2 PROPOSED CONSTITUTIONAL AMENDMENT.

Trains is submitted to the sleeters of the State of Mehraska, to be voted upon at the teneral election should be sho

Roland Orr brought a grain sack to Approved April 3, 1967.

I. Geo C. Junkin, Secretary of State, of the State of Nebraska do hereby certify that the foregoing proposed amendment to the Constitution of the State of Nebraska is a true and correct copy of the original enrolled and engrossed bill, as passed by the Thirtieth session of the legislature of the State of Nebraska, as appears from said original bill on file in this office, and that said proposed amendment is submitted to the qualified voters of the state of Nebraska for their adoption or rejection at the general election to be held on Tuesday, the 2d day of November, A. D. 1908.

In testimony whereof, I have hereunte set my hand and affixed the Great Seal of the State of Nebraska. Done at Lincoln, this 15th day of July, in the year of our Lord One Thousand Nine Hundred and Eight, and of the Independence of the United States the One Hundred and Thirty-thire, and of this State the Forty-second.

PRACTICAL

DEMONSTRATION.

Actual Operation of Postal Savings

Two Years' Experiment Indicates the Plan Is Successful.

The only postal cavings bank system in operation under the American dag is that to the Philippines, where, after two years of experiment, the institution has been declared a great success In the report of the Philippine commission, just published, the postal savings bank is discussed briefly, to part as follows:

"The postal savings bank was first opened in Manila on Oct. 1, 1906. The law provides for three classes. with itmitations as to the amounts that can be received at any one time it each class. Following the opening of the Mantia office, other postal sayings bank offices were opened in various cities, of different classes, until at the close of the year 235 had been opened of which 9 were first, 86 were second and 140 were third class.

Filipinos Adopting System.

"At Grat the Filipines did not to any great extent avail themselves of the opportunity of depositing a portion of their receipts to the postal savings bank and a great bulk of the depositors were Americans and of other nation alities. As the advantages of this sys tem bave been disseminated through means of schools, government bureaus, private agencies and others, the proportion of Filipinos is continually in creasing, and gives very good promise that the Filipinos will learn to trust their money to the care of the govern ment, and welcome the opportunity.

"The accounts opened up to the close of the fiscal year numbered 2,676, of which 347 were closed, leaving 2,329 still open. The depos to reached the total sum of 786,361.03 pesos-an average of 108.21 pasos. Withdrawals reached the total amount of 280,499.21 *esos, leaving a net deposit of 609,463 i pesos at the end of the Dscal year or the first nine months of the operation of the postal savings bank-but oy no means the first nine months of operation of the average number of offices, the smaller ones having beer opened from time to time during the year, so that many he not been of ned more than a month two at the time these figures were taken.

Encouraging Small Accounts. "The device of issuing postal savings bank -tamps has met with sorresponse. The stamps are simply a method by which small amounts can be deposited without the expense of issuing a book, figuring interest, and

opening an account. "On the whole, the reception accorded the postal savings bank has been gratifying, and gives good promise. hands of a postal savings bank invest ment board, which carries a certain amount of the funds on deposit, and bas limited power of lavestment. The law provides that 25 per cent of the money held on deposit may be loaned on first-class real estate, under limitations carefully drawn to protect the depositors, and 10 per cent on agricutural lands under still more rigid limi

AS ROOSEVELT SEES BRYAN.

You say that you bave sdvocated more radical measures against private monopolies than either i or my party associates have been willing to undertake. You have, indeed, advocated measures that sound more radical, but they have the prime defect that in practice they would not work. I should not in this letter to you discuss your atti tude on this question if you did not yourself bring it up, but as you have brought it up. I answer you that in my judgment the messures you advocate would be wholly meffective in curing a single evil, and so far as they had any effect at all, would mere ly throw the entire business of the country into hopeless and atter cont islon. I put Mr. Taft's deeds against your words. I ask that you be judged both by the words you wish remembered, and by the words that seemingly you and your party now desire to . I hold it have for cotten entirely natural for any great law defying corporation to wish to see you placed in the Prestdency rather than Mr. Taft. Your plans to put a stop to the abuses of these corporations are wholly enimerical. - Theodore Roose

If it is true that Roosevelt is going to take to the stump Bryan will havto take to the woods.-Philadelphia
