MT. ETNA IS ACTIVE

SICILIAN RESIDENTS IN FEAR OF LOSING LIVES.

Flow of Melted Rock Starts in Several Streams and Unites in One Great Mass Twenty Feet High--New Craters Are Opened.

Mt. Etna, whose eruptions in the past have wrought great destruction, is again in a violent state of activity. The pronounced movement within the crater began Wednesday evening, steadily increasing in volume and Thursday night the gravest fears were entertained as to the results if the eruption continues in its present violent form. From Catania a correspondent reported in the direction of the mountain. Beyond the village of Macalucia, twelve miles in a direct line from the crater, a thick curtain of smoke was encountered which entirely concealed Etna.

At Nicolosi, ten miles from the crater, the entire population had gathered in the square to watch the volcano, which appeared as a black phantom above. Now and then it was illuminated with flashes of light, appearing almost red. Higher up the rain of cinders became thicker and extended a deep roaring was heard and detonations like the sound of artillery followed one another in quick succession, while the earth shook under foot.

The meteorological station on the mountain side has been destroyed and the village of Borrello is in serious danger.

The populace, terror stricken, are flying from their homes. The earth shocks have reached about fifty in number, but there is a continuous vibration and trembling for many miles around. Everywhere the villagers are carrying images in procession and imploring mercy.

Twelve new craters have been opened.

DISPUTE TO BE ARBITRATED.

Agreement Reached Between Firemen and Western Railroads.

Terms of agreement in the federal mediation of the controversy between the 27,000 firemen on western railroads and the railroad managers were reached at an early hour Thursday morning. The demands of the firemen for a 12 1/2 per cent increase in pay will be arbitrated under the terms of the Erdman act. Any fireman temporarily promoted to be an engineer, after having held the position for sixty days, establishes his seniority and must not be reduced, irrespective of which union he is a member. The agreement in all except the wage question was a compromise by both sides. On the wage question both sides agreed to abide by the decision of the arbitration board, which is to be selected later. The terms were agreed to by W. C. Nison, general manager of the St. Louis and San Francisco railroad, on behalf of the managers' committee, and by W. S. Carter, president of the Brotherhood of Locomotive Firemen and Engineers.

FLAMES CHECKED IN TIME.

Excelsior Springs, Mo., Threatened with Destruction by Fire.

Fire threatened for a time Wednesday to destroy Excelsior Springs, Mo., the watering place. The flames were checked after thirteen small houses, a bath house and a plumbing shop had been destroyed, however. The loss is estimated at \$75,000.

The fire started in a bath house. The flames were carried by a stiff wind into a section of small residences. They burned so readily that the fire department feared it would be unable to check the blaze, and a call for help was sent to Kansas City. A company of firemen with several pieces of apparatus went to the spring on a special train. By the time they arrived the local firemen had extinguished the blaze.

NINE MORE CONFESS GUILT.

Penitents Given "Immunity Bath" at Pittsburg.

Nine more former members of councils before the district attorney at Pittsburg, Pa., Tuesday confessed their guilt in accepting money for their votes while members of the municipal bodies, and before Judge H. S. Frazer received their immunity baths in the way of suspended sentence.

When the grand jury adjourned for the day just before 5 o'clock it had returned no indictments, although it had listened for hours to developments in the bribery scandal even more sensational than developments Monday. Men admitted selling their honor for from \$50 upward.

John P. Klein was before the grand jury the greater part of the day and continued his narrative of councilmanic graft. Klein recounted some of his experiences in handing out the money to the councilmen.

"There was one fellow," he said, "who was a daisy--a regular alylock for the dough. In the South Seventh business district I handed him \$81. He looked at me for a minute and then yelled like a stuck pig for the extra 10 cents--you know \$31.10 was the standard price at that deal. Well, he got the 10 cents all right."

District Attorney Blake, as soon as the councilmen bribe takers have been rounded up, will go after the bribe givers. They are said to be bank officials of institutions whose names have never hitherto been breathed in connection with the graft probe of the last two years.

The tip has been passed to these bank men that they may come in and have the "immunity" extended by the district attorney, but they so far have failed to avail themselves of the offer, and it is reported some bombshells will be dropped into the social construction of Pittsburg when county detectives "turn the money changers" out of their own "temples" and bring them before the bar of justice.

ASKS OUR RECOGNITION.

Madrid Guarantees Safety of Americans in Nicaragua.

President Madrid, of Nicaragua, has offered to give the United States every guarantee demanded for the safety of American lives and interests in that country in return for a formal recognition of the legality of the government.

Senor Corea, who represents Madrid in Washington, has been in communication with the state department on this subject and Tuesday had a long talk with Assistant Secretary Wilson. He told Mr. Wilson that England, France and other European nations already have extended such recognition, while Mexico has refrained from doing so out of consideration for the United States, being willing to await the action of this country. It appears, however, that the obstacle in the way is the insistence of the state department that the last trace of disorder must disappear in Nicaragua before recognition is extended.

HOUSE BLOWN TO PIECES.

Missouri Miner Killed and His Family Seriously Injured.

Edward Venson, a miner, was instantly killed, his wife and her mother, Mrs. Ellen Allen, were fatally injured, and his two children, 3 and 5 years of age, respectively, were seriously injured Tuesday night when a dynamite magazine at the Red Dog mine near Webb City, Mo., exploded. John Baldwin, engineer at a nearby power plant, was seriously hurt. The house in which Venson lived was destroyed.

The magazine was covered by ten feet of crushed rock and bowlders. It contained two tons of dynamite. Exploding it tore the little three-room house in which Venson and his family lived into fragments. Venson's mutilated body was hurled 100 yards. His wife and her mother were thrown over a nearby mine derrick.

BATTLE ON A TRAIN.

Three Men Slain and Others Hurt on B. and O.

An exciting battle, in which three men were killed and several injured, occurred on a northbound Baltimore and Ohio train Wednesday. The fight began at Newark, Del., and ended in Wilmington, Del.

J. H. Bethea, of Dillon, S. C., who had been drinking heavily, had quarreled with Samuel Williams, the porter, and shot him through the heart, killing him instantly. Conductor O. E. Wellman remonstrated with Bethea, who, without a word, shot Wellman through the heart, and the conductor fell dead in his tracks.

The murderer then stood off the passengers until the train reached Wilmington. When it came to the station a hurry call was sent to the police station, and a squad of patrolmen, reinforced by park guards and a posse of citizens and trainmen, ran to the scene.

The police called upon Bethea to surrender. As an answer he opened fire at the police and the crowd from an automatic revolver.

As Bethea emptied his revolver, Police Captain Evans fired a load of shot into his face. Notwithstanding this injury he kept on blazing away. Patrolman Doughman opened fire with a pistol and struck Bethea in the right arm. The desperado tried to fire again, but the police closed in, and as they took hold of him he fell dead in the arms of a patrolman.

News of the Week In Concise Form

COIN TEST SUCCESSFUL.

Farmers Bring Grain to Peru Agricultural Department.

The co-operative seed corn test, inaugurated by Prof. C. R. Weeks, of the agricultural department of the Peru normal, is proving to be a success. The agriculturists building is crowded every Saturday afternoon when the test boxes are opened showing the farmers the test on their corn which they then pick out from the sack according to the results of the test. Each farmer is permitted to bring in one bushel to be tested and is given a written record of how each of four kernels on each ear grew, using the words "strong," "weak," "dead." The poorest corn tested thus far germinated 56 per cent, while the best grew 90 per cent. The corn that tests in the 80 per cent and 90 per cent was husked early and well housed. Corn husked after the first real cold spell last fall, tests anywhere from 30 to 50 per cent good. All ears were thrown out in which one kernel did not grow or two kernels grew weakly.

SEARCH FOR LOST CHILD.

Fire Alarm is Sounded at North Platte--Lad Found at Dawn.

Mrs. Dennis Breen, who resides some distance north of North Platte, visited her father, Mr. Elias, Saturday, accompanied by her 4-year-old son, who stayed away about 7 o'clock. After searching several hours the parents of the child became desperate, and shortly after midnight a fire alarm was sounded to call the department to search for the child. More than one hundred men began the search which lasted from midnight until dawn. About 6 o'clock Sunday morning the child was found by a searcher on horseback. The lad had strayed eastward toward the junction of North and South Platte rivers, and when found was about two miles from the city. The night was not cold and the child suffered but little from exposure.

KILLED WHILE HUNTING.

Ed Von Trott, of Omaha, Accidentally Shot Near Tekamah.

Ed Von Trott, an employe of the Driebus Candy company, of Omaha, was accidentally shot and killed near Tekamah Sunday. He, with two companions, went to Tekamah Saturday to spend a few days hunting. Sunday morning they were in their boats on a lake near the Missouri river when Von Trott's boat capsized, and in grabbing his gun it was discharged, causing almost instant death. The county coroner went to the scene of the accident, but did not deem an inquest necessary. Mr. Von Trott was a single man, aged 25 years.

TAKES PART OF SOLDIERS.

Resolution is Adopted to Allow Veterans Use of Chapel.

The frequent complaints of the members of the soldiers' home at Grand Island against the treatment accorded them by Commander Ell Barnes was the subject of discussion by the board of public lands and buildings Thursday afternoon. The latest action of the commander was to prohibit the soldiers from using the chapel for their meetings and Thursday the board was informed that Mr. Barnes refused to permit them to use the chapel in which to practice for their Easter day exercises.

As a result of this last complaint the board adopted the following resolution:

Whereas, the board of public lands and buildings has on numerous occasions received communications from the inmates of the soldiers' home at Grand Island, Neb., complaining that they were deprived of the use of the chapel building for the holding of meetings that were in no way detrimental to the interests or good government of the home, and

Whereas, the board of public lands and buildings is desirous of furnishing for the inmates of said home everything in its power that will add to the comfort and amusement of said inmates, believing that they are justly entitled to all that the state of Nebraska can extend to them, and believing further,

That the chapel building was erected for the sole purpose of furnishing a place of public gathering for the members of the home and that the expenses of heating and lighting said building are no insignificant as not to receive any consideration whatever; therefore, be it

Resolved, by the board of public lands and buildings, that the commandant be and is hereby instructed to allow the said chapel building to be used by the inmates of the home for all gatherings of whatsoever kind that are not detrimental to the good government of the institution.

They also got into the notion store of Mr. Jacobson and got some small goods.

Car Strikes in Other Cities.

The electric street car men of Trenton, N. J., following the example of their fellow-workmen in Philadelphia struck in a body upon refusal of the company to even reply to their written demand for a 33-cent-an-hour wage, a ten-hour day and arbitration of matters in dispute by a board of which the union should be represented.

Americans Too Luxurious.

One of the latest explanations of the high cost of living was made by President Hamilton, of Tufts College, before the Massachusetts Teachers' Association. In no other country in the world, he said, is there the same demand and for the luxuries of life in every class of society as characterizes the American nation, none where "the laboring class demands so much." He says this class of people want the same comforts and superfluities which characterize the ways of life of the very wealthy.

CANNON OUT OF POWER BUT IS STILL SPEAKER

Insurgents and Democrats Remove Him from Rules Committee, 191 to 155.

HE RETAINS SPEAKER'S CHAIR

Resolution to Oust Him as Presiding Officer Is Voted Down by Large Majority.

Washington correspondence: Shorn of his power by a combination of the Democrats and Republican Insurgents, Joseph Gurney Cannon is now merely the presiding officer of the national House of Representatives.

The House Saturday afternoon adopted a resolution amending the rules so as to provide for the election of a committee on rules by the House itself, the committee to consist of ten members and the speaker being ineligible to serve thereon.

The full text of the resolution as passed by the House is as follows: "Resolved, That the rules of the House of Representatives be amended as follows:

"1. In Rule 10, Paragraph 1, strike out the words 'on rules, to consist of five members.'

"2. Add new paragraph to Rule 10 as follows:

"Paragraph V. There shall be a committee on rules elected by the House consisting of ten members, six of whom shall be members of the majority party and four of whom shall be members of the minority party. The speaker shall not be a member of the committee and the committee shall elect its own chairman from its own members.

"Resolved further, That within ten days after the adoption of this resolution there shall be an election of this committee, and immediately upon its election the present committee on rules shall be dissolved."

By a vote of 155 to 191 the House then defeated a resolution declaring the office of speaker vacated and providing for the immediate election of a successor to Cannon. Nine insurgents voted with the Democrats in support of this resolution.

At noon Friday the tense situation existing never would have been suspected from the appearance on the floor of the House. Apparently it was

Speaker Joseph G. Cannon.

much more serene than it had been at any time since the condition developed. The insurgent Republicans were in conference and the regular Republicans were contending that the result of the meeting would be a compromise.

While the conference was on, the House practically was in recess. The Speaker kept some one in the chair, but he wandered around the corridors of the building apparently quite unconcerned as to the ultimate effect of the strife on his own fortunes. The members were good-natured and generally discussed the situation in a friendly manner.

It was a memorable fight which daylight found still in progress in the House. A stubborn filibuster on the part of Speaker Cannon and the House organization and equally relentless attack on the part of the "allies"--these were the distinguishing features in the hottest fight that has yet been made to overthrow the present control of the House. It was extraordinary in many ways. For instance, the odd spectacle was presented of the House, preponderantly Republican, ordering the arrest of the absentees of that party on the motion of a Democrat carried by Democratic votes.

Then, too, it is not often that a filibuster is carried on by the regular House organization, virtually led by the Speaker, supposedly in full control of the House machinery, to prevent consideration of a resolution designed to overthrow that organization, make the rules and reorganize radically the committee, the tenure of whose chairmanship is supposed to be the chief asset in the Speaker's wealth of power.

It is many years, old observers say--in fact, no precise parallel has been suggested--since the House remained actually in session all night, and that after an all-day session.
