The Consumers Ice company finished their job of harvesting ice at Crystal lake Tuesday, paid off their force of men and closed down their plant. This has been a great year for the ice men, and they have made good use of the opportunity by getting up a good supply for ice and resumed work Thursday morning for the balance of the week.

A civil service examination will be held in this place February 5, 1910, when applicants for census enumerators will be given the examination required by the government for all census enumerators. All wishing to take the examination for the precinct in which they live should write to Joseph A Hays, Central City, Neb, superintendent of this district, for application blanks before Jan. 31, when the time for receiving applications closes. Blanks will then be mailed in time for taking the examination, February 5th.

James Foster, who has been in the custody of the sheriff since the last term of district court, for failure to furnish a bond for the maintenance and support of the illegitimate child Lucy E Martin, took French leave Tuesday night, and so far no trace of him has been found. It has been customary to lock him in the steel cell at night, but on Tuesday night six sleepers applied for shelter at the county jail and as there were only beds for four in the jail Sheriff Rockwell let Foster occupy a bed in his office.

About 4 o'clock in the morning Foster raised a window and dropped out of sight for the present. He had gained the confidence of the sheriff's force, and had even entered into a contract with Wm Biermann, deputy sheriff, to go to South Dakota with him in the spring and work for him on his claim, provided he would furnish a bond for his release. But his treachery got the better of him, and he availed himself of the opportunity to escape. As he cannot be brought back from another state on the charge under which he was being held, we can voice the sentiment of the community by simply saying "good riddance of bad rubbish."

Heikes-Bartels Wedding.

(Continued)
At the home of the bride's parents, Mr and Mrs Fred Bartels, near Hubbard, Neb., on Thursday, January 20, 1910, occurred the marriage of Charley Heikes to Miss Minnie Bartels. When the hour for the service arrived Miss Mabel Bartels, sister of the bride, played the wedding march, followed by a solo "O Promise Me," sung by Miss Gertrude, of Ponca. Len's Barke acted as bride's maid and George Heikes as best man. Little Hazel Ostmyer carried the ring in a white ribbon, trimmed with blue and white ribbons. The ceremony was performed at high noon, by Rev Fred Gertrude, of Ponca, Neb.

A four course dinner was served to sixty guests immediately after the ceremony, the dining room being beautifully decorated with blue and white ribbon, bells, amilax and ferns. The bride carried a bouquet of white roses and wore a white rose in her hair. The bridesmaids carried white carnations.

Many beautiful and costly presents were received by the newly wed couple. After the festivities the happy pair left on the evening train for Denver, Colo., on their honeymoon trip.

Louis Bartels and wife, of Kansas City, and Charley Bartels, of Omaha, came to attend the wedding.

GUSTAV GERLACH

The following is a description of Gustav Gerlach, the fugitive, who was wanted by the authorities of Dakota county for shooting and killing Joseph Ene at Emerson, Nebr, January 13, 1910.

Gustav Gerlach alias August Gerlach, is twenty-six years old; occupation, butcher (has worked in mines in Germany); color, white; complexion, medium light; color of hair, light brown; color of eyes, blue; height, five feet, nine inches; light brown mustache, hair rather thin in front; weight, 160 to 170 pounds. He has been in German army; will smoke and drink and is very social. Born, March 5, 1884, in Scherzroisken, East Prussia, Germany.

Owing to the fact that neither Sheriff Rockwell nor County Attorney McAllister were notified of the murder until in the afternoon of the day following, and then only by rumors heard on the street here, the man who did the killing had ample time to make his getaway. As soon as it was learned definitely that a murder had been committed County Attorney McAllister telephoned to the marshal at Emerson to arrest and hold the man who did the shooting until an officer could get there. The marshal paid no attention to the order and allowed the man to escape.

When the Hair Falls

Stop it! And why not? Falling hair is a disease, a regular disease; and Ayer's Hair Vigor, as made from our new improved formula, quickly and completely destroys that disease. The hair stops falling out, grows more rapidly, and all dandruff disappears.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

The little book in each package gives the formula of our new Hair Vigor, tells why each ingredient is used, and explains many other interesting things. After reading you will know why this new preparation does its work so well.

WOULD YOU PREFER LEGAL NOTES

For the first time in the history of the campaign for state-wide prohibition, a prohibition paper has just admitted that so-called county option is county prohibition.

This admission was made in a late number of the Nebraska Issue, which is the organ of the Nebraska Anti-Saloon League. An editorial under the caption of "Our County Option Bill" undertakes to explain the terms of the county option bill the league will present to the next legislature for action. We quote from the editorial the following sentences:

"The proposition is so phrased as to submit the question of county prohibition to the vote of the people at a legal election. . . . The strength of the bill is in the unique phrasing of the proposition to be voted on; it is this, 'Shall this county become anti-saloon territory' the vote being 'yes' or 'no.' If a majority vote 'yes' thereafter no licenses are to be granted within the county. . . . If by any chance a county fails to become anti-saloon territory it doesn't vote 'wet.' It simply does not vote 'dry.' All laws remain as before and all 'dry' territory within the county remains 'dry.' . . . This is not another liquor law. It is distinctively a temperance (prohibition) measure."

The reader will note that this bill is styled a county option bill by the prohibitionists and yet the language used by the organ of the Anti-Saloon League makes it clear and self-evident that it is impossible for the man who casts a ballot for the wet policy to have his will registered in an election as contemplated by the bill. In view of this fact why is the voter to be given a ballot enabling him to vote "No?" For no other purpose than to deceive! All votes cast for the dry policy will have the full force and effect that every legal ballot ought to have in any state, but the votes cast for the wet policy are to be shorn of full force and effect. This means that all the voters who may wish to have the license policy are to be disfranchised. In many counties a majority of the voters would cast ballots for the wet policy under the proposed law.

COUNTY PROHIBITION.

(Omaha World-Herald, October 25.) Thanks are due the ladies of the W. C. T. U. for plainly and unmistakably defining the liquor issue as it will be presented in Nebraska next year. Those who are for prohibition and those who are against it, those who are for county option and those who are against it, are alike and equally interested in knowing exactly what it is they are fighting about. Nobody wants to win by taking an unfair advantage, and no victory would be permanent that was won by befogging the issue and deceiving the people.

Mrs. Frances B. Heald, the president of the state organization, in pleading with the national organization to endorse the stand in favor of county option which the Nebraska W. C. T. U. has taken, made this frank statement:

The Anti-Saloon League county option bill was submitted to the executive committee of the state W. C. T. U. and found to be county prohibition and nothing else. The officers of the Anti-Saloon League have pledged us their word that they will join with us in working for state-wide prohibition the minute this county prohibition bill is passed.

This makes the issue so plain that he who runs may read. County option is desired first, not because it is county "option," but because it is "county prohibition."

As soon as county prohibition is obtained the advantage thus won is to be used immediately to advance the campaign for state prohibition, which, if successful, will wipe county option out of existence.

The one is to be merely the stepping stone to the other. Without county prohibition the prohibition forces believe it would be extremely difficult to secure state prohibition. But with county prohibition they are confident it will be impossible to defeat state prohibition.

Right of Trial by Jury.

(Louisville Courier-Journal.) The state of Alabama, which has been in a condition of aberration for some time, now proposes to withdraw right of trial by jury in an effort to enforce the Fuller law providing for the abolition of the interest of an anti-liquor crusade. While the right of trial by jury is customarily spoken of as inalienable, it is so only when a state of sanity in the body politic is presumed. The federal constitution protects the right against violation by congress and the federal judiciary, but except as they are restrained by their own constitutions, states may abolish the jury system. The extremism expressed in the Fuller law made it plain when the bill was passed that the forces behind it were slated for ultimate defeat. The next exploit of the fanatics was to inaugurate a movement to amend the Alabama constitution in the interest of the Fuller law. Now comes as a logical development an effort to gain the desired end by denying the accused liquor sellers the right to be tried under a system that has stood for some seven centuries in the most highly civilized countries, despite its admitted defects. Anti-prohibitionists in Alabama should halt this latest development joyously. It will hasten the overthrow of the opposing forces.
