who were bound by obligations are again in a position to take business.
