

SOUTH OMAHA

Great Live Stock Market of the West

THIS year South Omaha has made the greatest showing in Cattle and Sheep Receipts ever recorded in the history of the market.

The broad outlet which the market has afforded for all classes of live stock in the face of these extraordinary receipts amply demonstrates the increasing strength of the South Omaha Market and its ability to handle each year an increased percentage of western offerings.

SOUTH OMAHA is today the best market in the United States for all classes of live stock produced in Nebraska and the west generally.

SOUTH OMAHA not only furnishes a great market for the Live Stock of Nebraska but is instrumental in advertising Nebraska's resources in every city and civilized country in the world.
