The Man With A Millstone About His Neck

The millstone is *lack of special training*. It holds one man down to hard work and small wages while others, properly trained, go ahead. But every man and woman who is laboring under such a burden can easily rise to a better position and increased earnings and can find out how for the asking.

To find out how, simply write the I. C. S., stating the position you wish to gain. In return, an institution with 15 years of successful experience in training thousands of others for advancement will tell you how it can fit YOU for a better-paying position. No risk to run. No books to buy. Isn't such a chance for advancement worth this much to you?
