GRAIN AND PRODUCE MARKET

Rain is Still Needed in the Northwest Wheat Belt.

PREMIUM FOR CASH WHEAT

Loud Complaints About the Backward Crops Are Numerous—Wheat Holds Firm—Corn Market Soft.

OMAHA, June 10, 1910.

The weather continues clear in the northwest, where rain is needed. In the southwest too much rain has fallen. The important factor with the bulls is the rapidly decreasing stocks and the premiums paid for cash wheat over the July future.

Weather over the corn belt is not very favorable and loud complaints about the backward crops are numerous. Traders are not inclined to favor the long side as weather conditions will improve.

Wheat held firm and was a trifle higher early. Later values weakened and lack of buying eased the market off 1c from high points. Cash wheat was in fair demand at ¼c over yesterday.

The corn market was soft and values slumped under severe selling on the expectancy of better growing weather. Cash markets were lower and demand was lacking. Closing prices were ½@¾c lower.

Primary wheat receipts were 276,000 bu. and shipments were 236,000 bu., against receipts last year of 146,000 bu. and shipments of 280,000 bu.

Primary corn receipts were 451,000 bu. and shipments were 737,000 bu., against receipts last year of 473,000 bu. and shipments of 387,000 bu.

Clearances were 49,000 bu. of corn, 1,000 bu. of oats and wheat and flour equal to 71,000 bu.

Liverpool closed ¼d lower on wheat and ¼d lower on corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, June 10.—As a bogey the idea of a squeeze in the July wheat delivery here was put out of business today, for the time being at least. The fact that new crop, Texas grain of high quality is within 3c of the Chicago market basis served to give the trade a rest as to any supposed stringency. It was also roundly asserted that the July scare had been maintained by local speculators. However, that may be an increased premium for that option was wiped out, and the market eased off uniformly, closing at a net decline of ⅝@⅞c to 1c. Corn finished ½c to ⅝c down, and oats ¼@⅜c. Final figures for provisions ranged 2½c lower to 12½c higher.

Pressure of new wheat on the Texas markets and of old wheat at Kansas City greatly relieved anxiety on the part of bearishly disposed traders in Chicago. It was pertinaciously contended that bargain prices were ruling here as compared with the northwest. Fine weather, easier cables and improved crop prospects all combined to depress quotations. Even more forceful in this respect was the discovery that the edge seemed to be coming off the cash wheat market. Mills have been generous buyers lately, and were said to be well stocked up. According to one authority, new wheat was liable to strike a poor demand. Furthermore, the week's exports showed a big shrinkage, compared with the previous five days. There were predictions too, that harvesting in Illinois and Missouri would begin by June 20. September ranged within a 1c limit from 90⅝@91½c, closing easy at 90⅝@90¾c, a net loss of ⅞@⅞c.

September corn ranged between 59⅛@59⅝c and 60⅝c, finishing easy at 59⅝c. The cash market was firm. No. 2 yellow closed at 60½c.

September oats fluctuated from 35⅛@35½c to 35⅝, remaining finally on the low level.

Purchases by local shorts in provisions rallied that market. In the end pork was 2½c lower to 12½c up, lard 2½@5c down, and ribs at a net advance of 2½c.

WEATHER IN THE GRAIN BELT

Outlook for Fair, with a Rising Temperature.

OMAHA, June 10, 1910.

The area of low pressure, noted over the Missouri valley and southwest in the preceding report, continued slowly eastward during the last twenty-four hours and now overlies the lower valleys and southern states, with its center over Tennessee. Showery and unsettled weather continued throughout the central valleys during Thursday, and general rains extend over the lower valleys and the southern and eastern states this morning. Excessive rains were again general in the lower portions of the Missouri and Mississippi valleys, and excessive falls occurred at points in the Ohio valley, the southern and eastern states within the last twenty-four hours. The western area of high pressure now overlies the upper valleys and mountain district. The weather is clear in the mountains and throughout the west, and with the area of high pressure moving over the central valleys, the outlook is favorable for fair weather in this vicinity tonight and Saturday, with rising temperature Saturday.

Omaha temperature and precipitation, compared with the last three years:

	1910.	1909.	1908.	1907.
Minimum temperature	57	57	50	59
Precipitation	.05	T	.00	.11

Normal temperature for today, 70 degrees.

Deficiency in precipitation since March 1, 7.62 inches.

Deficiency corresponding period in 1909, 1.79 inches.

Excess corresponding period in 1908, 2.51 inches.

NEW YORK STOCKS AND BONDS

Volume of Dealings Expands Slightly Over Thursday's Trade.

RAILROAD BILL IS WATCHED

Progress of Measure in Conference Arouses Wide Interest—Chicago & Alton Report Causes Uneasiness.

NEW YORK, June 10.—The languor of the demand for stocks, which began already to be manifest yesterday, prompted a renewal of options for the decline today on a moderate scale. The volume of the dealings expanded over those of yesterday, but only to a slight extent. The rumors of the identity of the sellers indicated the suspicion rife in the speculation that a purpose to depress prices for profit furnished the leading motive for the selling. The depression was ascribed to dissatisfaction with the railroad rate situation and to the condition in the copper trade. The selling of the coppers was attributed, to a large extent to Boston and foreign sources, and it had as explanation the accumulation of surplus stocks of the metal still going on, a sharp drop in the London price of the metal today and a feeling of discouragement over the sustained rate of production of the metal with no corresponding expansion in the demand. The selling of United States Steel, at the same time, was an influence on settlement.

The progress of the railroad bills through the conference committee of the two houses of congress is watched with solicitude. The arrival of the bill at this stage holds a greater attention in the stock market than was given to its consideration by the two houses. This is due to the fact that it has been felt that the final shaping of the bill in conference was to be relied on to modify its severity, a feeling which has been altered by the events of the week. The disposal of the plan for regulation of capital issues holds a special interest for the financial district.

One of the specific factors of weakness was the unsupported condition of the Chicago & Alton stocks, which gave rise to the supposition that the dividend on the common stock was to be suspended. The narrow margin of the surplus after dividends out of last year's earnings and the falling off in net earnings in this year's show were cited in support of the current assumption regarding the stock. Its fall of 30 points was considered corroborative of the market conjucture. The decline in Toledo, St. Louis & Western as the owner of the Chicago & Alton stock was a natural consequence.

Preliminary estimates of the week's currency movement indicated a continued inflow of cash to New York. Interior bankers, however, are known to be fortifying their cash holdings in expectation of a call from the controller for a statement of condition. Money continues easy in New York, but there is little demand from stock market sources.

Wheat exports for the week fell also 1,270,000 bushels below those of last week.

Bonds were irregular. Total sales, par value, $1,607,000. United States bonds were unchanged on call.

Number of sales and principal quotations on stocks were as follows:
