THE OLD CABINET MAKER SAYS:

That it is no wonder elastic cotton felt has taken the place of all other forms of filling for mattresses and this is the concensus of opinion of all those who have spent a night on one of our elastic felt mattresses. They are more reasonably priced than you imagine and if you sleep on one for a single night, you will not be without it for twice the price we ask. When you consider how much of the time you sleep and how much sleep means to you, you will readily agree that our invitation to inspect these mattresses is well worth your consideration.

Majestic

THE RANGE REPUTATION!

In case of serious illness, you wouldn't call in any old doctor, but would get the best doctor you knew of. The Doctor with a Reputation, the doctor that has shown his worth by years of good honest service.

Then why buy any old range, when you can get The Great Majestic. The Range with a reputation—a reputation won by years of constant, honest and economical service.

The Majestic is made right—OF NON-BREAKABLE MALLEABLE IRON, and RUST-RESISTING CHARCOAL IRON. All parts of the Majestic are riveted together (not bolted) practically airtight—no cold enters range or hot air escapes, thus baking-perfect with about half the fuel used in a range that is bolted and pasted together with stove putty.

The All-Copper Movable Reservoir on the Majestic is absolutely the only reservoir worthy of the name. It heats 15 gallons of water while breakfast is cooking, and when water boils it can be moved away from fire by simply shifting lever.

Call at our store and let us show you why the Majestic is absolutely the best range on the market.

Your neighbor has one—ask her. All styles and sizes.
