THE DRY FARMING CONGRESS will be held at Colorado Springs, October 16-20. Special rates will be made for this event. All dry farmers should make it their business to attend this congress.

THE LOW COLONIST ONE-WAY RATES to the Pacific Coast are in effect September 15th to October 15th.

IRRIGATED LANDS can be secured on extremely reasonable terms; those in the Big Horn Basin present at this time a wholesome example of the value of irrigation where there is ample water. Farmers and prospective home makers from the so called region of rainfall and from dry farming areas are urged to inspect the crops and inquire about the land values in the Big Horn Basin, the North Platte or Yellowstone Valleys before they or their sons consider a home in any other locality.

Copyright, 1918, by Rev. T. S. Linscott, D.D. Daniel and His Companions; a Temperance Lesson, Dan. 1:8-29.

Golden Text—It is good neither to eat flesh, nor to drink wine, nor anything whereby thy brother stumbleth. Rom. xiv:21.

(1.) Verse 8—Who was Daniel, and how did he get to Babylon?

(2.) What did Daniel propose for his food?

(3.) What are the advantages and disadvantages (1) of a meat diet, (2) of a vegetable diet?

(4.) Is there any reason to believe that God originally meant man to be a meat eater?

(5.) If meat is necessary for strength, how do you account for the strength of the horse and the elephant, as both are vegetarians?

(6.) Is there any reason to think that the craving, or desire for meat is an artificial appetite?

(7.) What evidence is there that a purely vegetable diet would increase the health and the longevity of the people?

(8.) Verse 9—Did God in some supernatural way cause the prince of the eunuchs to love Daniel, or in any other way than through Daniel's lovable manner?

(9.) Does God turn the hearts of people to love or favor good Christians wholly apart from their actual attractions?

(10.) Verse 10—Which people are the healthier, those who have abundance of rich food and who eat all they can or those who have plain food and eat only enough to give them sufficient strength for their work?

(11.) Verses 11-13—What should be our rule as to the kind and quantity of food we eat?

(12.) Which class in the community is generally the healthier, the rich or those respectable people who have to struggle "to make ends meet"?

(13.) Take one hundred persons who drink nothing but water and another hundred persons who drink intoxicating liquor and compare their probable condition as to (a) health, (b) wealth, (c) happiness.

(14.) Who were Hananiah, Mishael and Azariah?

(15.) Verses 14-15. What was the result of the test made upon these three Hebrew young men, in eating a strictly vegetable diet, and drinking nothing stronger than water?

(16.) Should this test from experience blind our conscience, and cause us to eat and drink as they did? Why or why not?

(17.) Verse 16—What in our day are the chief evils of gluttony, and what are the chief evils of drunkenness?

(18.) To what extent would the world be better if the use of intoxicating liquor as a beverage could be stopped? (This is one of the questions that may be answered in writing by members of the club.)

(19.) Verses 17-21—To what extent may all men develop their ability by increasing their knowledge?

(20.) Why is it not possible for all persons with sufficient study to become first rank artists, orators, poets, and scientists, or to attain to supernatural powers like Daniel and his companions?

(21.) Were the learning and wisdom of these four young men acquired, or the gifts of God?

(22.) Where do you draw the line as to the possibilities of present spiritual or supernatural powers?

SPRING BRINGS SORE FEET

HERE IS A POSITIVE CURE

With the advent of warm weather comes foot troubles to thousands of people. The increased temperature and heaviness of the atmosphere causes sweating and excess perspiration. This brings on a series of foot troubles. The treatment given below will be welcomed with joy by an army of sufferers. It acts like magic. "Dissolve two tablespoonfuls of Calocide compound in a basin of hot water; soak the feet in this for full fifteen minutes, gently massaging the sore parts. Less time will not give the desired results." Repeat this each night until the cure is permanent. All soreness disappears immediately. Corns and callouses can be peeled right off. Bunions are reduced to normal and the inflammation drawn out. Sweaty and smelly feet, tender and swollen feet need but a few treatments. This Calocide is a remarkable drug. Formerly used only by doctors but any druggist now has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is claimed to cure the worst feet.

W. C. T. U. DEPARTMENT

Strong Statements by John B. Lennon, Treasurer American Federation of Labor

"LABOR AND LIQUOR TRAFFIC"

The liquor traffic everywhere stands squarely for ignorance and against education.

The liquor traffic is a non-producer and the worst non-producer in the world, and labor has to support this thing which contributes nothing of use to society.

I believe that in ten years there will not be a licensed saloon on the American continent this side of the Mexican boundary line.

It would be better to license some institution that would spread tuberculosis than to license the liquor traffic.

What they call the bad saloon, the low down saloon, could never have hired my boy. If he had gone to the bad by drink, it would have been by the influence of some of the so-called high-class bars.

The man using alcohol loses his skill and alertness of mind, and it is only a question of time when his usefulness will be at an end.

If I vote for license, I am a party to every crime in the community growing out of the liquor traffic.

The liquor traffic is always against the progress of Christianity.

What is the influence of the licensed liquor traffic in the matter of child labor? Open your eyes in your own neighborhood—you don't have to go to New York. You will find that the boys and girls of fathers and mothers addicted to strong drink will be started to work in the mills and shops on the average of two years younger than those whose parents are abstainers. I have been before legislatures in the interests of the children and there were never any representatives of the liquor interests working with us. If they were there they were working against the children.

Money spent for liquor is so much reduction from real wages. The licensed liquor saloon is the most striking example of the long work day. It is a menace to the man who is trying to shorten the work day.

Schools to Fight Tobacco

State Superintendent Crabtree has given out the following:

"On the theory that the use of tobacco is decidedly injurious to youth, the legislature last winter amended the law prohibiting the sale of cigars or tobacco in any form to minors, by providing a penalty on the one who purchases the tobacco as well as upon the one who sells."

"The state department of education desires to call the attention of those who sell tobacco to this law, and to caution against disregarding it. It is our purpose after the schools open in September to instruct county and city superintendents and all teachers of the public schools to see that the law is rigidly enforced in every community, so far at least as selling to or for school children is concerned. This department hereby announces that it will not only urge school authorities to see that the law is properly enforced, but that it will render all assistance in prosecuting those who violate its provisions. Teachers, members of school boards, parents and all others interested in the welfare of youth should render assistance in this movement to protect the boys of our public schools against the cigarette and tobacco habit, which not only incapacitates them from carrying school work, but actually leads in the direction of immorality and crime."

"A portion of the law follows: "That hereafter it shall be unlawful in the state of Nebraska for any minor under the age of eighteen years to smoke cigarettes, cigars, or use tobacco in any form whatsoever."

"Any minor under the age of eighteen years violating any of the provisions of the foregoing section shall, upon conviction, be fined in any sum not exceeding ten dollars and stand committed until the fine and costs of prosecution are paid."

"Provided that any minor so charged with the violation of this act may be free from prosecution when he shall have furnished evidence for the conviction of the person or persons selling or giving him the cigarettes, cigars or tobacco."

"That any person, firm, association or corporation in this state violating the provisions of this act, he or they shall be guilty of a misdemeanor and shall upon conviction thereof be fined for each and every such offense a sum not less than \$50 or more than \$100, at the discretion of the court, together with costs of prosecution."
