

# Does Not Color Hair

Ayer's Hair Vigor, as now made from our new improved formula, does not stain or color the hair even to the slightest degree. Gray hair, white hair, blonde hair is not made a shade darker. But it certainly does stop falling hair. No question about that.

Does not change the color of the hair. Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

Indeed, we believe it will stop every case of falling hair unless there is some very unusual complication, something greatly affecting the general health. Then you should consult your physician. Also ask him about the new Ayer's Hair Vigor.

## Local Items

Friday, Feb. 25, 1910

We have as good a stock of hardware and tinware as there ever was in Dakota City, and you will find our prices right. Schriever Bros.

Bargains at Van's every day. Geo Haase was a Sunday visitor at the parental home here.

Bert Powell and family moved here from South Sioux City last week. Verna Brothall visited in Sioux City over Sunday at the Art Nordyke home.

The schools will hold exercises today, commemorative of Washington's birthday. Chas Ostmeier has purchased the Theodore Bliven farm five miles southwest of here.

Lewis Cooley came down from Wakefield Tuesday to spend a few days with relatives. Mrs George Niebuhr went to De Smet, S. D. last Friday to visit her daughter, Mrs A B Rich.

Miss Lillian Hoyt of Sioux City spent a few days here the past week, the guest of Genevieve Stannard. If you haven't got time to do your own shopping call up No. 1, and he will deliver the goods promptly.

Miss Lena Sunt graduated last week as a nurse from a Des Moines hospital. She is now doing special work in Sioux City. Rev J L Phillips, of South Sioux City, left Wednesday morning on a business trip to the western part of the state.

Mrs L C Goodell has returned to Homer to reside with Mrs Orville Lake while Mr Lake is on the road weighing mail. If the clubbing rate of the Herald with the Farmers Tribune for \$1.00 does not appeal to you try the Herald and Sioux City Daily News a year for \$2.20.

Ed Waldman and family removed to Emerson Monday, Mr Waldman having severed his connection with the Burlington road as section foreman at this place. Mrs Elsie Powell was married in Sioux City Monday to Patrick J Welch of Arkansas City, Kans. The ceremony was performed by Judge Hutchison in the court house.

Julius Quintal was up to Elk Point, S. D. several days this week looking after the disposal of his corn crop. He says they had about six inches of snow while he was there. Mrs George Lillie and two children left for their home at Maxbass, N. D. Monday, after spending a month here at the home of Mrs Lillie's parents, Judge and Mrs D C Stinson.

Mrs R E Evans, associate grand matron of the O. E. S., visited the chapters at Bloomfield and Hartington Monday and Tuesday evenings and held a school of instruction at each place. The Wm Clapp sale held on Tuesday at his farm below Homer was a big success financially, and everything brought good prices. Thoroughbred cows brought as high as \$126 each.

The officers of the Dakota County Women's Institute have appointed the following executive committee: Mesdames Geo Miller, Elmer Blessing, J. W. Winebrenner, Chas Bryant and Miss Lizzie Haase. A card from Dr D C Stinson, who is traveling for the National Office supply company of Zion City, Ill., states that he spent Sunday at Steele City, Neb., and was doing better than he expected in his new line of business.

Emory McFadden, son-in-law of C T Barto, died at Wakefield Sunday morning of diabetes. Only last Friday he made a business trip to South Sioux City, stopping off at this place a few hours. He leaves a wife and three small children. The Ladies Aid Society of the M E church will give a 10-cent luncheon at the home of Mrs Etta M Spencer this afternoon. Mrs S R Bonton, who is soon to leave for her new home near Norfolk, Neb., will be tendered a farewell on this occasion.

Chas H Gillin and Hulda S Tobien, both of Sioux City, came over to this place Monday to have the nuptial knot tied, but were compelled to go home disappointed. Judge Heffernan not being in his office to issue the necessary permit. They returned to Sioux City to have the ceremony performed. The marriage of Chas Fueston and Mabel Smith took place Thursday at high noon at the home of the groom's parents, Mr and Mrs James Fueston, in this place. Only the immediate relatives of the contracting parties witnessed the ceremony. Rev W R Warren, pastor of the M E church officiated. The newly wedded couple will begin housekeeping on the Rob Hileman farm March 1st. Congratulations and warm wishes from a host of friends are extended them.

South Sioux City school district No 11 has lost out in the Normal school bond case which has been in courts for the past ten or twelve years, a decision having just been handed down from the federal court of appeals. The case involves a bond issue amounting to \$22,500, which was issued to build the normal school building, which has stood unoccupied since its erection. It will be a hardship on this district to pay this amount, from which it will receive practically no benefit. Undoubtedly the party who stole the files in the Mable Moore ("Big Mable") and Lulu McIntyre cases on Monday of last week, the opening day of district court, must have contracted a bad case of "cold feet," for the papers were returned as mysteriously as they disappeared, and are again in the possession of Clerk of District Court George Wilkins. The papers were taken from the desk of Mr Wilkins on Monday of last week while he was witnessing some papers at Judge Graves' desk in the court room, he being absent only a few minutes. On last Friday morning when Bert Rossiter, the court reporter, went into the court room to prepare for the day's work he discovered the missing papers lying on the table used by the attorneys during court sessions. How they got there is a mystery that can only be solved by some one who is overzealous in their efforts to befriended Big Mabel and her cause.

## DISTRICT COURT DOINGS

District court resumed work again this week. On Monday the time was occupied hearing equity matters. Tuesday being a national holiday court adjourned until Wednesday, when the jury reported for duty.

The Omaha precinct assessment case was finished last week and a decision was rendered in favor of the county. This case involved the right of the commissioners to increase the assessment as returned by the assessor on land values, and since the action was started about a year ago most of the taxes from that precinct have been paid under protest.

The case of Adams vs Moeller is now on trial before a jury, and is an action brought by Mrs Margaret Adams against the proprietors of the saloon in this place at the time her husband was injured in a scuffling fray in front of the saloon, and afterwards died from the effects of the injury received. Alfred Chaille who was conducting the saloon for August Moeller at the time, is made defendant in the case; also the bond company that furnished the surety bond for the owner of the saloon.

Called Home. The death of Mrs Michael McKivergan of Goodwin, Neb., occurred about 4 o'clock Wednesday morning at the home of her sister, Mrs Wm McCallen in Pipestone, Minn. Mrs McKivergan was born in County Dawn, Ireland, in 1836, where she spent her childhood days. From there she came with a few relatives to Cedar Falls, Iowa. Later she moved with her husband to Goodwin, Neb., where she has since lived. Last October she went to Pipestone to visit her sister. Although suffering with dizziness for some time, her death was unexpected. All that medical aid and loving care could effect were exercised in her behalf but God knew best. Having received all the rites of the church she calmly resigned her soul into His keeping and entered into her last long sleep. The deceased leaves six children, two brothers and one sister, all of whom were present except two daughters. She was a loving wife, a kind mother, a good christian and a model woman. Her life was spent in ceaseless toil and the proper rearing of her family. She was always ready to give her assistance to any one in distress.

The remains were brought to Goodwin where the funeral took place Friday morning from St Mary's Catholic church at Vista.

How to Test Seed Corn. The best way to test seed corn is in a germination box. This is a simple affair and can be made by anyone in an hour's time.

Take a box six inches deep and about two by three feet in size. Fill the box about half full of moist dirt, sand or sawdust. Press it well down so it will have a smooth, even surface. Now take a white cloth about the size of the box, rule it off checkerboard fashion, making squares one and a half inches each way. Number the checks 1, 2, 3, and so on. Place this over the sand, dirt or sawdust.

Take the ears to be tested and either lay them out on the floor and mark a number in front of each or attach a numbered tag. Now take of about six kernels from each ear (not all from the same place, but at several points on all sides.) Put these kernels on the squares corresponding in number to those placed on the ears of corn. Be careful not to get them mixed. Keep the ears numbered to correspond EXACTLY with the numbers on the squares of cloth.

After the kernels have been placed carefully on the cloth which covers the moist sand, dirt or sawdust, cover them with another cloth, considerably larger than the box; cover this cloth with about two inches of the same moist sand and keep the box in a warm place. It must not get cold.

The kernels will germinate in four to six days. Remove the cover carefully to avoid displacing the kernels. Examine them carefully. Some will have long sprouts but almost no roots; others will not have grown at all, but the kernels from ears which will produce corn if planted, will have both sprouts and good root systems.

Compare the numbers on the squares with those on the ears. Put back into the feeding corn bin the ears which correspond in number to the numbers on the squares where the kernels did not grow or where they showed only weak roots.

The ears numbered corresponding to those on the cloth which showed strong signs of life are the ones to preserve for seed. Every kernel from these ears should produce a stalk, every stalk an ear.

Suppose one dead ear is planted. The planter fails to get one thousand stalks of corn—almost twelve bushels of corn lost.

Seed Corn. I have 2,000 bushels of fine Iowa Gold Mine seed corn, crop of 1908, for sale. Thomas Graham, Postoffice, Jackson, Neb., Residence 2 miles north of Hubbard.

Experiments With Seed Corn. The Nebraska experiment station has just issued bulletin No. 112 on "Experiments With Corn."

The results secured by two methods of conducting an ear-to-ear breeding plant are reported. An average increase of about eight bushels per acre has been secured by selecting the best yielding ears by means of the ear-to-ear test. Directions for conducting an ear to row breeding plant are also given.

The effect of different rates of planting on the yield of grain and fodder is discussed, also the effect of thick and thin planting on the value of ears for seed. It has been found that seed grown in plots where the planting was uniformly thick has given better results than seed from thinly planted plots.

A comparison of different methods of distributing seed in planting has been made for two years. Corn planted at a uniform rate of three grains per hill has been compared with corn distributed in various ways, as would be the case if a planter were dropping unevenly. Very little difference in yield has been secured from the different methods of distributing seed.

Hotel Business For Sale. On account of ill health I have decided to offer for sale my hotel business in Dakota City, including all the hotel furnishings, also all supplies on hand. Anyone desiring a first-class hotel location can get a bargain by writing or calling on Thos. Debien, Dakota City, Neb.

Lecture Course Dates. R L Kemple, Wednesday, Mar 23, 1910

## Cost of Planting Dead Ears of Corn is Tremendous

Take the average ear of corn—it contains from 900 to 1,000 kernels. Each kernel planted should produce a stalk, each stalk an ear. A good ear planted should produce from 800 to 1,000 stalks and each stalk an ear. A dead ear planted will produce nothing—that means a loss of 1,000 ears or 12 1/2 bushels. Twelve good ears of corn of average size will plant an acre. Think how the yield is cut down when one or more of these twelve ears are not capable of producing corn.

Tests in Nebraska show that not only one ear in twelve but six ears in twelve are unfit to plant. Farmers who have been producing from forty to seventy bushels per acre during the good seasons of the last few years, will positively produce from fifteen to thirty bushels if untested seed corn is planted this year.

A New and Interesting Book. We are just in receipt of an unusually attractive circular announcing a very unusual book—"The Stark Year Book for 1910"—which is now being sent out by Stark Bros Nurseries & Orchards Co, the famous nurserymen of Louisiana, Mo. The book contains 116 pages, 32 of which are a four-color process reproductions of fruit in nature's own colors—the most natural, like-to-nature illustrations we have ever seen. The other 84 pages are devoted to full descriptions and prices of the various fruit trees, shade trees, ornamentals, vines, plants, roses, small fruit plants, etc, grown by Stark Bros.

Any of our readers who are planning to plant a home orchard or to increase the beauty of their home grounds by planting shrubbery, roses or other plants this spring, should by all means send for the "Stark Year Book for 1910." It really is a remarkable volume—one you will thoroughly enjoy looking through because of its exceeding beauty and one you will find very practical and helpful. Stark Bros have advised us they will send this beautiful book to anyone interested, on receipt of 7 cents to cover postage. Address them at Louisiana, Mo.

For Sale. A large list of Cheyenne, Morrill, Box Bluff, Kimball, Scotts Bluff and Banner county Nebr. lands. Ranches, re-inquisitions railroad contracts, school sections—all sizes and prices from \$6.50 per acre and up for deeded lands.

Having a personal knowledge of these lands I will go and show them to those who wish to invest. S A Combs, Homer, Nebr.

A Giant Radish From Japan. The February issue of The Fruit-Grower, published at St Joseph, Mo, is an Annual Gardening number, and comprises eighty pages and cover. It contains a number of interesting articles on the subject of spraying, marketing and packing of fruits, in addition to a mass of interesting data on the subject of gardening.

One of the main features is the story telling how readers of The Fruit-Grower raised the Giant Radish from Japan, Sakurajima, to an enormous size, some of the radishes weighing as much as twenty-three pounds.

The article in question is profusely illustrated and give reports from a number of readers who have grown real giants of this giant radish. Sample copies of The Fruit-Grower will be sent free to our readers, who will write to the publishers and ask for them.

CHURCH NEWS. Services at the Methodist Episcopal church every Sunday as follows: Preaching, 11 a m; Sunday school, 10 a m; Class meeting 12 m; Epworth League, 6:30 p m; Preaching, 7 p m.

PROGRAM. The Wednesday Literary club will meet with Mrs Evans March 2nd, at which time the following program will be given: Roll Call—Quotations from Irving... American Literature Study, pages 128.

From the Record—Little Vida Hardin is seriously ill at her home in this city. John Barrett was down from Morrill over Sunday.

Mr and Mrs. Ralph Goodwin, who live south of town, returned this week from a short visit in Iowa, and left Tuesday for an extended trip in the west.

Mr and Mrs. J. W. Hazelgrove are moving from their farm, at Salem, to their new home in South Sioux City this week.

Willie Mullins returned Saturday from Avoca, Minn., where he was attending school. The buildings of the school burned. None of the boys were hurt.

Mrs. Henry Pilgrim left Friday for Pender, where she will visit a sister. Mrs Pilgrim stops at Emerson to attend a function given by the Odd Fellows and Rebekah lodges at that place.

Col. H. O. Dorn is this week crying the big auction sale being conducted by the Cash Department Store in Sioux City. The sale was well advertised and in drawing large crowds.

Robert Black, sr., has purchased from the Foye's the privilege at their Crystal Lake Park for the coming season. Mr. Black has the big ball park and this new enterprise will make him doubly interested in Crystal Lake as a pleasure resort.

J. L. Phillips was a business visitor at Hancock Wednesday. While there he traded his Hancock property off for a quarter section of Cheyenne county land. Mr. Phillips also bought four lots in a Panhandle, Texas, town.

C. D. Smiley moved last week into the rooms over his new store building at the south end of Dakota street. Very commodious and comfortable apartments have been provided on the second floor. At four rooms are about ready for occupancy.

G. E. Wright, who has been night depot clerk for the Chicago & Northwestern route in Sioux City for several months and who was formerly the Omaha agent here, has been appointed to the position of day ticket clerk at Duluth, Minn. He leaves for his new position as soon as a man can be secured for the vacancy and was in South Sioux City Wednesday, bidding his friends goodbye.

The Burlington railroad is reported to be making extensive preparations to improve their tracks between this place and O'Neill. The business on this line has outgrown the road. New ballast will be put in, new rails in some places and the track straightened out in its most crooked parts. With all this construction work on the Burlington and the relaying of the Omaha tracks between here and Sioux City, this summer promises to be a busy time for the South Sioux City railroads.

## Estimates... Repair Work Promptly Attended to

E. & B. L'b'r. Co. New Stock Light and Heavy Work Harness, Collars, Pads, Halters, and Everything in Saddlery. Buy of us and You'll pay less. Edwards & Bradford L'mb'r Co. V. O. Lake, Resident Mgr. Dakota City, Neb.

YOU'VE been reading a lot lately about wear and wearability of paint; and there are paints that do have these qualities. But there's one paint that has more than these, for it possesses the peculiar quality of sustained wear, namely the Mound City Horse Shoe Brand; the paint with the life in it; the paint that's made of honest Lead and honest Zinc and Pure Aged Linseed Oil; the paint that wears and looks better than Lead.

Horse Shoe Brand Paint, all colors, always gives a clear, beautiful, living look to the finished job. Never bleary, or muddy, or gummy; none of that dead, dull appearance. Then, too, it pays to come to a store where they are able to advise you and help you to get the most good out of paint. If you read this ad, you will know where such a store is right in this very town.

Besides the House Paint, there's a Horse Shoe Paint for every purpose: Floor Paint, Barn and Roof Paint, Buggy Paint, To-Walk-On Stain, Screen Paint, Wagon and Implement Paint, what you want for whatever you want to put it on. Let's tell you about one of these Horse Shoe Brand Specialties: Floor Paint: Horse Shoe Brand Floor Paint is the best floor paint we know anything about, for the reason that the more you wash it the harder it gets, like cement. Wears like concrete and yet keeps alive all the vivid color that it had when first applied.

So, when you're ready for paint that is paint, and does what good paint ought to do, here's the place and here's the store that sells it. You can trust the paint and you can trust the store; two things worth remembering.
