Farm Bureau Field Notes

C. R. Young, County Agent
Illustrated poultry meetings will be held on Monday evening, July 11, at the Elk Valley church in Pigeon Creek precinct...

A set of slides has been secured from the U. S. department of agriculture for these meetings...

A woman director will be elected to the County Farm Bureau at the meeting in Pigeon Creek precinct and one at the Hubbard meeting...

Mr. George R. Boomer, marketing specialist of the State Extension office, will address meetings in the county from July 13th to the 15th, on the subject of cooperative marketing...

Meetings will be held at 8:15 p. m. as follows:
Nacora school, July 13th.
Caran school, July 14th.
Hale school, July 15th.

Lutheran Church Notes

By Rev. C. K. Lowe.
The junior choir under the direction of Mrs. M. G. Leamer, favored us with a song last Sunday morning...

The pastor was glad to be able to preach last Sunday morning after two weeks with a sore throat. We wish to express our appreciation to Mr. M. G. Leamer in this public manner...

On Thursday evening the Brown's Family Orchestra will give an entertainment at the Salem church under the auspices of the Dakota Precinct Farm Bureau. It will consist of songs, orchestration, and recitations...

The subject of next Sunday's sermon will be "Modern Pharisees," and will be taken from the Sunday school lesson. On Sunday, the 17th of July, we will preach on "Conversion," that taken also from the Sunday school lesson.

Rape in Corn Good Feed

A good many farmers who hog down or run sheep in corn during the fall months, sow rape in the corn. The State College of Agriculture has found rape a valuable supplemental feed where stock is turned into the cornfields...

Dougherty became a retired farmer several years ago. Besides his widow, Mrs. Helen Dougherty, Mr. Dougherty is survived by three daughters, Miss Nona Dougherty, who resides at the family home; Mrs. S. A. Teets, also of South Sioux City, and Mrs. F. T. Flanagan, of Casper, Wyo.

Home Department of Farm Bureau

From the Farm Bureau News:
Miss Jessie Green, from the State Club Department, has been visiting the Girls Clubs in the county. Miss Green has helped each club in working up the demonstration part of their program...

All of the Boys and Girls clubs of Dakota County will be interested in hearing that the Farm Bureau are planning to have a "real" picnic at Crystal lake July 15th. Every member and every leader should plan on being there because they will miss something if they do not...

There will be two demonstrations put on by a poultry club and a sewing club, so that the clubs that have not done any team demonstration work will have a chance to learn from these teams.

The Farm Bureau hopes to have two films showing the girls and boys at the International Stock show at Chicago last winter, and also a film showing the club folks at the conference at Lincoln the first week of June. Dakota County had five club members at this conference...

A hearty invitation is given to the parents of the boys and girls to attend this picnic with them. Bring your own picnic dinner and your own dishes.

Miss Agnes Ellen Harris, of the Washington office, and Miss Mather from the Lincoln office, met with the women of the county on June 16th, as previously planned. Mrs. Graham and Mrs. Forbes, officers of the Farm Bureau board, expressed themselves as very well pleased with the attendance and interest shown in the meeting.

Five precinct directors were present from different parts of the county, and with Miss Lucado, Home Dem-

stration Agent from Thurston county, and Mr. Lawrence, Asst. County Agent Leader, to help out in the program, a worth while afternoon was spent discussing Home Demonstration work for the future...

Miss Mather explained the work as it was being done over the state and how the agent can be assisted in her program by the aid of clothing, nutrition, health and home management specialists...

Miss Harris brought greetings from other states and told how "Betty," the home made dress form, originated and how it had been the means of starting community work of other kinds in many localities...

Miss Harris emphasized the fact that team work should be done in the home and the community if its Farm Bureau was to mean all that it should to a county.

Questions relative to certain difficulties in canning have been asked and we may be able to reach you through the Farm Bureau News.

1. The reasons for the liquid being lost from the jars during sterilization are usually that:
(a) The jars are not filled with boiling liquid.
(b) When the proper blanching

period is not observed.
(c) When the lid is too tightly adjusted.
(d) When the water is not kept at least one inch above the jars during sterilization.

2. Do not start counting the number of minutes indicated by the time table until the water is boiling.

3. If the rubbers have cracked or softened or bulged, replace quickly with another sterilized one and place in sterilizer for five more minutes.

4. Sterilize all lids, rubbers and jars for all products requiring less than thirty minutes boiling. For those taking longer, a very thorough washing and scalding will do.

5. Do not fill the jars past the shoulder of the jar when canning vegetables that swell, such as corn, beans, peas, etc.

6. It is not necessary for the jars to be completely filled with liquid if they have been sterilized.

Any committees wishing demonstrations in cold pack canning should let the Home Agent know about it and make arrangements for a meeting.

Resolution of Each Local Community to Insure Co-operation in Itself.

By HERBERT C. HOOVER, Secretary of Commerce

There are some economic difficulties arising from the war that will no doubt solve themselves with time, but an infinite amount of misery could be saved if we had the same spirit of spontaneous co-operation in every community for reconstruction that we had in war.

Government departments can at least try to do something to inspire such renewed co-operation. For instance, we have three or four million idle men walking the streets, and at the same time we are short more than a million homes; our railways are far below their need in equipment; our power plants, waterways and highways are all far behind our national needs in normal commerce.

To apply this idle labor to our capital equipment is one of the first problems of the country. Its solution involves constructive action in many directions, but among other things definite resolution of each local community to insure co-operation in itself. In the building trades, for instance, a "get together" of labor, capital, manufacturers and contractors in every locality to eliminate mispractices and bring down the expense of housing would comprise the first step of recovery--of re-employment.

Attention!

Your Spring Supplies We have them

- Interior Wall Finish
- Outside and Inside Paints and Varnishes
