The Times office at Pender, Nebr. was detroyed by fire Monday of last week. The blaze started in the pressroom, where the printer was endeavoring to warm up the press by lighting a bunch of papers and holding it under the bed of the cylinder press. The ink formation caught fire and a gasoline lamp hanging above the press exploded and when the fire department subdued the flames there wasn't much left but a mass of "pie" and that was burned to a frazzle.

Some time ago an influential per devoted to the trusts wanted to know if "Success has become a The answer is simple enough. If success has been obtainee by legitimate methods it is anything but a crime, but if it has been gained by dishonest and unlawful methods it certainly is a crime, even if the wrongdoers manage to keep out of the clutches of the law. More than that, it is not even real success, for anything that is evil in itself or made possible by evil methods, is a failure, however great may be the financial return.

If things keep on as they have been going for the past few years, it will be much easier for an American citizen to go to jail and stay there than it will to keep out of jail. Every now and then some individual or some clique bobs up with a brand new plan for turning some of us into criminals. The number of new ways for getting a man into jail is sur-prising. Wisconsin has its "eugenics laws," which makes it a felony for a couple to marry without undergoing a physical examination. The Illinois legislature, at its present sessof a similar criminal statute. Other states are being asked to pass laws making it a felony for a citizen to have any liquor in his home, even for medical purposes. One state has a law against dancing the tango. The Indiana anti-cigarette law never has been repealed, and the state has, as a result several hundred thousand evening was postponed on account perfectly good citizens who could be arrested and sent to jail any day. Perhaps the most striking developement of our government is that the laws are not made by all the people nor by representatives of the people,

but by small cliques, highly organmail for nearly two days—something that hasn't happened before for cliques are determined to force their cliques are determined to force their views upon the whole people, while at the same time other cliques are possibly be kept out?
