GRAIN AND PRODUCE MARKET

Buying Support Comes Out on All Breaks in Wheat.

CORN COMING FROM COUNTRY

Trade is Fairly Bullish Because of of the Complaints of the Poor Germination of the Seeds.

OMAHA, May 25, 1912.

It is very noticeable that on all breaks in wheat values buying support comes out and all offerings are absorbed, quickly rallying the market.

The situation is now purely a weather proposition and with any signs of rain in Kansas and Nebraska buyers are inclined to run away from the market. Crops at the present time are in good shape, but rain is needed in several localities.

More corn is being bought from country holders, which tends to relieve the strain in the cash situation.

The trade is fairly bullish because of the complaints of poor germination, scarcity of seed corn, together with the lateness o fthe season. Fine weather over the belt is favorable to planting.

Wheat opened steady and ruled dull until just before the close, when shorts covered on dry weather reports. Cash wheat was ½c lower.

Corn was weak early on reported heavier country offerings, but short selling was short-lived and values firmed up and closed higher. Cash corn was ½@2c lower.

Primary wheat receipts were 365,000 bushels and shipments 463,000 bushels, against receipts last year of 675,000 bushels and shipments of 476,000 bushels.

Primary corn receipts were 375,000 bushels and shipments 288,000 bushels, against receipts last year of 570,000 bushels and shipments of 240,000 bushels.

Clearances were 2,000 bushels of corn, none of oats, and wheat and flour equal to 209,000 bushels.

Liverpool closed. No market. Holiday.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Ill., May 25.—On account of complaints from Nebraska that rain was needed and because the drouth in western Kansas had only been broken in part, wheat today showed unexpected strength. Wheat closed firm, ¼c to 1⅜c above last night. Latest trading left corn varying from ¼c decline to ¼c advance, oats up ⅛@¼c and provisions unchanged to 5c increase.

Wheat speculators at first believed that the rainfall in Kansas was confined to eastern and central Kansas, where moisture was not required and that dryness still plagued the Western plains, where the crops had been parching brown. A buying movement here received much impetus before word was received that the downpour had extended a considerable distance in northwest Kansas. The break that ensued carried the market a little below last night's level, but prices soon rallied, helped by statements that many thousands of acres in Nebraska were in danger if rain did not come quick.

Business in the latter part of the session so far as the wheat pit was concerned, appeared to be largely to keep near to short, owing to the uncertain outlook regarding crop conditions in the west. July ranged from $1.09⅞ to $1.10⅝, closing firm at $1.10¼, a gain of ⅝c net.

Corn closed at intermediate prices, after having been swayed alternately by the wheat strength and by a forecast of fine weather and of larger receipts. July fluctuated between 75⅞@75⅝c and 75⅞@76⅝c, with the close firm, ¼c up at 76⅝c. Cash grades were in fair demand. No. 2 yellow, 83c.

Cash houses led the buying in oats. July ranged between 30⅝c and 31⅛c. The close was strong, although the top figures of the day showed a rise of ⅛c over last night.

Provisions averaged firmer. In the end September lard was 7½c up, but the added expense for the rest of the list did not exceed a nickel.

STOCKS AND BONDS.

Review of Operations on Stock Exchange During the Day.

NEW YORK, May 25.—The only changes of note at the opening of today's stock market were an advance of 1¼ points in People's Gas and 1 point in Seaboard Air Line preferred. The active issues were extremely dull.

Apart from a further rise of 3⅛ points in People's Gas, based on rumors of an increased dividend, dealings in the first half of the session were almost featureless. Sears-Roebuck was down 2⅝.

The market closed steady. The final hour was duller than the first, with no change in general conditions except for some slight activity in issues of minor importance. Chesapeake & Ohio and Canadian Pacific were the only railroad stocks to gain a point.
