DEEP TILLING MACHINE

J. P. Barger, Proprietor of the Alliance Nursery, Receives Machine for Plowing Sixteen Inches Deep
A START IN RIGHT DIRECTION
It has been the conviction of a good many people who have observed the progress of farming without irrigation in western Nebraska that to make a success of it—or to make the greatest success of such farming—there should be some means of breaking the ground to a considerable depth. Ordinarily, what is termed "deep plowing" does not go more than six inches, if that, below the surface of the unplowed ground. There has been a good deal of talk of plowing to a greater depth than six inches, but we doubt if it is ever done with an ordinary plow.
The Herald is delighted to inform its readers that an experiment will be made this year near Alliance with a deep tilling machine, which has just been received by J. P. Barger, proprietor of the Alliance Nursery. This machine cost Mr. Barger about \$160 delivered here. It has two discs that do the plowing or "tilling." It is guaranteed to break the ground to a depth of 16 inches. One disc follows the other, but it is not termed a subsoiler for the reason that it works in such a way as to mix the dirt that is turned up instead of throwing the subsoil on top of the surface dirt. This process besides placing the land in a condition to absorb and retain the rain that falls upon it also aerates the soil, that is, puts it in a position to be exposed to the air, which is very essential to maintain its fertility without the use of artificial fertilizers.
As soon as the frost goes out of the ground Mr. Barger will begin using his deep tilling machine. He will commence on his nursery ground. After that has been put in shape for the season he will use the machine on ground intended for other crops.
We shall watch with great interest the progress of this deep tilling experiment, and wish to commend Mr. Barger for his enterprise in undertaking it. The Herald will keep its readers posted in regard to the progress of this work.

Mr. Simonson, who until a short time ago was a freight conductor out of Alliance, was in town the first of the week shaking hands with his numerous friends. Mr. Simonson is now located at Laurel, Montana, where he is switching for the N. P.
Joe L. Westover was over from Alliance a few days the fore part of the week on business and visiting his folks and friends.
Rev. J. L. B. Jones, the great evangelist, is holding revival meetings this week in the M. E. church. Mr. Jones is an able minister and the meetings are being well attended.—Rushville Standard, Feb. 9.

Uncle Jesse J. Steele is one of the veterans of the Civil war to take The Herald and enjoy reading it. He is a republican in politics, but like a large number of voters who wish to be controlled by their judgement rather than prejudice is not party bound. He is from the same part of Missouri that claims Champ Clark and says if Clark is nominated he will vote for him.
Jacob Kaper, who lives fifteen miles west of Hemingford, came down to Alliance last Friday on business, paying taxes and buying more land. He has been a resident of Box Butte county for twenty-six or twenty-seven years, coming when the Indians were here and lots of them. Indians showed him the corner of his claim. He helped to build the first Catholic church that was erected in Box Butte county, a log structure that was succeeded last summer by a new frame building. While in Alliance last week Mr. Kaper called at The Herald office and ordered his name put on our subscription list.

Last Thursday, at Alliance, according to the ritual of the Lutheran church, a ceremony was performed that united the lives of two worthy young people, Miss Marie Meyer and Mr. Wm. Fisher, of Wisner, Nebraska. Miss Meyer has been visiting for some time with Mrs. Fred Wessel, southeast of Canton. Mr. Fisher will return with his bride to Wisner, where he has a fine farm. The Sentinel extends its heartiest congratulations to these young people in their new relation. The boys of the neighborhood gave them an old fashioned chivari on last Friday evening.—Curly Sentinel, Feb. 8.

PRIMITIVE

Of course they didn't have the opportunity to get better things and so had to be satisfied. They were happy and contented in a way, too. But today you try to make your home truly a home, and there is no possible excuse for not doing so, when you have access to our stock of house furnishings. Whether you want a few odd pieces or a complete outfit, you will find what you want in our up-to-date stock. We are proud to show you these pieces and you will be just as proud to own them; and if our prices don't sell the goods, we won't try to. In view of this fact, is it not poor business for you to send away from home for goods, for which you will have to wait weeks—perhaps months—and which you will not see until paid for?
