IF YOUR FEET HURT—BEWARE!

YOUR HEALTH IS IN DANGER—BODILY INJURY MAY RESULT.

People who have brain trouble, backache, spinal trouble, dislocation of small bones, strained vital cords and numerous other serious troubles—they fill their stomachs with medicines and rub their bodies with ointments. Yet in ninety cases in a hundred, these same people have not reached the seat of the trouble. If they had only taken care of their FEET these terrible afflictions would not have occurred.

Sore, burning, squeezed, tired feet—OH! THE POOR THINGS!—covered with blisters, bunions and corns—will cause you to strain and limp. Your feet become over-worked—they need a rest and treatment. But you keep right on abusing them—you strain when you walk. And do you know the RESULTS? The vital cords and bones of the body—connected with the feet—become injured, strained, dislocated. And what are the results. You may go through the rest of your life limping—frowning—suffering. But if you will SANATITE your feet each morning with that marvelous new remedy we hear so much about—SANATITE—all the soreness will vanish—the blisters will heal and corns and bunions will cease to be cruel punishment. SANATITE is different from any other foot remedy known. It's in a dry form—in a powder puff. SIMPLY DUST IT ON THE FEET—no fussing or mussing with soaking and water. The antiseptic ingredients in SANATITE DRAW OUT the poison and pain.

Your DRUGGIST has SANATITE in 25c and 50c packages—get one before you ruin your health. Don't try anything else—take no chances—insist on SANATITE. If he can't supply you, SEND 25c DIRECT to The GERMILIDE CO. (Also Makers of Denver Mud), 16th Street, Denver, Colo. D2404

AFFAIRS AT SOUTH OMAHA

Graduates of High School Hear Address by Dr. I. F. Roach.

ADVANTAGES OF AN EDUCATION

Young Men and Women Advised to Increase Earning Powers by Pursuing Education to Finish—Plans for the Fourth.

Directly attacking that system of education based upon a mere accumulation of data in the mind of the pupil Rev. Dr. I. F. Roach departed from the usual laudation of things as they are before the graduating class of the South Omaha High school last night and urged a financial support of a system that would encourage the work of teaching the pupils how to think as contradistinguished from memory practice.

Witty, cultured, yet with an abundance of human nature, Dr. Roach was en rapport with his hearers from the first. The vantage point of the speaker was the viewpoint of the ordinary American school boy. Education for profit, the speaker showed, was carried to a degree of finality that rendered a higher education less desirable for the ordinary boy. Education rightly understood and inculculated by competent teachers would bring out the best that is in the pupil by the development of the power of reason and concentration of thought. Statistics showing the relative earning power of four boys choosing a career at 16 years of age were adduced to prove that education pays financially in the long run. Of the man who leaves school for labor at 16, the speaker said, there could only be a possible earning capacity of total principal not exceeding $10,000, paying a weekly salary of $10 per week and attained at the age of 22 years. The tradesman might aspire to a possible earning capacity of $15,000, or $15 per week, attained at the age of 25 years. At the age of 32 years the technical man attains his zenith as a money getter and his whole earning capacity never exceeds $32,000 or $32 per week. The point made was that the university man who spends more time and money than the other three classes in education would attain an earning capacity of $43 per week at the age of 35 years and still aspire to a possible earning capacity of $75,000 per year.

The speaker laid much stress upon the fact that politics and religion should be kept out of public schools. "There is no place in the public school system for politics or denominationalism, said the speaker, but there is still room for higher morals.

Following the address of Dr. Roach the annual scholarship to Nebraska university was presented to Miss Agnes Swanback, who carried off first honors with a percentage of 92.35, as against the average of John Orchard, who attained a grade of 92.16. Orchard had already won the scholarship to Swarthmore university at Philadelphia.

During the intermissions the high school orchestra, under the direction of Miss Eunice Ensor rendered selections from the classics. The following is the list of graduates and the program of the evening:

Selection, girls' glee club.

To Donate Fireworks.

That every child in the city may participate in the Fourth of July celebration to be held in South Omaha, S. S. Goldstrom, a member of the finance committee of the Booster club proposed that the club make provisions for donating candy and fireworks to the children of the city. It was urged by the proposer of the motion that many of the children in the city are of foreign birth or foreign parentage and in most cases very poor. The chairman of the club, Mayor Hoctor, at once appointed S. S. Goldstrom and Mesdames L. B. Berger and Joe Byrne to make the necessary arrangements for carrying out the beneficent idea.

Reports from the press committee and the finance committee were more than encouraging and it was stated at the meeting that the prospects for the celebration justified the expectation of an improvement over last year's turnout.

The following committees were appointed last night:

Auditing—P. J. Martin, Ted Shanahan and Perry Wheeler.

Lodge Drills—P. Powers, Doc Warner, C. W. Miller and Jeff Cooley.

Fireworks—Lew Etter, J. J. Hinchey and John Kennedy.

Attractions—George Kennedy, Mike Culkin, George McNeil and Joe Walker.

Music—Tom Alton, John Gillin and Frank Tetiva.

Parade—John McKale., T. J. McGuire, Percy Ambler, John Briggs and J. P. Sullivan.

Sports—Percy Ambler, Del Pearce, Fred Parks, John O'Leary and Ren Rickard.

Student Actress Continues Part as Mother Lies Dead

LINCOLN, Neb., June 8.—(Special Telegram.)—The appearance of Miss Verna Coleman of Albion, a senior in the State university, made the annual senior play, "Midsummer Night's Dream," the most notable success of recent years. But few in the audience who listened to the merrymaking realized that tragedy lay heavily on the heart.

Miss Coleman's mother died Thursday night at Albion, and while the body lay in its casket at the home of a sister in Lincoln, the grief-stricken daughter was entertaining hundreds in the merry, elfish part of Shakespeare's most popular comedy.

A little group of friends back of the stage burst into tears at the close of the second act as the clear, ringing laughter of Miss Coleman grew fainter and fainter as the little elf disappeared in the stage woodland.

Wednesday Miss Coleman received word that her mother was dangerously sick. Before she could reach home, Mrs. Coleman had died, and the girl brought her mother's body to Lincoln. Her appearance in the play was absolutely necessary as the time was too short to coach another in the part. Friends prevailed upon her to continue in the play, and after some hesitation she finally consented. Her work tonight was marked by a dramatic intensity rarely ever seen in an amateur production, and so carefully did the slender Puck conceal the grief that was breaking her heart, only a few in the audience realized how near the leading spirit of the play was to collapse.

Prisoners Eat Soap in Endeavor to Get Taken to Hospital

After being caught in two desperate attempts to escape from the county jail within a period of twenty-four hours, Alex Sears, aged 20, made a record late last night by attaining a mark of three disappointments in as many days.

Sears, who is serving a ninety-day sentence, and Cal Rothe, who is in for the same period, secured a bar of castile soap in some manner yesterday afternoon and last night each devoured a half of it in the hope that such severe sickness would follow that it would necessitate their being taken to the county hospital, where they could easily effect an escape. In their eagerness to escape, however, they both ate the soap at the same time, and when Assistant County Physician C. B. Edwards arrived his suspicions were aroused by their simultaneous illness.

He examined the mouths of each and found traces of soap, whereupon he immediately notified the deputies.

"Take us to the hospital," wailed the pair, who were really very ill, but not in a dangerous condition.

The deputies refused to allow the physician to go near the prisoners when they learned what had caused their illness and that they would be all right in the morning. Both prisoners are considered to be dangerous ones and today Jailer Cahill will put each in solitary confinement.

Merty O'Donnell, the third of the trio that attempted to get out of the jail Thursday night by sawing out a bar, was released from the jail late in the afternoon on an appeal bond put up by Judge Cooley and approved by Acting Police Judge Barker. Half an hour after he was released he was arrested on Douglas street by Patrolman Chapman and lodged in the city jail upon a charge of vagrancy. O'Donnell has been sentenced to serve ninety days three different times, but each time he secured his liberty by filing notice of appeal.

In police court he was given ninety days, but the sentence was later suspended with the understanding that he would get out of town at once.

Water Consumers Must Use Meters

D. J. O'Brien, C. S. Sherman, P. C. Heafey and R. B. Howell have returned from Louisville, Ky., where they attended a meeting of water board experts. They come back weighted with the responsibility of handling the Omaha plant. One of their first steps toward improvement will be the abandonment of the flat rate system entirely and the installation of meters in every home.

Meters will also be used at the plant to record the quantity of water pumped and meters will also record the quantity pumped through the mains. In this manner it is expected to determine the per cent of waste and to eliminate it as far as possible.

Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor apetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy originally prepared by Doctor R. V. Pierce. *Medical advice is given free* to all who wish to write for same. Great success has come from a wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are OF KNOWN COMPOSITION. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.
