DO GHOSTS HAUNT SWAMPS?
No, Never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly

typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at F. J. Brennan's.

MORE POSTAL SAVINGS BANKS

Hereafter Postmaster General Will Designate Hundreds Each Month.

Washington, May 16.—Postmaster General Hitchcock will designate fifty postal savings banks this week, making a total of 179 in existence. Hereafter between 150 and 200 depositories will be designated every month.

Mr. Hitchcock hopes to have more than 50,000 running in the next two years. He intends to start one at every money order office in the country if congress will appropriate funds necessary next year.

According to figures compiled at the postal department the annual business of the 50,000 banks would amount to more than \$200,000,000. These figures are based on the ratio of the banks in existence to the population of the towns in which they are located.

CONVICTED MAN IS INSANE

More Unusual Purchases Consigned to J. H. Kingham of Cheyenne.

Cheyenne, Wyo., May 16.—Three more motorcycles, consigned to ex-Assistant Postmaster Joseph H. Kingham, who is serving an eight-year sentence for embezzlement, arrived here and were taken in charge by Postmaster Hoyt, who is compelled to stand Kingham's shortage of \$23,336.

The fact has been brought out that Kingham recently purchased one ton of California prunes for his family's private use. There is now no longer any doubt that the convicted man is insane and the efforts to have him committed to an asylum will be renewed.

Farmers Protest Against Reciprocity.

Washington, May 12.—Country and city were arrayed against each other at the Canadian reciprocity hearing before the senate finance committee. Farmers from Minnesota and North Dakota denounced the agreement as iniquitous, while members of the boards of trade from cities along the international boundary indorsed it unqualifiedly.

Bulldog Determination Builds Prosperity

Any town or community that gets a bulldog grip on prosperity is fortunate. But the bulldog grip will not hold if some citizens pull one way and some another. All must pull or push in the same direction.

For instance, if half the people want Main street macadamized and the other half insist that Central avenue should have the macadam and each half holds there isn't going to be any macadamization in that

Once there is a creek running living on one side built at a certain bridge at the other side sections fought so the issue that no One side of the from the other there are two there used to be

out for its side to be any macadam town.

was a town with through it. Folks wanted a bridge point. Folks on wanted the point. The two doggedly over bridge was built. creek seceded side, and now half towns where a whole one.

Another way to make a half town out of a whole one is for half the people to buy their goods through the Mail Order Houses in the big cities while the other half buys from the local stores and factories.

If your place has the bulldog grip on prosperity don't pry it loose by pulling against your own local interests.

Telephone Talks

No. 2

Telephone Courtesy

In telephone affairs, as in every other business, the personal element must be considered. You are human, and the person with whom you talk as well as the operator who connects you are human.

The hastily spoken word and its inflection, no matter what its provocation, conveys an undesirable impression. Courteous talk over the telephone is like oil on machinery—it prevents friction and pays big returns.

Our operators are required to be brief but polite under all circumstances. They are instructed not to answer complaints or carry on any conversation. Their whole time is taken up in executing orders for connections.

In dealing with you we try to be forbearing, considerate and courteous, realizing that the wire between us takes none of the sting out of unkind words. Our operators try to treat you as they would face to face; won't you afford them and the persons with whom you talk the same consideration?
