GRAIN AND PRODUCE MARKET

Cash Wheat is in Good Demand, with a Half Cent Decline.

OATS ARE MOVING UP SOME

Corn Remains About the Same to Three-Quarters of a Cent Higher, with Few Offerings at That Figure.

OMAHA, Aug. 15, 1911.

Cash wheat was in good demand at a decline of a half of a cent. Receipts of that cereal were, however, light. Corn was unchanged to a quarter of a cent higher. There were not a great many offerings of corn and the inquiry for it was fairly good.

Oats advanced from a half to three quarters of a cent. There were only a few samples on the tables, however, and the demand was easily sufficient to absorb the offerings.

Chicago reported receipts of 327 cars of wheat, as opposed to 519 a year ago, 237 cars of wheat against 133, and 471 cars of oats against 923.

St. Louis received 32 cars of wheat against 177 a year ago, 73 cars of corn against 41, and 24 cars of oats against 101.

Kansas City wheat receipts totalled 69 cars against 98 a year ago. Corn was 19 against 15 a year ago, and oats 7 against 6.

Liverpool opened ⅛d to ¼d lower on wheat and ½d lower on corn. At the close wheat was 1 to 1¼d lower and corn ¾d lower.

Omaha receipts showed 45 cars of wheat against 20 a year ago, 50 cars of corn against 61; 5 cars of oats against 19, and 3 cars of barley against 6.

Sixty-four cars of wheat were shipped from Omaha as against 3 a year ago; 52 cars of corn as against 22; 11 cars of oats as against 9, and 9 cars of barley against none.

The following cash sales are reported:

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Aug. 15.—What looked like liquidation sent wheat to a lower level today, the close being 1¼c under yesterday. Corn was firm on hot weather in Kansas, closing ¼c to ½@⅝c up. Oats finished ¼c to ¼@⅜c higher, and provisions from ¼c to ½c depressed. Trading was quiet.

Wheat opened weak and sold down early ¾c under yesterday's close. Shorts with profits in sight covered and caused a rally, but this was only temporary and the close was practically at the bottom. September was liquidated in considerable quantities and dropped into the 80s, influencing the weakness of deferred futures. An element in the weakness was the discovery that reports of cash sales were unfounded, although the seaboard is believed to have sold twenty cargoes for export last night. The foreign demand was seriously impaired by the Knights Labor troubles and the approaching holiday. **News from Canada was** that hot weather the last two days ripened much wheat and extended the harvest line further north. September sold between 90⅝c and 89c at the extremes.

The short selling of corn yesterday was somewhat overcome and there was more of it at the opening today. Hot weather was reported in Kansas and Kansas City traders sent in much bullish news. Another factor in steadying the market was a private report that the crop is going backward in Indiana and Kentucky, losing ground in Ohio and Michigan, and suffering from heat in Missouri and Nebraska as well as Kansas. September sold between an extreme 64½c and 63½c.

In the oats market, the elevator interests sold much September changing to the deferred options. September sold between 41⅜c and 40⅝c.

The provisions market was narrow and weak. January pork closed 17½c lower at $16.22½; September lard, 15c down at $8.92½, and September ribs, 12½@15c depressed at $9.02½@9.05.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS

Entire List Shows Heavy or Irregular Tendency During Day.

UNION PACIFIC ATTACKED AGAIN

No Action Taken in Matter of Electing Frick's Successor as Meeting of Directors of the Railroad.

NEW YORK, Aug. 15.—Some of the improvement manifested by the stock market yesterday was lost today, the list showing a heavy or irregular tendency throughout. It seemed to have developed into a purely professional affair.

Union Pacific was again the focus around which interest largely centered and its erratic movements indicated that it was still under the influence of liquidation, as well as bear pressure. With United States, which was relatively firm, it comprised the great bulk of the day's business. Reading was heavy. The only market feature of the final was an abrupt drop or fore than 3 points in Texas company and sudden weakness in the copper shares. The closing was heavy with a large amount of net losses, including Union Pacific, which again sold almost at its low point of the day.

An incident of sentimental value was the declaration of the usual dividend by Standard Oil. This is worthy of narration only because of the recent flurry in that stock and American Tobacco on the "curb," when the directors of the latter concern demmed it advisable to defer dividend action on the common stock.

Other news of the day embraced a meeting of the Union Pacific directors, at which no action in the matter of electing Mr. Frick's successor was taken; the shading of rates on time money, due to recent stock liquidation, another advance in cotton and weakness in the grain markets.

Canadian Pacific's annual statement shows an increase of $4,200,000 in total income, despite an increase of $6,300,000 in operating expenses. Louisville and Nashville for the year reported a loss of $2,000,000, on net revenues, which is fully accounted for by an increase of almost $3,400,000 in operating expenses.

The bond market was steady, save for a sharp decline of 2½ points in New York, New Haven and Hartford convertible sixes. Total sales par value, $1,645,000. United States government bonds were unchanged on call.
