## CAMELS LADEN WITH BOMBS BLOWN TO PIECES BY TURKS

(Correspondence of the Associated Press.)

CAIRO, Egypt, April 26.—Camels laden with bombs and petrol were blown to pieces by the Turks so that those living carriers of ammunition would not fall into the possession of the attacking English, during the sensational dash of the duke of Manchester's armored motor-car battery through the Libyan desert.

This British expedition, consisting of thirty-two men, nine armored machines and one open car, containing a mounted machine gun, began its pursuit at Sollum, in northwestern Egypt. Dashing at racing speed along the Tabruk road, over which the Turks had retreated, the British, after covering twenty-three miles, came unexpectedly upon the enemy, whose troops were on the move.

The Turks opened fire with their only artillery in position—one ten-pounder and two machine guns. The British battery swung into line, silencing the Turkish guns and then capturing them after shooting down the defenders almost to a man.

The Turks were now scattering in every direction. The attacking batteries dashed here and there, killing all Turks who offered resistance. Those who chose the alternative of fight paused long enough to fire upon their camels, which one by one disappeared as their packs exploded with terrific force.

When all other ways fail, try a Bee Want Ad.

## TIGER HUNTERS REPORT PLENTY OF GAME IN CHINA

(Correspondence of The Associated Press.)

WUCHOW, Kwangsi Province, China, April 24.—Tigers are very plentiful this season. Last week five tigers were carried through this city in bamboo cages by native trappers. All the tigers were at least half grown, and were offered for sale. Tiger meat is especially relished by natives because of their belief that it will confer upon them untold strength and bravery.

Bee Want Ads serve hundreds daily.
