With this declaration as its guiding principle the department of justice Wednesday filed with the supreme ourt of the United States a 1,000page brief in support of its petition that the "Standard Oil" be dissolved as in violation of the Sherman antitrust law. One of the two thick volumes of the brief is devoted to an analysis of testimony taken in the circuit court of the United States for the eastern district of Missouri, which decreed that "Standard OH be dissolved." Monster Sum is Stolen by a French Official.

The arrest of M. Duez, of Paris, folwing his confession that he had misappropriated something like \$1,000, 000 of funds derived from the sale of church property for which he was the liquidator, has created a great sensation. Intimations are freely made that other liquidators in the employment of the government are similarly involved.

The republican press finds no words of excuse for the disgraced official and lays much of the responsibility for conditions of affairs upon the imnense amount of work assigned to a single liquidator. At the same time the papers accord the government unstinted praise for its courage in boldy exposing the scandal on the eve of the general elections, when it is sure to become a powerful weapon in the hands of its Catholic adversaries, who for months have been organizing genuine political compaign.
