Prof. Pickering of Harvard Takes Issue with Dr. Lowell as to Danger.

Professor William H. Pickering of the Harvard astronomical observatory, asserts that the chances of a collision between the sun and some dark body, as recently described by Dr. Percival Lowell, are remote.

Dr. Lowell is giving a series of lecfures at the Massachusetts Institute of Technology. In concluding the first of these he graphically described a possible end of the world. He pictured space as fatrly swarming with dark stars which were a menace to the solar system. Contact with one of these dark stars would disrupt the solar system, destroy the sun and the earth and form New nebulae. Professor Pickering admits that such dark stars exist, but folds that to represent them as fairly swarming in space is incorrect.

"The chance of a collision," said Professor Pickering, "is about one in 100,-Q00,000 raised to the hundredth mil-Honth power, which even to one only slightly acquainted with mathematics means that such a collision is highly improbable.

"A more possible danger, but nevertheless a highly improbable one, is that the solar system in its journey through space may come close enough to some such dark body as to cause a disturbance in the orbital motion of planets and perhaps carry some of them, the earth included into space. The entire danger is so remote, however, that there need be no popular apprebension about it."

SUNDAYSCHOOL RECIPROCITY ON

Draft of the Study Course for 1912 Is Made by Great Britain.

America's position as the "mother country" of the Sunday school ceased with the ending of the annual meeting of the Infernational Sunday School Association Executive Committee in Chicago. Heretofore it has been the policy of the American section of the association to dietate the course of religious study for classes all over the world. A draft of the course for 1912. presented, had been arranged by the Executive Committee of Great Britain and will be promulgated by authority of the English section alone. A scheme of reciprocity has thus been launched, the American and English committees directing the courses of study in alter-

The uniform study course for 1911, the last under America's supreme dictatorship, is now announced in full, It will be historical in tone and will cover the old testament from the death of Solomon to the close of the testament, with a complete historical study of the prophets. The course for 1912, beginning a new study cycle of six years, will dwell upon the life of Christ, using the synoptic gospels of Matthew, Mark and Luke.

THREE POWERS HARD UP.

United States, Great Britain and Germany Are Facing Deficit.

Three of the great powers, the Unit ed States, Great Britain and Germany, are about to wrestle with the deficit question. The British liberals estimate the gap between revenues and expenditures which parliament must make good by new taxation as \$50,000,000, while the conservatives, after the manner of opposition, put It at \$70,000,000. The German government wants \$118,-000,000 more revenue at once, and here Daniel, the senior minority member of in the United States we know that the committee on finance, followed Senwhen the books are closed at the end of the current fiscal year there will be deficit of more than \$100,000,000.

In all three countries big military but on account of the absence of a and naval appropriations are largely responsible for the excess of expenditures, though in peither Great Britain nor Germany is the proportion of the taxpayers' money devoted to fleets, pensions and armies as great as our own.

It is reported that Gov. Smith, of the Philippines, will resign his executive position and sail for San Francisco May 15, to resume the practce of law which he abandoned when the Spanish-American war began.

In a Chicago interview William J. Bryan said that the fact that Nebraska had adopted the Oregon plan for electing Senators had no connection with the candidacy of any one. He had urged its adoption, but did not know yet whether he would be a candidate for the Senate or not. He said; "In many ways it is attractive. It is the position to which I aspired when a boy, but I had rather do the work that has fallen to me as a private citizen than to hold any office, even that of Senator." At the same time attention has been drawn to the new campaign begun through Bryan's paper, the lommoner, which is sending urgent letters signed by Bryan's brother, Charles W., to persons willing to undertake the work of organizing local clubs. Each letter contains several posters headed, "Mr. Bryan's Plans," and naming the vital issues, as the tariff, postal savings banks, Imperialism, State rights, primary laws inheritance tax, initiative and referendum and recall commission form of government for cities, regulation of railroads and other corporations, popflar

A big drought was berulded in nineteen of the twenty-seven counties of Michigan where local option elections were held the other day, and 600 saloons, together with ten breweries, were voted out of existence. On the same day, one more county in Kentucky joined the dry column, Boyd, making the total of ninety-six prohibition counties in the State famed for its distilleries. The rural section of Long Island, New York, voted to license the saloons for the next two years. The Alabama Supreme Court has upheld the State prohibition law, unanimously, this being the second decision in favor of the State-wide law. Its enforcement will now be begun vigorously. Gov. Shallen-berger has signed the "daylight saloon hill." under which the sale of liquor will be forbid except between 7 a. m. and 8 p. m., after July 6. Two more counties voted wet in Indiana, Cass and Blackford, but by a close majority, and the drys claiming Cass. Official vote to de-

election of Senators and income tax.

Republican supremacy in the Chicago City Council will continue as a result of the recent election in that city. The Democrats increased their number of

wents from twenty-six to twenty-nine. The Massachusetts Legislature, in joint session, had a hot fight over the choice of a successor to Treasurer Chapin, who had been made savings bank commissioner. Senator Stevens was the choice, notwithstanding the fact that it was pointed out that the constitution directs that the choice must be "from the people at large." The scating of Stevens is to be contested in the courts.

Several of the prominent Socialists have made replies to the Roosevelt attack in the Outlook on their political faith, those generally appearing in the Socialist papers. But one, that by Joseph Medill Patterson, the wealthy Chicagoan, appeared in the Chicago Record-Herald of recent date. As to the charge that Socialists preach free love, Patter son replies: "They do-in this sense: That they believe woman should me eco nomically independent, so that when the time comes for her to marry she may give herself to the man she loves, not sell herself in married prostitution to the suitor with the goost money."

WHEAT SCARCITY IS GENERAL

Argentina's Crop Short-Mexico Has Famine-Flour \$1.30 Higher than Last Year.

Rise in the price of flour until the uills in America are selling spring wheat flour at \$7 a barrel, or \$1.30 more than a year ago, is brought to light as one of the effects of the present condition of the wheat market and the country's supply of the cereal. According to the Chicago Dally News, managers of the Washburn-Crosby Company, the Phisbury-Washburn Company and the Northwestern Consolldated Milling Company, which operate what are declared the largest mills in the United States, and practically fix the price of flour, say there is no re-Hef in sight from present conditions. and every indication is that the price of flour will continue to soar and may go to \$10 a barrel. The rise in the wholesale millers' price is being followed by a rise in the price to brokers and consumers and will result in materially affecting the price of bread and bakery goods. The price of rye flour and other breadstuffs has also been increased, the rise in the price of rye flour per barrel being about 30 cents in less than a month.

The managers of the milling companies deny that there is any combination to increase prices or to control the business. They insist that the rise in the price of flour is due to the scarcity of wheat and breadstuffs in Europe and other countries to the insufficient supply in the United States in the light of the demands which are now being made and to the general wheat situa-

The price for wheat will be stiff all through the summer, the millers declare. The United States has grown a larger crop than a year ago, but the world's supply is short. There is a wheat, flour and bread famine in Mexico. The price of Argentine wheat is \$1,25 per bushel and of Winnipeg or Canadian wheat about \$1.27. The shipments from Argentina are short and Argentina has been shipping principally to Liverpool. This increased the Liverpool demand for American ship-

It requires five bushels of wheat to make a barrel. Taken at \$1.29 per bushel the wheat in each barrel of flour costs \$6.45. Add to that 40 cents for sacks or wood basins, 20 cents for freight, 15 cents for delivery, 5 cents for storage and 25 cents for selling and carrying accounts. That will make the cost price of flour \$7.50, from which deduct 40 cents for "off-alls" or the bran and other products saved from the wheat, which makes the price \$7.10. And in some instances the freight, delivery, storage and other expenses are higher than those given. It would not be surprising in the light of present existing conditions and in the face of the outlook for the future that flour vould go to \$10 per barrel.

SOTHERN DIVORCE IS LOST.

Nevada Court Denies Decree Asked for by Actress Against Spouse.

One of the most important legal de cesions ever written in a District Court of the State of Nevada was handed down and filed Monday in the second judicial District Court in Reno by Judge W. H. A. Pike, when, in an elaborate opinion on the marriage and divorce law of Nevada, he announced his refusal to entertain invisdiction of the celebrated proceeding begun last July by Virginia Harned Sothern for divorce from E. H. Sothern.

Judge Pike's decision, it is conceded, settles beyond question the fact that Mrs. Sofbern cannot secure a divorce from her husband unless either she of her husband comes to the State and takes up such a residence there as proves conclusively a bona fide intention to remain there. The particular point settled is that on complaint filed by a non-resident plaintiff with process served on a non-resident defendant, who happens to be temporarily in the State, no jurisdiction is secured for the purposes of allowing a divorce decree,

The effect of the decision will be revolutionary. There are at least twenty-five actions which are withheld awaiting the outcome of this investigation, and it is probable that the seekers will either return to the East or settle down to the former custom of watting slx months, which custom was religiously followed until the originality of Mrs. Sothern's counsel devised a plan that up to now promised hope.

LOT YIELDS \$8,500 TREASURE.

Bought for \$116 with Aged Man's Baried Hoard on It.

While digging a post hole in an aban doned lot Lexington, Ky., workmen found a brass kettle containing \$8,500 in gold and silver that apparently had been buried for half a century. The lot formerly belonged to J. C. Dewitt, an aged man, who died several years ago. The lot was sold at commissioners' sale a short while ago for \$110

OCEAN NOTE ASKS AID FOR GIRL

Writer Tells of Being Drugged at San Francisco and Takes to Sea. After drifting for weeks in the Pacific Ocean, a message purporting to tell of the plight of Rosaline Rockayn, a Denver girl, who was drugged at San Francisco and carried out to sea by a man was washed up on the water front at Oakland, Cal. The paper was contained in a bottle which the girl threw from the cabin porthole of her prison ship trusting that her appeal would some one who would inform her relative and bring about her release.

DENOUNCES WHEAT DEAL.

Secretary Wilson Predicts Patten's Corner Will "Go to Smash." James Wilson, Secretary of Agricul-

ture, sald in answer to James A. Patten's charges that the figures of the Department of Agriculture con-

in Chicago is engaged in a scheme to rob the consumer and to make money."

If Mr. Patten is flour permanently up to the rates recent-SEC. WILSON. correct there is a serious shortage in ly quoted even 6 cents would not give wheat in America. If Secretary Wilson is cororect there is no shortage at all, but only an artificial famine engendered by Mr. Patten for speculative purposes. Also, if Secretary Wilson is correct. Mr. Patten's deal will go to

smash soon. The Secretary of Agriculture Insists that the government's report to the effect that there were 143,000,000 bushels of reserve wheat in the farmers' hands on March 1 was strictly correct and that he knows where the wheat is. "We do not get our information from postmasters!" exclaimed Secretary Wilson angrily when the Patten statefarmers who are reliable, conscientious men. We have been perfecting our system for gathering information for the last twelve years, and it is as correct and thorough as it is possible to get. To corner the wheat market successfully nowadays you have to keep buying and buying and buying. Finally the time comes when you can't buy any more, and then the smash comes."

ELEVATOR BOY RESCUES GIRLS. Rups Car Through Blinding Smoke to Top of Gotham Building.

Fire in the Empire Building at Broadway and Bleeker street, New York, entrapped 150 girls working on one of the floors. The dense smoke was carried quickly up the elevator shaft, which was open and at the bottom of which was Tony Sarino, the elevator boy, and his car. He knew nothing of the fire until aroused by the screams from the girls on the tenth floor, who were imprisoned by the smoke which filled the elevator shaft and the stairs. Sarino shot his car through the smoke to the top of the shaft and bravely made more than a half-dozen trips to the street level, bringing many of the girls to safety. Others of the girls were brave enough to descend by the fire escapes.

Justice Exonerates Lads Who Killed Father to Save Themselves.

Three boys who killed their father, William Thomas, to save their own lives at Delamar camp on the Nevada desert, were exonerated and discharged by a justice of the peace at Delamar. After beating his wife, Thomas went to the brush and prepared to hang the boys, 10, 13 and 15 years old, when the 13-year-old seized a gan and killed his father.
