And I smiled to think God's greatness flowed around our incompleteness,
Round our restlessness His rest. —Mrs. Browning.

WOMAN'S SECTION OF THE BEE

He leads us, but when love is grown
To ripeness, that on which it throve
Falls off, and love is left alone. —Tennyson

Who Are Eligible to Attend Conventions as Delegates.

Various questions as to who shall be delegates to the National Union in Woman Suffrage convention in Chicago February 12-18, as well as to the congress of Women Voters, differ of course now. The following information will answer some of the queries.

In connection with the National Woman Suffrage Association the number of delegates to the National American Woman Suffrage Association at which state auxiliaries are invited will be determined as formerly by the number of dues-paying members.

In the Congress of the League of Women Voters. All national woman civic organizations doing propaganda or legislative work in harmony with the projected program of the League of Women Voters will be invited to send 10 delegates. Each state auxiliary of the National American Woman Suffrage association will be invited to secure one delegate from each state women's organization similarly interested, the delegates to be chosen by the association to be represented. Delegates to the convention of the National American Woman Suffrage association will be ex-officio delegates to the Congress of the League of Women Voters, but will constitute not more than half the number of qualified delegates of that convention, providing other organizations co-operate in launching the League of Women Voters by appointing the delegates to which they are entitled.

How to Make Up

For the home, the street and social affairs. Sane, sensible suggestions by The Dolly Sisters

Hair on the Face Is Most Untidy

It is desirable not to have any hair on the face as powder gathers there even if there is a slight growth, and the bandage necessary to take it out before going out on the street.

Often a growth of hair on the upper lip gives a good looking woman an coarse appearance. It is utterly foolish for a woman to so far neglect herself as to allow such a growth to accumulate.

She can at least use peroxide of hydrogen night and morning. This will bleach the hairs till they are less conspicuous. The hairs can be pulled out one at a time, after which a healing cream or witch hazel should be applied freely. It is however, better to have them removed by electrolysis.

In shaping the eyebrows it is better to pull out the hairs unless you have the means to have them removed electrically. It takes patience as well.

Peroxide of hydrogen is usually not a sure bleach. It not only whitens the hair but the skin. If the hair grows low on the neck and you are in the habit of shaving it use the peroxide to make the shaved area look whiter. If the hair is dark, even though you shave closely, the roots of the hair will look dark. It is easy to apply the peroxide night and morning but do not allow it to touch the hair.

There are several depilatory preparations for removing hair. One of them is made of 100 grams of sulphide of soda and 300 grams of chalk. After mixing thoroughly, the preparation should be kept dry, in a corked bottle.

When applying, mix first with rain water to make a thick paste. Leave on the hairy surface from one to two minutes, until a burning sensation is produced. Remove with warm water. Then massage with a good cream.

If the skin becomes irritated by the application use witch hazel immediately after removing.

Another depilatory is made of 80 grams of barium sulphide and 400

grams of powdered chalk. The barium sulphide must be absolutely dry when mixed with the chalk. This book is made into a thin paste just before using.

Still another depilatory which we find does not irritate the skin unless used two days in succession, is made of

Barium sulphide ..... [illegible] drams
Amid ..... [illegible] drams
Oxide zinc ..... [illegible] drams

You will find the powder and cream may be used with much greater success if the hair on the face is watched carefully and attended to

Heart Beats

Little Love God
Has put up
His arrows—
Folded his wings
And gone soundly
To sleep
Long, long years
He battled
Through upheavals—
Faced raging war
And pestilence—
With dauntless courage
Rose above greed
Which saturated
Every corner
Of the earth—
Every little village
And hamlet
Of the world
From place to place
From land to sea—
To battle lines
And trenches
He was faithful
He rode the air
Concealed himself
In soldier's mail
Though it lingered
Long enroute
He made men glad
A million little arrows
Sharp and stinging—
He placed within
The quiver
At his side,
Night and day
To his vows
He was faithful—
Recognizing
Naught but victory
In joining hearts.

* * *

But now
The war has ceased—
And no relief
In prices
Or conditions
There are no homes
To rent—
There are no clothes
For those
Of modest means.
The cost of food—
Necessities—
Is doubling each season—
The plainest fare
Is quite beyond
All reason.

* * *

His work he found—
Each day more difficult—
Dim Cupid sighs—
Weary and discouraged
With the fight—
The magic of his wand
Has lost its power—
His wings are folded
Arrows scattered—
Sorrow to the world—
The Love God sleeps.
