His Inalienable Right.
When Willie goes to school next
week he will have a new teacher.
The new teacher will like Willie
when she begins to know him, but the
process may take several terms.
Willie's teacher began to like him
just before the close of the school
year, and she testified to her affection
by offering him a pocketknife.

"There, Willie," she said, "you have
tried so hard to be a good boy that I
am going to give you this nice four-
bladed pocketknife—but you must
promise me never to cut the school
furniture with it."
"Take it back, teacher," said Willie,
suddenly.—Cleveland Plaindealer.

LONG TRIP IN AUTOMOBILE

Pitchers Overall and Brown to Make
Journey From Chicago to Pa-
cific Coast.

Excitement of the world's series
baseball games is not going to suffice
for Pitchers Brown and Overall after
the National league season is over.
They are going to seek adventures
outside of baseball playing. They
plan to make a trip from Chicago to
Visalia, Cal., in an automobile owned
by Overall immediately after the
world's series games are over. So far
only the two are going, but before
they start two more may be added to
the party. Definite plans have not
been made for the ride, but as soon as
the baseball season is finished they will
complete arrangements and also map
out the route.

It will be a trip of 3,000 or more
miles. How long it will take the two
pitchers they do not know. The ma-
chine is the property of Overall and it

Pitcher Overall.

is a 50-horsepower affair. Visalia is
Overall's home and besides both are
interested in a California gold mine,
which will be the chief cause of the
trip. The players will not be accom-
panied by their wives, the ride being
too strenuous.

Need Heavy Men.

"You don't want to overlook the
value of weight in the line," said an
old coach. "Of course the premium
is now placed on speed, but a good
line man weighing 150 equally as
speedy as a man weighing 185 is just
twenty-five pounds more valuable."
"Football will be faster this year
than ever. There will be more open
plays, of course, and the forward pass
will be employed much more frequ-
ently than heretofore. Removing the
penalty for incomplete forward pass
takes away the chief objection to the
play."

"Defensive men who can run and
jump will prove of vast benefit. You
cannot block the man who goes out
as speedily as a man weighing 185 is just
twenty-five pounds more valuable."

plays, of course, and the forward pass

Sad Blow to Yale.

A sad blow to the Yale team will
be the departure to the Pacific coast
of Head Coach Walter Camp. This
will leave the bulk of figuring out new
plays to Field Coach Coy and Captain
Daly.

**BALL AND BAT
NOTES**

Harry Davis is reported to be going
to manage the Cardinals next year.

Hugh Ambrose Jennings, subur-
ban Tiger leader, has signed up for
another year.

The Chattanooga baseball club has
purchased Pitcher Benton from Cin-
cinnati for next season.

Frank Farrell of the Highlanders is
said to be angling for Bobby Wallace
of the St. Louis Browns.

Second Baseman Shippingssee of the
Saginaw South Michigan league team
died of typhoid fever at Ann Arbor the
other day.

A Pittsburg official explains the
reason for the poor ballballs in the
National league this season as a mistake
on the part of the manufacturers.

Jack Hendricks, the new southpaw
pitcher of the Giants from Benton Har-
bor, Mich., is said to have as good
control of the ball as any southpaw
ever had.

Jack Coombs, the hero of the Ath-
letics' pitching staff, is to be dined but
not wined by his former college mates
right after the world's series. Jack is
a graduate of Colby college, Water-
ville, Me.

Four clubs in the Central league—
Terre Haute, Zanesville, Wheeling and
Grand Rapids—were heavy losers on
the eighth season of the league, which
closed the other day with South Bend
champions.

Arthur Irwin bought Bert Daniels
for \$200. Fred Vaughn and Swenney
cost the New York Highlanders \$1,750.
Cree was roped in for \$1,000 and Gar-
ner for about \$2,000. Stallings got
together a team of stars for almost
nothing.

Wagner's love of automobilism is
said to be the reason that the Pirate
slugger did not bat up to his usual
form in the early season. Fred Clarke
discovered the cause of the Dutch-
man's slump and prevailed on him to
hire a chauffeur.

Pitcher Elmer Steele, who worked
on the mound for the St. Paul club last
season, and who later drifted to the
Providence club of the Eastern league,
has got back into the big arena again.
The tall right-hander has been pur-
chased by the Pittsburg club.

Chance, Mack and Clarke have re-
alized the danger of tearing up a win-
ning aggregation. While continually
hunting for young talent, they never
make the mistake of allowing some
good old veteran to depart until the
youngster has been thoroughly tried
out.

Pitcher Burke of the Boston Dov-
ers pitched in 14 games and won only one,
but his average is 1,000 in spite of that.
Burke has started the fourteen
games or figured in them at some time
or another, but he has gotten credit
for winning but the one, which is re-
markable.

Addie Joss, the star twirler of the
Naps, and Orval Overall were troubled
with the same kind of malady all season.
They had a severe pain in their
elbows when they tried to pitch curve
balls, but the long rest cured Overall
and it is likely that Joss will also be
all right in time.

Charley Ebbetts of the Brooklyn club
received a letter inclosing a dollar
from a fan who stole a ball in the
grand stand last summer.

Compares Johnson With Ruie.
"Walter Johnson has as much speed
as Amos Ruie," contends Lou Criger,
who has been catching for fifteen
years, "but he hasn't the curves."
"Johnson is a comparatively green
pitcher yet, and needs to learn a lot
of tricks with a change of pace that a
pitcher acquires only with practise
before he will be as good as Ruie was."

CONFIDENCE MAKES A PLAYER

So Says Herron Schaefer, Veteran
Leader of the Washington
American League Team.

(BY HERMAN SCHAEFER.)

(Copyright, 1910, by Joseph B. Dowling.)
Confidence is everything in baseball,
and confidence in one's self is what
makes a ball player. Somehow or
other no matter how the managers of
teams thought about it I always be-
lieved I was a fair player and capable
of holding my own. I guess that is the
way I got my start.

I learned the game on the prairie
around Chicago and played with some
of the fastest of the independent teams.
I loved to play baseball, and wanted
to become a professional. Several of my
friends got into the game and made
good money, more than I could see at
my trade.

I determined to start out profes-
sionally and inside of two weeks had
a job. Somehow or other I had a
real time trying to prove that I was
a good ball player.

During that stage I think it was only
my confidence in myself and my re-
fusal to get discouraged and go home
that kept me going along. The team I
was with wanted to let me out and
along came Jimmy Ryan, who was
handling the Colorado Springs team,
and he made a deal for me. He was
as confident that I could play ball as I
was myself, and when we got together
I started to playing. I remember I hit
about 700 every time we played with
the team that let me go. Ryan boosted me
to friends of his in the big leagues and
I came back home to Chicago in fast
company. Again it was the same story,
I thought I was good enough but no
one else would believe it until I got
with Detroit. There I found another
team and another manager I could
play with.

I kept studying the game, and study-

ing the men who play it, until I had
their confidence.

The matter of success in baseball, I
think, consists entirely of confidence
and courage, willingness to take a
chance, and to fight no matter how
the game is going.

Attack "Loaded Ball."
In New York bowling circles con-
troversy has been renewed with re-
gard to the advisability of prohibiting
the use of the loaded ball. About
two years ago the New York Bowling
association let down the bars with
regard to the lead-cored sphere, but
a committee which has been consid-
ering the matter for the past two
weeks has now recommended the
repealing of the present rule.

"For a while the eastern devotees
of the game were content with mat-
ters as they stood," says the com-
mittee, "but experience seems to show
that the loaded ball in the hands of
craft players is not conducive to the
best interests of the game any more
than ratty alleys or steam-dried pins.
With the official competitive season
just beginning and the beginning of
schedules in nearly 100 leagues and
tournaments in Greater New York
alone, the subject should be acted
on at once."

Friction With Players.
Every first division manager in the
American league has had friction with
his best ball player except Connie
Mack of the Philadelphia Athletics, and
if the leader of the new cham-
pions has had any trouble he has
maintained such sphinx-like silence
that no one has been able to find out
anything about it. Manager Jennings
of the Detroit Tigers had a little spat
with Ty Cobb, Manager Donovan had
a few low words with Harry Lord
and now Manager Stallings of the
New York Highlanders has had a few
lively rounds with Hal Chase.

Talks of Fight.
"I won't say that Sam Langford can
whip Jack Johnson," says Charley
White, the sporting man who referred
the Jeannette fifteen-round fight in
Boston, "but I know that he can make
the champion go some. I witnessed such
punching as Sam put over in Boston. He
is a wonder and a match between
Johnson and he would draw almost as
big a gate as did the Johnson-Jeffries
fight."

Received Many Injuries.
"Amby" McConnell, the White Sox
second baseman, has had his share of
injuries and lay-offs since joining the
major league team. He played great
ball for Boston two years ago. Then
came an enforced lay-off owing to an
operation. He has been out of the
game twice since joining the White
Sox owing to injuries received while
sliding to the bases.

WHY NEW ORLEANS

CITY IS LOGICAL POINT FOR
WORLD'S PANAMA EXPOSITION.

Its Geographical Position and Many
Other Considerations Mark it as
Most Suitable Spot for Dedi-
cation of Great Work.

Public sentiment has decided that
the completion of the Panama Canal
in 1915 shall be celebrated with a
great International Exposition in
which all the nations of the world
may participate; and the question of
where this Exposition is to be held
will be settled by Congress at its ap-
proaching session.

New Orleans and San Francisco
are contesting for the honor of hold-
ing this Exposition, and both cities
have guaranteed immense sums of
money as an evidence of their ability
to finance so great an enterprise.

An Exposition worthy of the term
"World's Fair," such as New Orleans
proposes to build, will be a great ed-
ucational movement. Its success as
such, however, will depend entirely
upon the percentage of our popula-
tion who can secure its educational
advantages, this in turn, depends up-
on its location, as the time in travel-
ing to and from the Exposition, and
the cost in railroad and Pullman
fares, are the most important factors.

Considering these matters, New
Orleans' claims to being the "Logi-
cal Point" for this Panama Exposi-
tion, seem to be fully substantiated
by the following facts:—

New Orleans is 500 miles from the
center of population in the United
States. San Francisco is 2,500 miles
distant therefrom.

Within a radius of 500 miles from
New Orleans, there are 17,500,000
people. Within the same radius from
San Francisco there are only 2,000,000.

Within a radius of 1,000 miles from
New Orleans, there are 65,000,000.
Within the same radius from San
Francisco there are only 6,000,000.

At an average of 900 miles from
New Orleans, there are 70 of our
principal cities with a combined
population of 20,000,000. Averaging
900 miles from San Francisco there
are only 8 large cities, with a com-
bined population of just 1,000,000.

The average distance of all these
cities to New Orleans is 792 miles,—
to San Francisco 2,407 miles.

Over 75 per cent. of the people of
the United States could go to an
Exposition there at an average ex-
pense for railroad fare of \$12.50, as
against an average of \$37.50 to the
Pacific Coast; and for several mil-
lions of our people, the Pullman
fare and Dining Car expenses alone,
for a trip to San Francisco, would
amount to more than all their trans-
portation expenses for a trip to New
Orleans.

This is an important public ques-
tion to be settled by Congress at the
session which convenes in December.

Many of our readers will wish to
visit this World's Panama Exposi-
tion, and if held in New Orleans a
great many more could spare the
time and money for the trip than
could go to San Francisco. There-
fore, we urge our readers to write to
the two senators from this State and
the congressman from this district,
requesting them to support New Or-
leans in the contest.

PERSONAL QUESTION.

"Say, Mister, ter decide a bet, how
often does you eat a day? I see six-
teen times and Johnnie sez about

**WASTED A FORTUNE ON SKIN
TROUBLE**

"I began to have an itching over my
whole body about seven years ago and
this settled in my limbs, from the knee
to the toes. I went to see a great many
physicians, a matter which cost me a
fortune, and after I noticed that I did
not get any relief that way, I went for
three years to the hospital. But they
were unable to help me there, I used
all the medicines that I could see but
became worse and worse. I had an
inflammation which made me almost
crazy with pain. When I showed my
foot to my friends they would get
really frightened. I did not know
what to do. I was so sick and had be-
come so nervous that I positively lost
all hope.

"I had seen the advertisement of
the Cuticura Remedies a great many
times, but could not make up my mind
to buy them, for I had already used so
many medicines. Finally I did decide
to use the Cuticura Remedies and I
tell you that I was never so pleased as
when I noticed that, after having used
two sets of Cuticura Soap, Cuticura
Ointment and Cuticura Pills, the en-
tire inflammation had gone. I was
completely cured. I should be only
too glad if people with similar disease
would come to me and find out the
truth. I would only recommend them
to use Cuticura. Mrs. Bertha Sachs,
1621 Second Ave., New York, N. Y.,

"Mrs. Bertha Sachs is my sister-in-
law and I know well how she suffered
and was cured by Cuticura Rem-
edies after many other treatments
failed. Morris Sachs, 321 E. 89th St.,

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a
perfect oil heater is of value? If you want to sleep with your win-
dow open in winter, you can get sufficient heat from an oil heater
while you undress at night, and then turn it off. Apply a match
in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early
breakfast before the stove is radiating
heat can get immediate warmth from
an oil heater, and then turn it off.

The girl who practices on the piano
in a cold room in the morning can
have warmth from an oil heater while
she plays, and then turn it off.

The member of the family who
has to walk the floor on a cold win-
ter's night with a restless baby can get
temporary heat with an oil heater, and
then turn it off. The

**PERFECTION
SMOKELESS
OIL HEATER**

Absolutely smokeless and odorless
is invaluable in its capacity of quickly giving heat. Apply a match and it is im-
mediately at work. It will burn for nine hours without refilling. It is safe,
smokeless and odorless. It has a damper top and a cool handle. An indicator
always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick
from being turned high enough to smother, and is easy to remove and drop
back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly
unscrewed for reworking. Finished in Japan or nickel, strong, durable, well-
made, built for service, and yet light and ornamental.
