GRAIN AND PRODUCE MARKET

Early Messages from Wheat Belt Are Very Bullish.

CORN MART HAS FOUNDATION

An Increased Run from Country is Due, but Receipts Not Expected to Run Heavy for Any Length of Time.

OMAHA, June 3, 1912.

Early messages from the winter wheat belt were very bullish indicating that recent rains were not sufficient or general enough to insure a safe crop. High winds are reported and warmer weather will quickly dispose of the recent moisture and the trade can expect more adverse reports. Cash wheat demand is not urgent enough to be a bull help at this time. The market will turn on weather and crop news from Kansas and Nebraska.

The corn market will be based on commercial as well as crop conditions from now on. An increased run from the country is due, but receipts are not expected to run heavy for any length of time as reserves are extremely low. At the same time the new crop has a fine start and this will be a bearish consideration.

Wheat opened steady and worked sharply higher on bull news. Weather conditions are reported dry and crops are said to be going back. Cash wheat was 1½c higher.

Corn followed wheat slightly higher, but heavy receipts and fine growing weather brought out enough selling to check the advance, cash corn being unchanged to 1c higher.

Primary wheat receipts were 383,000 bu. and shipments were 404,000 bu., against receipts last year of 664,000 bu. and shipments of 237,000 bu.

Primary corn receipts were 1,668,000 bu. and shipments were 396,000 bu., against receipts last year of 1,172,000 bu. and shipments of 767,000 bu.

Clearances were 500 bu. of corn, 42,000 bu. of oats and wheat and flour equal to 801,000 bu.

Liverpool closed ⅛d higher to ⅛d lower on wheat and ¼@⅜d lower on corn.

The following cash sales were reported: Wheat: No. 2 hard, 2 cars, $1.07; No. 4 hard, 1 car, $1.03; No. 4 mixed, 1 car, $1.03; 1 car, $1.02. CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, June 3.—Irreparable damage said to have been inflicted on thousands of acres of wheat in Kansas and Nebraska sent the price of the cereal today to a much higher level.

It was declared by experts that the rainfall which was supposed to have broken the drouth had been altogether insufficient over a large portion of the two states named, and that moisture now for such districts would be without avail. The close was firm, within a shade of the top figures reached 1⅞c to 1⅞@2c net advance.

Corn finished ¼@⅝c to ⅝c up, oats with a gain of ⅜@1¼c and provisions dearer by 27½@40c.

What had the most bullish effect on the wheat market was a prediction that in consequence of the alleged damage in the west, the next crop report of the government would show a radical falling off in the figures, telling the condition of the crop. Except during a brief interval at the outset, there was energetic covering by shorts throughout the session. First came news regarding the inadequacy of the rains in Kansas, and this soon had quotations moving rapidly upward. Advices, however, which arrived later from Nebraska proved even more sensational to speculators. The showers there had been lighter and the damage reported more severe.

Wheat traders here were influenced by the fact that markets near to the scene of the crop damage displayed a tendency to lead in the price advance. Moreover the weather forecasts held out no hope of rain so that the outlook in both Kansas and Nebraska beyond the injured area was again considered critical. July wheat ranged from $1.08⅛ to $1.10⅛@1.10¼, with last 1⅞c net higher at $1.10¼.

Long corn holdings were let go early by weak owners. Fine weather furnished the incentive. July fluctuated from 71⅝c to 73⅛@73¼c, closing steady ¼@⅝c up at 72¾@73c. Cash demand was better. No. 2 yellow was quoted at 74½@75½c.

Active shipping demand upheld oats at a sharp advance. July ranged from 49⅝c to 47½ and closed at 49¼@48⅝c, an advance of 1¼c net.

Provisions worked higher all around on account of a lively buying in which a big packing concern was decidedly conspicuous. Hog receipts here were 9,000 fewer than expected. At the windup pork had risen 35@40c, lard, 27½@30c to 32½c, and bacon 27½c.

STOCKS AND BONDS.

Review of Operations on Stock Exchange During the Day.

NEW YORK, June 3.—Little of interest occurred in the early part of today's stock market. The movement was unsteady in the main, with fluctuations of a point in the coal shares, Union Pacific, Canadian Pacific, Can and the coppers. The Amalgamated company issued its annual report showing earnings slightly in excess of the preceding year with a large gain in surplus. American Tobacco was the feature of the high priced specialties, gaining over 14 points, on rumors of an impeding dividend. Dealings were light and obviously professional. Bonds were steady.

Apart from substantial gains in such specialties as Can and Tennessee Copper there were few changes of note at the opening of today's stock market. Most of the active stocks rose fractionally on light dealings, with a steady general undertone.

Dullness and reaction followed the steadiness shown at the opening. Some specialties were unusually strong, however, American Tobacco rising 9 points, with material gains in Harvester, Republic Steel preferred and Sears-Roebuck.

The market closed steady. Final dealings brought no change from the stagnant conditions of the early afternoon, except for mild pressure on the coalers and a further rise in specialties already mentioned.
