

Special Offerings At Mollring's

has tried to outdo the other in effective productions, and as a result, cottons compete with silks for highest honors.

Colors were never so perfectly woven into fabric, mercerizing never so cleverly accomplished, in fact, looms never created such idealistic materials as are now here awaiting your criticism—and ultimate choosing.

This week we give additional zest to the display by offering at special prices some of the most popular weaves.

John McNeil has some yearlings to sell.

Mr. Green was an all-day visitor at the Square Deal Store Friday.

In the Kinkaid items of a contemporary of The Herald last week there was an item containing some uncomplimentary remarks about the Hooper ranch. We have noticed that certain rural correspondents take a delight in kicking their neighbors when they are allowed to do it without signing their name to the article. And it is also noticeable that certain newspapers seem more than willing to print such stuff. While Mr. Hooper, who, by the way, is an affable, hospitable gentleman and a successful horseman, probably took no notice of the above men-

tioned reference to him and his ranch. It is a fact that the newspapers allowing these vicious statements would have considerably more influence if they would make an effort to exclude them from their news columns.

Coming, St. Elmo

Readers of Augusta J. Evans' famous novel, "St. Elmo," and they are legion, will be interested in the announcement that Grace Hayward's authentic dramatization is to be presented at the Pheasant Opera House next Wednesday evening.

The play is one of the genuine successes of the year. This is not surprising as the book has long been recognized as a standard of fiction. It was written many years ago but is equally as popular as in our grandparent's time. In fact, book-sellers say that the sales for the past three years have exceeded that of any recent work of fiction. It has been translated in a dozen languages and, although typically American in thought and action, has a tremendous vogue abroad.

Miss Hayward's dramatization adheres very closely to the story of the book and to this is probably due, in large measure, the instantaneous success of the play.

In point of box office receipts and public interest, "St. Elmo" has been a surprise to everyone. It has offered additional proof, if indeed any was needed, that American playgoers want a wholesome, well-told story and will take it every time in preference to risque importations.

A company of unusual excellence will present the play in this city.
